In his second book, Jump wrote about how he became the icon he is today, including how a former elementary school teacher sends tv every year for Christmas because she laughed at him when he shared his dream of being on TV with his classmates on a career day. Learning about other people's experiences interests me the most, so it's no wonder I read this book so quickly. But either Steve Harvey is on TV seven days a week and is one of the most popular men in America. In his second book, Jump wrote about how he became the icon he is today, including how a former elementary school teacher sends tv every year for Christmas because she laughed at him when he shared his dream of being on TV with his classmates on a career day. Learning about other people's experiences interests me the most, so it's no wonder I read this book so quickly. But in addition, this book is great for entrepreneurs because it reminds you to achieve towards your goal, no matter what. Now I know the motivation wears thin, and eventually it can fade completely, so that's why I constantly read and appreciate books like Jump. Growing up in Cleveland, Ohio, Steve was raised by his mom and dad, who taught him to work hard and live a life of integrity. He did just that on his way to success and even after he became successful. Do you remember the Miss Universe pageant when Steve challenged the bad name of the first finalist and therefore the bad name of the new Miss Universe? Well, it turns out it wasn't his fault, but he took the on anyway. Other notable stories in the book include how he got to the Apollo Theater in Harlem after being dead broke just two days earlier. He got an opportunity call from the owner of a comedy club in Tampa who asked him to show on Friday. Steve shows up at the rocks show, and is asked to perform Saturday for double that amount of money. He's doing a show and he's flying to New York on Sunday in time for the evening show. Interesting little treat about Steve's first Apollo It's that Jamie Foxx was on bill that same night and went on stage in front of Steve. He got boored. Steve got a standing ovation. Shortly after this performance, Steve was on his way with fellow comics: Bernie Mack, Cedric The Entertainer and D.L. Hughley. His first TV show, The Steve Harvey Show, had an appearance from his good friend, Cedric the Entertainer. From that moment on, Steve was on his way to meteoric success. That doesn't mean he didn't have to endure his fair share of trials and tribulations. Steve was divorced twice and left his children at an early age to develop his career. He is now madly in love with his third wife, who was his rock. Along with their seven children, the whole family is part of Steve Harvey Enterprises. Steve Harvey Enterprises includes all of Steve's business ventures, but the one I admire most is his weekly boy camp, which takes place at his home in Dallas, Texas. Every year there is a camp to educate, inspire and elevate less fortunate young men of color. Several boys attend camp each year and many went to college because of Steve's willingness to give back. The last story I'm offering you is the one Steve's grandmother told him. She asked if he knew who his great-great-grandfather was, and he said no. She said, "That's because he didn't leave you shit. Make sure your great-great-grandfather knows your name. Wow! Grandma wasn't any fun. And I didn't take her message as one of them. I also want my great-great-grandfather to know my name. All in all, it's an excellent book. Likable, inspirational, courageous and spiritual. These are all qualities I long to have. I love people and I love to learn even more about their stories. The jump is about Steve Harvey's life and how having a leap of faith worked for him and can work for you. Do you have a desire to take it to the next level? Go ahead and jump! ... More... More
