System1 Company Those enlisted in the Navy go through an eight week (plus one week for processing and paperwork only) boot camp at the Great Lakes Naval Training Center, on the shores of Lake Michigan near Chicago. Boot camp for the Navy is more classroom-based than other military training programs - even marching and weapons exercises are conducted indoors. Partly this is because so many regular maritime activities take place inside ships. Anyone who wants to become an officer in the Navy (and maybe even the captain of a ship one day) has several options. The U.S. Naval Academy in Annapolis, Maryland is a four-year college student who prepares graduates to work as officers in the Navy. This is a prestigious and challenging program that requires congressional nominations to use. Potential officers may also attend Officer Candidate School in Pensacola, Florida. This 13-week course is stricter than boot camp, and requires recruits to hold the title before taking. After initial training, recruits can attend a technical school or participate in the Journeyman program. It places each naval recruit with more experienced sailors in different assessments to learn the different tasks of the Navy first hand. Navy Reserve Navy reservists train one weekend a month and two weeks each year. They provide the readiness of trained sailors who can be called in if the Navy needs additional labour for a reason. Midfielders are eligible for technical training during their service, and are eligible for some veterans' benefits when they retire. Life on shore for naval personnel is pretty much the same as at other military bases. Everyone gets a housing stipend (new recruits usually live in dormitory-style apartments), and on-base housing is available for single sailors as well as larger families. Many facilities such as grocery stores, medical facilities, churches and libraries are included in the room rate. Leisure options such as cinemas, golf courses and a fitness centre are also available. The focus of Navy life, of course, is to live and work on a ship. The standard deployment of a seagoing ship shall last six months; However, the Navy is experimenting with deploying less than or longer than six months to make them more flexible and less predictable. Needless to say, they live for six months or more with several hundred people boat means close spaces and a lot of patience patience Camaraderie. Circumstances also require complete, unwavering loyalty and obedience to the master of a ship whose authority on his ship is absolute. On a naval ship you need to do a lot of work at any given time, so the sailors are still busy. Even so, limited recreational activities are provided - one famous example was the Reagan Idol singing competition held on the USS Ronald Reagan, which landed the winner on the actual American Idol TV show in 2007. In addition, each sailor receives 30 days of leave each year. They can fly for free on a standby basis on every Navy flight and most other military flights [source: US Navy]. Women play an important role in modern navy - their progress toward equal treatment and pay reflects the equal rights movement in the United States. In 1976, Congress ordered women to join the Naval Academy. However, the 1948 Law prevented women from serving on most naval ships. It was overturned in 1978, and women have been serving their country aboard naval vessels ever since. In addition, women in the 1990s and 1990s were the only women to have been killed. As members of a U.S. military organization, all naval personnel are subject to the Uniform Code of Military Justice. Release from the Navy can take various forms, from honorary release to military court, depending on the circumstances surrounding the release. See how the army works for a full explanation. Navy veterans and retirees are entitled to a range of benefits from burial at state cemeteries, health and life insurance, low-interest loans on mortgages or small businesses, and veterans' health care. The full set of benefits available may depend on the nature of the veteran's release - usually an honorable discharge or retirement is required to access all benefits. The search for answers to specific questions about veterans' benefits begins here: National Archives. For much more information on Navy and related topics, check out the links on the following page.
