A1: Please give us some pictures or videos. It is very useful for me to get this done and provide good customer service for you. Q2: Reticle(period) // Reticle(dot) cannot set to center place. A2: for micro-adjustment only, you can not see this clearly because the product is almost in the middle position when it is made in the factory. People don't always have to set it up. If you want to adjust it, please mount the binod tightly on the gun, then start adjusting (lduoside siderduo button until the end. Ldquoop and downrdquo button and lduoside siderduo button need to cooperate to adjust, which means you need to alternaally adjust two buttons to find a good place Q3: like dot cloud, it is not round enough. A3: There is a brightness setting to weaken the point, then the point will be smaller and round trun. Q4: I can't mount my glock A4: Here are some pictures of the assembly path, we hope it is useful for you: I still can't mount, please help us to present some pictures of the weapon.
