Wilderness slayer boss osrs

From Old School RuneScape Wiki This article has a strategy guide here. All information on mechanics and strategy will be on this page. Krystilia is a master hunter found in Edgeville prison northeast of the bank. When spoken to, she expresses her love for magic and the wilderness, and claims that the guards locked her in her cell for trouble. Players can talk to her to change their respawn point to Edgeville after unlocking the feature for a one-time fee of 5,000,000 coins. Slayer[edit | edit source] She is a Master Slayer who assigns player monsters found in the wilderness. Just kill in the wilderness count for her tasks. Before being assigned a Wilderness task, she will warn you that she will assign any monster, regardless of the level of battle. In addition to this, killing monsters on her tasks can produce Larran's key, which can be used to open the small or large Larran chest, also found in the Wilderness. They act similarly to Konar quo Maen's brimstone keys and the bristo chest. Activities in Krystilia have a separate complement to the tasks, in accordance with the standard tasks. Players will have to complete a series of five Hunting tasks from it to begin to earn slayer reward points from wilderness slayer tasks. Although counted separately, players may not have a regular task and wilderness hunt at the same time. If the players do not want to do one of their tasks, they can talk to Turael in Burthorpe to give him another task; however, this will reset the player's Wilderness series of tasks (but not their normal Slayer streak load). Completing a task assigned by Krystilia will grant: Activity Range Points Given Each Task 25 Each 10 125 Each 50th 375 Each 100th 625 Each 250th 875 Each 1000th 1250 Useful Teleports [edit | edit source] A detailed map of Wilderness. Activities[edit | source editing] Of all possible activities, only spiritual creatures and Bloodvelds require a hunting level. In addition, the locations will list only those found in the wilderness. The monsters assigned by Krystilia have the chance to throw Larran's keys and hunting spells, which can be used to upgrade Slayer staff to the staff of a Strater (s). Mod Ash also said in a Q&A that Krystilia was originally to be called Kystriilia, but due to the fact that Kys (suicide yourself) being the first three letters decided to move R. Despite the newestop update attesting Krystilia attributes druids chaos and smaller demons, she did not actually assign them in the game. She began to attribute smaller demons after a 23 November 2017 and chaos druids 25 January 2018. Community content is available under CC-BY-SA, unless otherwise stated.
