Lewis BookQuoters is a community of passionate readers who enjoy sharing the most meaningful, memorable and interesting quotes from great books. As the world communicates more and more through texts, memes, and sound bites, short but in-depth quotations from books have become more relevant and important. For some of us, a quote becomes the mantra, purpose, or philosophy we live with. For all of us, quotes are a great way to remember a book and to be with us the author's best ideas. We thoughtfully collect quotes from our favorite books, both classic and current, and choose those that are most thought-provoking. Each quote represents a book that is interesting, well written, and able to increase the reader's life. We also accept submissions from our visitors and select the quotes we feel are most appealing to the BookQuoters community. Founded in 2018, BookQuoters has quickly become a large and vibrant community with an affinity for books. Books are seen by some as a fightback from a former world, conversely, gleanng the main ideas of a book via a quote or a quick summary is typical of the information age, but the custom despises some chunky readers. We feel that the best of both worlds is BookQuoters: we read books cover-to-cover, but offer some highlights. We hope you'll join us. He's a genius. He's a criminal mastermind. He's a millionaire.
