Apple Mac iPad iPhone Watch TV Music Support iPad Air (2020) PDF Manual / iPad Air User Guide (4th Generation) Manual / Apple iPad Air 4 User's Guide Apple presented its new iPad Air 2020 at its virtual conference on September 15, 2020. In addition to announcing a new classic iPad, Cupertino has lifted the cover of a revamped and corrected iPad Air model that makes you want to use its stunning display and powerful processor. Apple held a conference to publicize its new products on Tuesday, September 15, 2020. Focusing first on its new Apple Watch Series 6, it also announced its new line of touch tablets. First it was the classic iPad, which received a welcome snack, and then it was the turn of the iPad Air, which looks very promising. Apple iPad Air 2020 User Manual Guide (PDF) Description iPad User's Guide for iPadOS 14 - User Manual English Language PDF Format File Download User's Guide for iPadOS 13 - User's Manual Language English Format PDF File Download The product offers a completely revamped design with thinner edges and a colorful aluminum shell inspired by the Pro. Touch ID also enters the range within the power button on the slice. An introduction awaited by users who regretted the absence of the fingerprint reader on the tablet. The iPad Air Manual is also equipped with a new Apple A14 Bionic processor, the first on the market to have a 5nm engraving figure. A SoC that allows great power to run all possible applications, even the most greedy ones. Apple talks about an iPad Air that is 40% faster than the previous model. The tablet also has a USB connector (it was time!) to connect as many devices as possible. The AFN consists of a unique 12 megapixel sensor (capable of shooting in 4K/60FPS) and the product is compatible with dedicated keyboards. Finally, the display is 10.9 <5> <5> in size and has 3.8 million colors, according to Apple, which hasn't said much more. The iPad Air 4 is an iPad Pro that doesn't say its name, in short, and sells cheaper. The product will be available in October 2020 at the departure price of 699 euros. Models, of course, will sell more expensive. What do you think of this new iPad Air 2020? Select your country and carrier below to view the device guides for your carrier. Please note: Your carrier does not offer device guides. Some phones, tablets, guides, settings and other features will not be available or will be incorrect. The Apple iPad Air was released in 2013 and has since been replaced by Apple's Apple iPad Air 2. The iPad Air comes with good connectivity for 2G, 3G, as well as 4G connectivity. Note the comparison table below for your Apple iPad Air. Connectivity: Apple iPad Air came with 2G (GSM 850/900/1800/1900) + (CDMA 800/1900), 3G (HSDPA 850/900/1900/2100) + (CDMA2000 1xEV-DO), as well as 4G connectivity (LTE). It also comes with a good connection speed being HSPA 42.2/5.76 Mbps, LTE Cat3 100/50 Mbps and EV-DO Rev.A 3.1 Mbps. The phone also comes with GPRS and EDGE. Size: Tablet size is 240 x 169.5 x 7.5 mm (9.45 x 6.67 x 0.30 in) and weighs just over 430 grams. The tablet also comes with a Nano-SIM and with a large screen is an IPS LCD with LED backlight with a capacitive touch screen and 16M colors. Note that this is a multi-touch display with density of 1536 x 2048 pixels. The display is also covered with scratch-resistant glass with oleophobic coating. Platform: Note that when the iPad Air was released in 2013 it was released with a Dual-core 1.3 GHz Cyclone (based on ARM v8) that was also used on the Apple iPhone 6 Plus the following year. The tablet also has an Apple A7 chipset as well as a PowerVR G6430 GPU (four-core graphics). The tablet also comes with a 16/32/64/128GB memory option with 1GB DDR3 RAM as standard. The Apple Air also comes with a 5-megapixel primary camera with 2592 x 1944 pixels and autofocus. The quality of the video is also good in 1080p@30p. The secondary camera is a 1.2 MegaPixel that runs 720p@30fps with face detection. iPad Mini 3iPhone 6 PlusiPad Air 2iPad Mini 3iPhone 6 PlusiPad Air 2iPad Air Released:2014, October2014, September2014, October2013, OctoberCPU: Dual core 1.3 GHz CycloneDual-core 1.4 GHz CycloneTriple-core 1.5 GHzDual-core 1.3 GHz Cyclone GPU: PowerVR G6430 (quad-quad-core 1.5 GHzDual-core 1.3 GHz Cyclone GPU: PowerVR G6430 (quad-quad-core core)PowerVR GX6450 (quad-core)PowerVR G6430 (quad-core)Memory: 16/64/128 GB, 1 GB RAM16/64/128 GB, 1GB RAM16/64/128GB, 2GB RAM16/32/64/128GB, 1GB ram battery:6470mAh2915mAh8820mAh8820mAhCamera:5 MP, 2592 x 1944 pixels8 MP, 3264 x 2448 MP, 3264 x 2448 pixels5 MP, 2592 x 1944 pixels Other: The tablet has no built-in radio, however it comes with a speaker, 3.5mm connector, as well as 802.11 a/b/g/n Wi-Fi and Bluetooth Bluetooth The phone also has A-GPS, GLONASS (3G/LTE model only). With a talk time of 10 hours (8820mAh battery) the phone is very good. Not bad.
