Rated 4.56 out of 5 stars2528 Reviews More helpful positive reviewLetme than about my love life. In the last decade or so, I haven't found being able to find love anywhere within the cleaning department. The cleaners on the shelves of my nearest department stores routinely broke my heart. It's no better than my expectations. Fragrances, colors, beads and more. None of them were my type. What can I say? I'm demanding like that. But don't get me wrong: there were times when I thought things might work out. Cleaner after cleaner made promise after promise. Once, I thought for sure that I found a cleanser that could give me everything I needed, but it turns out that at the end of the day, my skin felt oily and my pores were embarrassed. It wasn't until my lovely mother was in charge of finding me the best of the best. The top of the line. You can call it an arranged marriage, if you want (I won't be offended). I am proud to report that I fell in love with Dermalogica's Special Cleansing Gel and no longer examine the shelves of department stores. That's it, folks. This is. This gel is so polite. It's easy on my skin, you know? It doesn't smell bad either. In fact, it contains no fragrances. We get along well; people have been congratulating me a lot lately! I express my happiness simply by saying that Special Cleansing Gel treats me well. That's my motto: S.C. Gel treats me well! I even yelled it out of my bathroom window once. Here's what I have to tell all of you frustrated search engines and perfect cleaning products: the good news is that you could also fall in love with S.C. Whether your mother fixes it or you make the first move, this gel will be waiting for you. Most useful critical reviewSose have been using this cleaner for over 13 years. It's the only skin care product I've ever had to consider changing - no matter what was going on with my complexion, Special Cleansing Gel worked. Until now. The change in my last shipment was immediately noticeable - fragrance! It's not a good sign for sensitive skin. In three uses, my skin was red and irritated. After comparing the ingredient list with my children's (older) container, there were actually changes. I'm so disappointed! Dermalogica has lost a client and I (and my whole family) must find a new cleaner. Reviewed by 2528 Midwest's 2528 clients5Jasmine have been using this face wash for several years. Bad smell3Emily from PAThe cleaner itself is fine. I like it, but it's not worth the price. The problem is, it smells as strongly as toilet cleaner or chlorox wipes or something. I wish they wouldn't include that. Now, I'm not having the problem of dry skin and it seems to be controlling the oil. My face feels and looks better. Great Cleanser5Ghanati from JerseyFace feels squeaky clean 🌿Best facial cleanser in the universe5Missthas of Searcy AR I started using this facial cleanser when I was 17 years old, and now I am 38! I always get compliments on my skin. This cleanser is incredibly soft, but mysteriously removed every trace of makeup and has not finished trying. There is no strong fragrance and it rinses well. I only buy two bottles a year, because it seems to last a long time, using it twice a day. The whole Dermalogica line is fantastic. They know what they're doing. The first time I use, well so far5Darlene from TexasThis is the first time I have used this cleaner, but so far it is a good product. Yes, I would like to buy again5No urbandale nickname, IAI use this dailyLoving it!5anna from Las VegasIve just started using this and I still have to see optimal results, but I'm seeing improvement. The formula is amazing and feels so nice on irritated skin (after picking it up haha). Sometimes it stings a little, but that's about broken skin. It leaves me a little dry, but it could also be the other products I use and the hot water I should be using. I look forward to using dermalogics other products!
