Crash course american history slavery

Jumping to the headlinesA new book surveying the stunning work of Ezra Stoller, the most prominent photographer of American architecture of the 20th century November 13, 2019Through his more than 50-year career, Ezra Stoller captures America's most important modernist structures, creating images almost as iconic as the buildings they describe. In Ezra Stoller's new book A Photographic History of Modern American Architecture (\$125, Phaidon), architect and architecture writer Pierluigi Serraino dives into the photographer's vast archive, featuring 450 images, some famous, others rarely published. By exploring Stoller's work, Serraino was able to present a powerful survey of American architecture from 1938 to 1989, of the structures of the celebrated Frank Lloyd Wright, Eero Saarinen, Mies van der Rohe, and Marcel Breuer, as well as projects by lesser-known talents such as Carl Koch and Ulrich Franzen. Stoller founded Esto Photographics in 1965, which represents other top architectural photographers and now manages its archives. Esto offered full access to Serraino, allowing him to exhibit the evolution of Stoller's work, as well as the evolution of the architects he collaborated with. Read on to find some of the impact images featured in the book. Perhaps no story is as important to get right as the history of capitalism. Almost all of our theories about promoting progress stem from how we interpreted the economic changes of the last 500 years. The crisis of the last decade continues to remind us how much change capitalism, even as its basic features — labor wages, financial markets, personal property, employers — persist. While capitalism has a global history, the United States plays a special role in that story. This course will help you to understand how the United States became the world's leading economic power, revealing important lessons about what has been and what will be possible in the ongoing revolution of capitalism. FAQ Do I have to take the economy before? Not. While there will be discussions of economic ideas, professors will not assume prior economic training. I am not familiar with American history, but I am interested in how capitalism works. Can I take this course? Yes. We will have relevant links to background material that is useful for any passage that should make it possible for those with no knowledge of U.S. history to take classes. Is this class about economic thought like Smith, Marx, Ricardo, Hayek, etc.? This class is primarily about what really happened rather than theories about what happened. While we will touch important economic thinkers, this class will focus more on the people and that developed capitalism in the United States. If you want to know how capitalism works and emerges, this is class for you. Will the certificate be awarded? Yes. If you finish the job and achieve grades in the course, you can obtain a Certificate of Honor Code, which indicates that you have completed the course successfully. The certificate will be issued by edX under the name Cornell, pointing to the institution of origin of the course. What will help me complete this course? We've found that the best help you can get is someone else in the real world. Register friends, coworkers, family, and others to take classes with you. Ask your friends on Facebook or Twitter. Set a time during your lunch or evening break to discuss this week's videos and readings. Think of this MOOC club like a book club! You will get more of the material and are much more likely to finish. I want to read more about American Capitalism! Professor Baptist and Hyman have just written a strict readership course for this MOOC (although it is also being taught at Cornell University). Containing every reading from the MOOC, as well as additional readings from eminent scholars (which cannot be given away for free), readers of this course give students more background for each topic. Each reading is introduced and discussed by the professors. Each reading also has additional questions for students to discuss with their friends. Are there any prerequisites? The course is designed to be accessible to people without a strong background in U.S. history. Nevertheless, we refer to many people, locations, events, or developments that may be familiar to some students. Below is a source for additional information. Wikipedia is a very helpful source for quick definitions or descriptions of most of the material in this course. This can help you answer most of the factual questions you may have. Digital History is a website that can serve as an online textbook if you need stronger grounding in U.S. history. For more difficult questions, you can post a question on a discussion board where fellow students might be able to help you. An eBook has been designed for this class, containing all the readings and some additional essays by the leading scholars in the history of capitalism, including professors. American Capitalism: Readers of [Kindle Edition] Amazon.com. Getty The American flag is one of the most beloved and respected traditions in the U.S. Stars and stripes have been icons of our country for decades, although the design has seen many changes since its in early 1777. Over the years, the flag has inspired songs, survived the battle, and served as a way to unite our citizens. Whether it's Flag Day or July 4th, here are some interesting facts everyone should know about the American Flag. Don't forget to brush the etiquette rules! 1 of 15 Stars and Lines Have Meaning There are seven red lines and six whites on the flag for a total of 13. It represents 13 original colonies. 50 stars, of course, standing up 50 States of the Union. 2 out of 15 High School Students Designing a 50 Star Pattern That's true— according to Reader's Digest, Bob Heft came up with a 50-star design for the school project, and his teacher just gave him a B! But Bob didn't give up. After making the call and writing a letter to the White House, and after Alaska and Hawaii finally gained statehood, President Eisenhower finally decided to take Bob's flag. Because you asked, yes: His teacher did raise his grades to A. 3 of the 15 The Star-Spangled Banner and The Pledge of Allegiance Both Inspired by the Flag of Francis Scott Key were reportedly so touched after seeing the American flag still flying high after the British invaded that he wrote The Star Spangled Banner. James B. Upham and Francis Bellamy also used the stars and stripes as muses for The Pledge of Allegiance, according to PBS. 4 of the 15 Colors Are Symbolic Red represents courage, white represents purity, and blue represents perseverance and justice. 5 of 15 The Oldest and Largest Flag Maker in the Country Is Based in New Jersey Founded in 1847, the New Jersey-based company Annin & Co. now produces more than half the flags made in the U.S., with factories in Virginia and Ohio. Their flags have flown in war, at Olympic ceremonies, presidential inaugurations, on the moon, and even covered the coffins of Abraham Lincoln. 6 of the 15 Important Rules for Flying the Flag As the greatest emblem of our nation, it is important to take appropriate steps to ensure the flag is displayed correctly. For example, it cannot be displayed at night unless illuminated; if on a flagpole, it should be raised quickly and lowered slowly; always display a flag with a blue-up angle; and do not raise the flag during adverse weather conditions. See more of the proper American flag etiquette. 7 of 15 There is No Hard Evidence Betsy Ross Sewed the First Flag The story of Betsy Ross as the creator of the American flag didn't start circulating until 1870 when her grandson, William Canby, told the Historical Society of Pennsylvania the oral history of the family. While there is no definitive evidence, noting government payments to Ross seem to verify the story. 8 of the 15 There were Six American Flags on the Moon In 1969, during the Apollo 11 mission, Buzz Aldrin and Neil Armstrong planted the first American flag on the moon. NASA had to install the device and snuff out the fabric to make the flag appear to flutter in the thin atmosphere. 9 out of 15 There are already 27 Official Versions of the Flag Each has had a different number of stars in the blue union. And while the official original flag contains 13 lines and 13 stars, symbolizing the first colony, the flag does not always have 13 lines. In 1794, Kentucky and Vermont to the Union, resulting in a 15-stripe flag. 10 of the 15 Current Flag Versions Are the Longest to Last When Alaska Alaska Hawaii joined the union in 1959, 17-year-old Robert G. Heft designed a new 50-star flag as a history class assignment, using his mother's sewing machine to make it. The Ohio student got a B-, but when he sent his design to the White House, President Eisenhower was so impressed, he chose it as the new American flag. 11 of the 15 Largest American Flags Called Superflags It measures 255 by 505 feet and weighs 3,000 pounds. Bringing 600 people to unfurl, it appeared in the Super Bowl and World Series, as well as military events and parades. 12 out of 15 Flag Sales Go Up and Down Depending on Current Events When opposition to the Vietnam War is at an all-time high, demand for american flags plummets. But in 1976, demand for the flag boomed once again, thanks to America's biennial. 13 of the 15 Flag Day Celebrations in June the first annual Flag Day was established by President Woodrow Wilson on June 14, 1917, when American troops were heading to join Allied forces during World War I. That day commemorated the official adoption of the U.S. flag by Congress, which occurred on June 14, 1777. 14 of 15 The Great Star Pattern Is a Sought-After Collectors' Item The Great Star Pattern is an early version of the American flag, designed by a U.S. Navy captain around 1818, in which stars are arranged in star formation. Although popular during the Civil War, it was never officially adopted by Congress. 15 of the 15 The Flag Has Its Own Specific Pantone Colors The official pantone watches for the red and blue flags are Blue 282 and Red 193. 193.
