Jennifer of Phoenix, review verified by AZ Review verified buyer original review: May 19, 2020One of my friends went to Allen School after high school. I took a year off and then he told me about it. It felt like a really friendly school. They weren't rude and as soon as I walked in, the girls who were in front were really welcoming. It looked like it was a really good school, and it is. I'd recommend it to anyone. I really like everything. My registration process was really fast. It doesn't take as long as I would have thought, especially with all the fax. The learning experience is also really good. Everyone who agrees with you. They're always there to help you. Whenever you need help, it's not hard to ask. Even the professors are all simple. They don't babysit you and they're not rude. They're just perfect. They're really cute and you can tell them they really like what they do. Leidy of Brooklyn, NY Verified Reviewer Verified Buyer Original review: April 20, 2020When I went there, I spoke to Lina, one of the consultants, and she convinced me to start my career as a medical assistant. I'm in the middle of the stage right now and it's almost over, but it's on hiatus because my internship has been suspended because of the Crown. Signing up went slow. As far as the financial aid side is concerned, it has been easy. My work hosted me and I was able to go to school according to my schedule, so it wasn't conflicted at all. I was able to go to school from Monday to Friday, and still be able to get my job. Three other women were great. A man also helped me a lot with the career part, how to do my resume and how to introduce myself in the workplace. He told me how to incorporate what I have already learned in this job to the internship experience. They were great instructors for me. If you're thinking about going through Allen School, you need to be prepared for the job. It's not a joke. It's only six months, so you always have to be at your best. Do your homework, take the test every Friday and try not to miss your lesson if you don't have to. You have to treat it like a job and make sure you do it. the full Keysi of Wood Haven review, NY Verified Reviewer Verified Buyer Original review: April 19, 2020One of my family members was doing the Allen School program and at the time I wanted to go back to school and do something health-based in the medical field. She made an appointment with one of the councillors there. I had to go twice, but I missed the date. I went the third time and enjoyed it when they took a tour of the school. I signed up. The learning experience was enjoyable because the teachers were helpful and would have done their best. They always allowed us to stay even after school for extra help with anything. Also, the lessons weren't that big and the students help each other. I like how flexible they were with schedules. Sometimes, when you start school, things start happening in your personal life and you have to waste days. They will always give you options so that you can insarti at your hours at the end. Read the full james of bronx review, NY Verified Reviewer Verified Buyer Original review: February 10, 2020 I heard about the Allen School from a friend and then qualified. Their registration process was quick. And I said, Okay. We put our first foot forward with a positive attitude, and I did very well -- I was probably one of the best students in the class. Then I ended up doing an internship at NYU, and that's where I am right now. There was a professor I had a hard time understanding, but other than that, the professors were very kind. Some students were tough and I saw it. But, as a good student, you let yourself be outside. Allen School has a lot of patience, and they want you to learn and succeed. They also want to educate you about what's out there in the medical field. They also see your potential, and if your potential is high, they place you in a challenging environment, but where you can manage it. Ketyne of Brooklyn, NY Verified Reviewer Verified Buyer Original review: February 2, 2020 I heard about the Allen School through a friend who previously went there and decided to attend the same school after going for a walk to see the teachers, classes and basically what the school was about. The sign up experience was great. I have teachers with different ethnicities, different degrees and different majors. Basically they take the time as well. If you don't understand, they'll stay with you after school to do it. The school chose wisely for the qualities of the professors. You could go through certain things and the professor will understand. The professors took their time to figure out what everyone else was going through. While you have to pay a certain amount out of your own pocket, they will be able to help you and adapt to your time. As long as you let the professors know, even if you have kids, they're going to go around your program and stuff. Phlebotomy is a skill you will have to learn, and teachers will allow you to inject, practice sticky needles and then withdraw blood. So, my learning experience been fantastic. If I had to go to a doctor's office, I tend to see mistakes they would make. So, so, you that the things you could learn in Allen School no matter if you're just an MA. Doctors have mistakes, too. I recently went to the doctor, and my doctor made a mistake, and that made me realize that's why I want to do it. The school helped me a lot. And when you learn and do something you love, time passes fast. On your first day, you might say, What did I do? But after a couple of days or a couple of months, you will realize that it is worth it and it will keep you going. Read jackson heights' full Viviana review, NY Verified Reviewer Verified Buyer Original review: May 30, 2020E I was looking for something fast because I have a son, so I had to have time for him. Then, I found out that Allen School was the perfect school for me as it would be six months of study and two months of training. So, that made me think it was easy for me. I'm doing my internship now. My study experience at Allen School was fantastic. I was able to understand all the teachers and if I didn't understand something, I could ask them and they could explain to me more broadly. Pedro of Phoenix, original buyer review verified by verified auditor AZ: On May 28, 2020 I had a cousin who had gone to the Allen School of Health Science and told me it was a good school to go to. It really caught my eye, especially from having a family background that is also in medicine. I decided to do something new to try and it is also finding out quite well. I liked it. It was pretty fun. Dr. Ann makes her class really fun. She's a great instructor. I loved it, as did Dr. Dan, Dr. Susan, Mrs. Vivian, Mrs. **. They're all great instructors. There are ups and downs, but in the way they teach, they try to make it easy and easy for us to learn right away. Richard of Brooklyn, NY Verified Reviewer Verified Buyer Original review: May 21, 2020I had a friend who went to Allen School and graduated. Really, I was hearing all the good things about it. I decided to sign up and that experience was smooth. Everyone helped. Then the curriculum and the teachers were great. Teachers teach you and help you. They don't mind helping. Everything was fine. Dr. **, in particular, helped us a lot. Even though we only had it for the last month, it looked like we had it all year round. He was the most helpful person. David of Phoenix, original review verified by verified auditor AZ: May 9, 2020From when I finished high school, I wasn't sure what I wanted to do. I discovered Allen School and thought I'd give it a try. The registration process was easy and they would always if I had any questions. I really enjoyed learning. Everything was practical and that's what I really enjoyed. Everyone from there has always been helpful. Every time I had a question, they answered. The professors were professional professionals knew what they were doing. A friend was asking me what I was doing now that I graduated, and I told him about Allen. I told him everything, how they treated us, how everything went and how much fun it was. Gabriela of Phoenix, AZ Verified Review Verified Buyer Review Original Review: May 6, 2020One of the workers went to my high school and talked about what Allen School was. I signed up with them and the process was very quick and very simple. But the learning experience was very stressful. There was a lot of information in a short amount of time and it was very overwhelming. Every day was a different subject and we were not allowed to have very bad votes. But the professors were very helpful and very open to questions. They also answered the questions very well. Next How do I know I can trust these reviews on American High School? Natalia of New York, NY Verified Reviewer Verified Buyer Original review: July 3, 2020 Based on a person's situation, American High School might be a good option. The cost is affordable but the quality of education is mediocre. I would like them to be more differentiated as to how they teach their courses. I'm a teacher too, and I don't think there's enough connection to real-world situations. It's easy for kids to get lost in the resume, just read a book and not be able to apply what they've learned to the real world. Reading a textbook and making an assessment isn't enough to prepare for college and to be able to apply what you've learned. However, I like that you have the opportunity to repeat an assessment to improve your grades. My daughter is doing pretty well, but sometimes she struggles to stay focused because reading a book and watching a video can get really boring. I hope that they will incorporate more projects to diversify it a little and to give them more practical experience. I didn't really like the social environment in my local school and that's why I chose to do online education. But I don't know if we'll be back next school year. I love Brianna though. She's great. If I have any questions about how my daughter is, whether she's on track or what she needs to do to stay on track, that's what I call. a lot of work. I feel like it's a lot stricter than a normal school and my daughter has never done it before. But Brianna was really great and helpful. Read the full Kelly review of Rockford, IL Verified Reviewer Verified Buyer Original review: original: 2, 2020 My son had problems in public school and had a really difficult couple of years with depression. I thought to get him out of that scene, it would be better for him to do school online. The price of American High School was amazing and is much cheaper than many others I found. I like it because I'm a single mom with two kids. My mother had to pay for it for me, but she won't be able to pay too much longer. So I have to take control. I am 85 a month and I can afford to do so, which I am quite grateful for. I'm surprised that the price of American High School is so cheap because of the way they've all set up online and we can chat with teachers. I can also call our consultant anytime, day or night, and he's there to help us. Also, everyone is nice there and I really like it. Our interactions with their school representatives were great and I love them there. They are so kind, they answer all our questions, and they are always there to help you if we need them. My son was doing seven classes with them including PE, algebra and social studies. But it stopped a bit because of the summer, so next month we'll get back on the ball and roll back. He really likes it. Read newark's full Graciela review, original buyer review verified by verified auditor NJ: June 3, 2020We started with the idea before the pandemic, but we're entrepreneurs, so we're back and forth between three different states. It was really hard to manage the kids every time we fly. We looked at the websites and read all the reviews. I also ask my daughters what they thought of three different options. They said he liked one. The registration process was simple. We are very new to this kind of thing and the beginning was a bit confusing for us. But months later, we felt comfortable. Interactions with teachers are really good. My seven-year-old isn't such a social person, but she said she was fine. When she's confused, she just says it. It has a website and is in touch with them directly every day. We're very happy with the school. June 15, 2020 Answer to American High School Thank you Graciela! We are extremely happy and excited that your daughters like our program. We strive to make enrollment as easy as possible and our teachers and consultants work closely with all our students, as this is the most important part of online education. Staff, administration, and all students at American High School appreciate that you've taken the time to provide this valuable feedback. Thank you. American High SchoolAdministrationBecca of Providence, RI Verified Verified Buyer Original review: June 1, 2020 My stepdaughter was in traditional high school, and it was her first grade year, and she failed every academic class. He really wanted to pursue career health careers and technology to school that's in my area. They would then have her 10th grade, even if she had failed all 9th grade, they would double her classes so that she could still be a 10th grader. But if she did, she wouldn't be able to make a health career. In order to get her to have a health career, we decided to start schooling at home. I searched for the school online and really enjoyed it and liked their price. They weren't that bad compared to some of the others because it's quite expensive, homeschooling costs 2000 a grade for them. American High School is cheaper. As of now, with covid, his last year at this time in his healthcare career, he should have obtained the CNA license. It was almost there. They started going to nursing homes. But then, this was interrupted, and she wasn't able to do the CNA test, and she lost on that. Now, this has gone crazy because he should be back next year for his EMT license. That costs a lot out of your own pocket and the school plans to pay almost everything. This is going to be huge. But if they don't, why do I pay 2,000 in class to have her at home? I don't know if I want to pay him for the next two years if they pull him back next year and keep all the kids at home. It's really scary and doesn't even want a part of it. He doesn't want to do this course at home, he doesn't want to learn anything. In the last few months, he's had 80s and 100s on everything, but he hasn't really learned anything. He was not in class with the bed, sink and all the different medical equipment. Right now, that's why, to make her make videos, and she has to pretend to wash her hands and pretend to move to a chair. Pretending isn't happening and it's driving us crazy. But they're really excellent. I love American High School. All my concerns have nothing to do with themselves. American High School has been very much at stake, for the most part, especially counselors. They are very wonderful and helpful. Whenever you need them, you can simply email them or call them, and they come back to you as soon as possible. They're always right there. Sometimes, we get 24 hours to get hold of someone. But I'm in Florida. I'm in Rhode Island. And school is seven days a week for them. I don't know every one of their particular programs. They usually published them, though, for children. Most counselors can also help you through most of the things you think you need your teacher for, but you don't. They have a lot of knowledge. You can work at your own pace or take part in a lesson with teachers. It tends to work at its own pace and not go to the classes themselves. He really dragged his feet at first. Then, all of a sudden, I pulled him out of his bum, just breaking through him. Was They went from doing an assignment a month to doing five a day. My stepdaughter also went from failing everything to being a student of honor. After her first grade class was over, they offered her to go to honor classes, and it's something she would never be offered in normal high school. Read the full review June 15, 2020 American High School response BeccaThanks for feedback. American High School is committed to keeping our online education offerings affordable for parents. I'm glad you found the tuition at the price of your reach. It's great that your daughter is able to do both her 9th grade academic resume and health careers. Doubling its courses does not seem practical or realistic to ensure its success. We're glad you chose us and you'll continue to work hard to keep her up to graduate. American High SchoolAdministrationIstvan in Newark, verified review of verified reviewer NJ Original buyer review: May 28, 2020 We weren't satisfied with what our daughter was getting in the private school and the area where we live, a public school isn't really safe, so we tried something else. It was very nice with the representative of American High School. Every time I call, they call me back. We can

talk honestly and they help. And it looks like our daughter is doing much better. Last year, she stopped and they asked me for \$1,000 more, but I was happy to pay her because she's helping her. June 15, 2020 Answer American High School Istvan! I'm just glad we were there to help. Making decisions like this can't be easy, and we're just glad you're enjoying your online education experience at American High School.Counselors try to keep students in business to complete their courses on time, but sometimes they get back, so we'll keep trying to keep motivating and working to complete his studies. If you need anything, do not hesitate to contact us. American High SchoolAdministrationAixa of Bridgeport, CT Verified Reviewer Verified Buyer Original review: July 8, 2020I live in Bridgeport, Connecticut and the school system in public schools is not so good. My son had to go to a high school he doesn't like at all. They go to the district, so he said he wanted to go to school online. We took it as our other choice and he started looking and he liked American High School. We talked to Brianna and Pedro and he went in there. It was the first time for us, so sometimes if we have any problems or concerns, we call Brianna or Pedro or anyone else in there and they help us very quickly. So far, we have no problem Their. It was very nice. July 8, 2020 Answer to American High School Thanks To Aixa! We are so happy to have Joel as one of our students. If you ever need anything, please let us know. Thank you for joining American High School and for having Community! Michelle by Elgin, IL Verified Reviewer Verified Buyer Original review: June 27, 2020My daughter goes to American High School and we chose to enroll there because she had severe anxiety and we needed time to work on it. The high school counselor had given us some recommendations and American High School was one of them. Since we signed up there, it's helped. He got better grades doing online school than in high school. In addition, for his courses, he has more variety to choose from than he had to take at school. She likes it a lot and I like it too. He's taking forensic science right now. He mainly took the electives : cosmetology, theater, cinema. Looking at the cost and quality of education, I think it's perfect. The cost could be much higher and it is not. I don't like the fact that I have to pay for it. But I have to do what I have to do. Michelle from Fayetteville, nc Verified Reviewer verified buyer original review: June 12, 2020American High School was the best option for us. The cost is not so bad. My daughter found it, Mariah. In doing research, he chose the school he wants to go to. We tried it and liked it. It worked well, so we continued with it. The registration was good. The school staff check mariah and email me. They send me your progress report and let me know about your votes. They're good. Mariah's learning a lot. She kept As and Bs. She likes it. June 15, 2020 Answer at American High School Thank you Michelle for your review. American High School is extremely happy that your daughter is doing well and continues to excel. If you need anything, do not hesitate to contact us. HonestlyDana Administration of Mcminnville, Review Verified by TN Original Review of the Buyer Verified: June 8, 2020We had an absolutely amazing experience! Everyone I spoke to was great and very helpful! Thanks to Brianna ** for all your help!! I don't know what I would have done without you!! June 15, 2020 American High School answer Hi DanaGraga for your wonderful comments. I'm sure you'll be happy. If we can be at the service or need something, do not hesitate to contact us. American High SchoolAdministrationAj of Asheville, NC Verified Reviewer Verified Buyer Original review: June 1, 2020The school work has been very thorough, I feel pretty felt enough to pass classes, however, tests were very complicated and specific, often leading to incorrect answers. The teachers were kind, I didn't have many contacts with them and I had to understand most of the things on my own.G. of Ca, CA Verified Verified Buyer Original review: May 29, 2020 We were looking for a good school online and was recommended by someone at American High School. Both my grandchildren took classes there. Ho Ho think that the staff communicated as much as they should. I am also a school teacher and I know how teachers should stay in touch with parents. I don't think this school does that. They did enough, but when they had to change, they made some changes and, unfortunately, they weren't good changes. The way she was with my first granddaughter was perfect because I had warnings when she was doing her homework. I got the whole booklet from them, so I felt part of it all. But with my other niece, I feel left out in the cold. The learning experience went well, but the classification system is difficult because they based it on the percentage factor. There's a young lady, Brianna, and it was terrible. She was the pillar of strength for that place. Stay in touch with us. He did his best to make sure we get what we need. He's really tearing up to make sure we've got all the help we need and we're trying to get things done. But a young woman can't run school alone. We need everyone connected. And every counselor assigned to a child should be the one he's contacting, not the ambassador, but the real counselor. I don't think they did a good job there. But it's not a bad school. Read beaverdam's full Althea review, va verified buyer's original review: May 28, 2020 I think content should include more educational videos and interactive content. Some content, particularly end-of-unit projects in social studies and science, takes much longer than the lesson indicates it should and my son needs a lot of help with it. While she does well with them, I feel they are above her distressed rank level. Nerlande G of Gretna, LA Verified Reviewer Verified Buyer Original review: May 27, 2020Io at American High School, I'm studying for international maturity. I like it, there are some courses that are really important and interesting, but it's such a hard job because we have to do different topics and there's a lot of work for each, so I don't have much free time. To be honest I really like AHS, it's making me strong and I always take my time to learn a lot of things that can help me for my life, I'm really enjoying myself and I appreciate everything my teachers do. May 29, 2020 American High School Response NerlandeGrae Thank you for your wonderful comments. I congratulate you on studying for the international baccalaureate. I know it is extremely rigorous and demanding. We are pleased that you enjoy American High School, despite the heavy workload with IB lessons and AHS lessons, but you will see that it will be worth all the effort after the Continue the good work and I will let the teachers know that you appreciate and enjoy the courses and their assistance. Greetings American High SchoolAdministrationVance by Keaau, HI Verified Reviewer Verified Verified Original review: May 27, 2020 Everything is going great. My daughter is doing well with all her classes. And Mrs. Knoop is the best, very friendly and cheerful of all it took to get the papers to start school. Thank you. May 29, 2020 Answer American High School Vancels happy that everything is going great. I will pass on your comments to Mrs Knoop. If you need anything, do not hesitate to contact us. Have a nice weekend! Greetings, American High SchoolAdministrationJames of Cut Bank, MT Verified Reviewer Verified Buyer Original review: May 27, 2020As parents of a student moving from regular high school classes to online classes, we have not been given any guidance to help our child get through. There's been almost a year of wasted time. He's just starting to catch the difference and learn. For almost a year he has more or less only timed the hours. Just in the last few days he has actually learned something and enjoyed his lessons. We also wasted an extra \$14.95 a month on a tutor who never used it because he couldn't find instructions and is not one to ask for. At first we get a call every week, so no calls until about February, when there was a problem with my credit card. Once another call was taken care of. Skyler had to call a couple of times for his information sign when we had a computer problem, but none of the school calls. Evens of Brooklyn, NY Verified Reviewer Verified Buyer Original review: May 26, 2020Why I'm sure I can say I had a great experience with American High School because when I call as a consumer I always find someone very polite and ready to respond and help students. For courses the system is very easy to use. When I have a problem the teachers are always there to respond and help. I think the American high school is doing a great job. Thank you very much. May 27, 2020 Response to American High School EvensI really strive to assist all our families and students to make sure you get the support you need as you complete your online courses. Thank you for the very nice compliments. We will be sure to pass them on to the consultants and teachers who assist you on a daily basis. Greetings, American High SchoolAdministrationChristy of Tucson, AZ Verified Review Verified Buyer Review Original Review: May 26, 2020Hello, We had several issues with accessing and changing passwords. We had to download the Firefox browser, which was a big deal due to the filters on the school's internet access. That's my only complaint. I'm happy with the result, though, and Elizabeth** is very helpful and supportive. All the other staff I interacted with were also very kind. Thank you, Christy**. May 27, 2020 American High School Answer Hello ChristyGrart for your feedback. We understand that how we want everything to go smoothly at times, it's the case. However, we appreciate your patience as we have fixed browser issues and have been able to get started. We are pleased that you are satisfied with the result and that your experience with American High School has been enjoyable. Greetings American High SchoolAdministrationRebecca of Florence, MS Verified Reviewer Verified Buyer Original review: May 26, 2020My son Aaron, was first enrolled at American High School at the end of October 2019. He enjoyed the lessons and gained a lot of knowledge. We highly recommend American High School to anyone. May 27, 2020 Response to American High School RebeccaAdors hear such wonderful feedback! As a parent, when we make the decision to go to school, it's a difficult decision. Knowing that Aaron is doing well and excelling with American High School means that we are doing exactly what we should do and that is educating our children online. We welcome anyone you want to recommend to American High School, as referrals are the best way to build our school. Thank you and have a nice day.
