After each flight, you are allocated as rewards and use it to buy tools for your poor. However, in this version, there are a lot of things in the sky that you can touch, will help you a lot in the game. For example, if you touch stars or toilets, your score will increase. A port of flames is a boost that brings you power to fly higher and beyond. There are many of the reminders in heaven. This helps you fly higher and beyond, but the standard increases significantly. The mission requires the game more difficult. This 3rd version is one of the most difficult of the three versions. Additionally, the upgrade that you use to use in the two previous versions is upgraded to this version. There are many kinds of things for your leathery airplane potigraphy. Until you fly through Mars, it is not the potty plane anymore, it is the portable space. However, flying to Mars is not an easy mission to complete. So you have to try your best in the practice to buy a lot of things to join your poty-plane space, try to make the sky be full of boost, so that you can easily fly through the masses. The most difficult missions in this game make players who like problems so excited. In addition, the idea of flying through Mars seems to be so interesting. In real life, human beings still don't arrive on Mars. The reason why it becomes attractive as this is the sky full of reminders, which requires players still have to use the keyboard to control there way for the poti-plane-space plane.
