Pulp Fiction is the first indie film with \$100 million and has been named one of the greatest films of all time from various sources. The film is still one of the most beloved and critically acclaimed cult classics of all time, and one of the coolest films ever made. Here are a few reasons why even 20 years later, Pulp fiction remains Big Kahuna cool. Source: Miramax characters The characters in pulp fiction all ooze cool in a unique way, with Tarantino cast as one of the only lame ones in the film. Uma Thurman's mysterious gangster and Bruce Willis's mysterious lyrical wife were all roles that made you be these characters. perhaps until it turns out that you should not end up with a gun to the face or a needle in your chest. Even smaller side characters like Butch's brave but kind friend, Fabien, crime boss Marcelus Wallace and hooks criminal couple Pumpkin and Honey Bunny With Life and it seems that each of them has a story interesting enough to sustain their own film. Source: Miramax Costumes The attention of the film for his 20th birthday will make any Halloween party you'll go to this year probably full of Mia, Vincent and Hulse look. In particular, Uma Thurman has been used in the marketing of the film, and the poster of her lying in bed holding a cigarette still decorates a lot of the dorm wall. Tarantino's attention to detail makes the characters look as cool as they act and talk; they wear mostly insatiable black and white suits. Jules' bad bastard wallet is readily available from various sources online and Mia's style is still copied by a very ambitious tough noir girl. Source: Miramax quotable Tarantino's script, written with Roger Avery, is full of clever and quoted writings that leave lines from the film stuck in your head long after you've seen it. Try to think about the last time the sentence from a movie was left with you afterwards. The rat from the sewer may taste like pumpkin, but I could never understand, because I wouldn't eat the dirty fucker, or know that a 15-cilindeur with cheese in France is called Royale with cheese, or the wisdom of ia: Then you know you've found someone special. When you can just shut up for a minute and enjoy the silence. Samuel L. Jackson helped many people remember the biblical passage by reciting Ezekiel 25:17 when he killed someone, a passage that to some extent ends: And you will know that My name is The Lord when I avenge you! The dialogue is so good that a few excerpts of it were included in the soundtrack, which we'll get to later. Source: Miramax Riske scenes the insensitive means the film tackles gratuitous violence, rape and drug abuse, in addition to the salty language of the characters, makes its R-rating more than deserved. People blow their brains out, people accidentally back off, there's male rape - all without some big, moral message. When you see this for the first time, even 20 years later, it is difficult to go through it without spinning at least once. Watching all this depravity unfold with a little consequence is like being a kid looking at an older sibling who seems to be able to get away with breaking every rule in the book, just likes the movie almost unruly and cool, if you can forget for a second that it's on almost all the top 10 list. Miramax's pulp soundtrack shows an excerpt of Tarantino's eclectic taste in music, with rock, pop, surf music and soul songs all composing the film's score rather than a more traditional soundtrack. The soundtrack actually helps repopular surf music by releasing Dick Dale's Misirlou songs above the opening credits and instrumental Bustini' Surfboards of The Tornadoes. Other famous songs from the soundtrack include the cover of Girl's Song, You'll Be A Woman Soon, You Can Never Tell Chuck Berry on stage at the dance competition and The Son of a Preacher. Follow
