Self @ W710A/W720A Multi Device Wireless Headphone System User Guide Page 2 Page 3 Congratulations on purchasing a new Plantronics product. This guide provides instructions for setting up and using the Self W710A/W720A wireless headphone system that includes WO2Abase and WH300A/WH350A headphones. Page 4 WH300 Headset (monaural) WH350 Headset (binaural) Base and charging cradle USB cable Phone interface cable Power supply What is in the box 5 Page 5 Base 1 Power socket 8 Computer button 2 Phone receiver jack 9 Mobile phone button 3 Phone interface cable jack 10 Desktop phone button 4 USB port 11 Bluetooth pairing button /LED 5 Desk phone speech volume Subscription button / LED 6 Desktop phone configuration switch 13 Charging LED 7 Desk phone listening volume Headphones 1 Headset LED 4 Mute button 2 Volume up button 5 Volume Reduction button 3 Call control button 6 Microphone base and headphones basics 6 Page 6 1 Electronic hook cable (EHS cable) Electronically and automatically removes the desktop handset from the hook. Enables remote call control with headphones. 2 HL10 lift automatically lifts the handset and returns it to the cradle. Enables remote call control with headphones. Accessories 7 Page 7 Optimize the comfort and fitness of the headset. 1 To adjust the headband, lengthen or shorten the tape until it fits comfortably. Place the head receivers so that the foam pads sit comfortably above the center of the ears. 2 Place the stabilizer T-bar above your ear on the WH300. 3 To fit tighter, gently pull the opposite ends of the headphones inwards as shown. 1 Carefully bend and form the arrow with both hands as shown. Avoid bending or spinning near the microphone or headphones. 2 Place the click-stop turret and arrow so that the microphone is two fingers wide from your mouth. Headphones customization Adjust the headband Adjust the mouthpiece 8 Page 8 3 Make sure that the front of the microphone is on the back of the mouth. If necessary, turn the microphone to the correct position. Do not use force-twisting movements or try to turn the microphone completely around. 9 Page 1 Align the charging cradle pins with the and press firmly until the cradle is evenly pressed on the base. 2 Connect one end of the power supply to the back of the power socket at the back of the base and the other end to the power of the power 3 Insert the headset into the charging cradle. The charging LED will blink green when the heads are charged and become solid green when the headphones are fully charged. Charge for at least 20 minutes prior for first use. Full charging takes 3 hours. Page 10 Select desktop setup A, B, or C and connect the cables. Desktop phone (standard) TSE • Connect one end of the phone interface cable to the back of the base • Disconnect the phone coil cable from the base of the writing phone and reconnect it to the connection box of the telephone interface cable. • Finally, connect the remaining end of the phone

interface cable to the phone port of your phone's open phone. NOTE If your phone has a built-in headphone port, you should use the headphone port only if you're not using the HL10 cable car. In this configuration, you need to press both the phone's headset button and the headphones control button to answer or end calls. B Desktop phone + HL10 lift (sold separately)For more information see plantronics.com/accessories guide. USEload machine + EHS cable (sold separately)For more information see plantronics.com/accessories guide. US Desk phone: Connect and call Select desktop phone setup 11 Page 11 1 While wearing headphones, briefly press the phone button on the base table. NOTE If you do not have remote call control via the lift (HL10) or cable (EHS), manually remove the desktop phone handset before each call. 2 If you can't hear the dial tone, open the side panel and adjust the middle configuration switch A-G until you do so. Default setting A is suitable for most desktop phones. 3 Dial a test call from the table phone. 4 End the call by pressing the headset call control button. Make a desktop phone 12 Page 12 Your mobile phone can be paired with multiple headphones and handsfree, but it can only be connected to one device at a time. The following are instructions for linking your mobile phone to your base: Page 13 1 Connect the USB cable. 2 Upload the Plantronics software by visiting the plantronics.com/software and click the download button. For a list of compatible soft phones, go to plantronics.com/software 1 When you wear headphones, briefly press the host button. 2 Make a soft phone call from your computer. 3 Close the call by pressing the call control button. The minimum recommended separation between the table phone and the base is 6 inches. The minimum recommended separation between the base and the computer is 12 inches. Incorrect layout can cause noise and interference problems. Computer: Connect and call Connect PC Make a soft phone call your base 14 Page 14 1 Headset LED flashes white when using the Volume up button Press to increase volume 3 Call control button Press to help, answer, start the call 4 Mute button During the call press to mute the volume down button 5 Press to decrease volume 6 Flash during a call long press volume up or down 1,5 seconds; this will apprehend and answer the second incoming call WARNINGS for your safety, do not use the headset in large quantities for a long time. This can lead to hearing loss. Always listen to the middle level. For more information about headphones and hearing, visit plantronics.com/healthandsafety . If the headset battery is installed and charged, the headset turns on automatically. The headset does not have an on/off button. If you're not using headphones for a long time and your headphones won't be in the charging cradle, put the headphones to sleep. Put the headset to sleep when the headset is put to sleep with a fully charged battery, the time will be up to 50 hours. 1 While the headset is not in use, press the call button for three seconds until you see the headset flash twice. . 2 To wake the headset, press the call button again until you see two white flashes or you hear threehigh tones. Battery life If you remove a fully charged battery from your headset, it will provide up to 75 days of battery storage time stored under normal conditions.
