Star wars: demolition

What a wild roller coaster it has been for Star Wars fans. In record time, fans went from being very happy to have the saga back to constantly in each other's throats. Now, against all odds, it seems the tide is changing once again. Let's discuss why Star Wars might be back on a very big road.
Jon Favreau, Dave Filoni and the cast of 'The Mandalorian' at Star Wars Celebration | Daniel Boczarski/WireImage for Disney
Introducing 'The Mandalorian'
The biggest change the saga has made recently is its foray into live-action television. Animated series such as Star Wars: The Clone Wars and Star Wars: Rebels have been around for years. But the new Disney+ series The Mandalorian opens up new avenues for the franchise. With the feature side on hold, The Mandalorian takes Star Wars in a new direction unloADED by the larger universe. As such, it is able to play in the sandbox created by George Lucas decades ago without having to tie everything back to the Skywalkers. Fans so far are loving the series, especially a certain new diminutive character. And the Mandalorian is just the beginning. Disney+ will be the destination for Star Wars fans in the coming years, with several other shows in progress. After all, which fan who respects himself will miss the chance to see Ewan McGregor finally come back as Obi-Wan Kenobi? Fans are loving 'Jedi: Fallen Order'
On the video game side, Star Wars fans are currently absorbed in Jedi: Fallen Order. The game — available for Windows, PlayStation 4 and Xbox One — follows a new character named Cal Kestis (Cameron Monaghan). A Padawan during the prequel trilogy, Cal managed to survive the Jedi purge of Revenge of the Sith. In this action adventure game, players help young Jedi escape the clutches of the Empire and search for allies. To the delight of critics, the gameplay focuses not on stealth tactics, but on using the Force to fight your way through the story. His plot also shines largely on elements that Star Wars has not yet covered. While some familiar characters - such as Rogue One's Saw Gerrera - appear, Jedi: Fallen Order shares an approach similar to the Star Wars universe as The Mandalorian. Both projects exist almost entirely disconnected from the main focus of the movies. With new protagonists and new worlds, they are determined to fill the gaps between the main episodes of the saga. So far, this seems to be exactly what the fans want.
Star Wars: Can Skywalker's Ascension hold momentum?
So, of course, a little Star Wars project called Skywalker's Ascension is waiting around the corner. Director J.J. Abrams' film probably won't please everyone, but it's intended to be the grand finale of the long Skywalker saga. So regardless of how it happens, the fans are now very to see how the saga stirs. Shaking, and your team seems to be pulling all the stops. Skywalker's Ascension will mark the last time many original characters in the trilogy appear on screen. Nostalgia - much like the Force - is strong with this one, despite the distaste of some fans for The Last Jedi. Initial ticket sales indicate that the new film could be another cultural event like The Force Awakens. As far as fans know, Skywalker's Rise will be the last chance they'll have to see Star Wars on the big screen. And judging by the Mandalorian and Jedi: Lost Order, what comes next may be something completely different. For now, Star Wars fans should just dive into everything the galaxy has long, far away and hope it can maintain that strong momentum for years to come.

Affordable, relaxing and healthy oil diffusers are gaining popularity with people everywhere due to their extensive benefits. Oil diffusers work through the simple oil diffusion process, which uses heat to turn oil into a steam that is then spread around a living space. Diffuse oil can have several benefits related to relaxation and health, including safe scent dispersion, mosquito defense and stress relief and more!
Continue reading for 11 hidden benefits of using oil diffusers.1. Safe scents That make senseIrritating candles or air purifiers, oil diffusers release cleaning molecules into your air that work to purify it, not overload it with unhealthy chemicals. Electronic diffusers also do not pose the risk of fire that candles make. In addition, they contain the additional feature of interchangeability, which means that you change the types of oil for different aromas and health benefits.
2. Stress relief
Several laboratory studies have confirmed that the diffusion of essential oils like lavender has been demonstrated to reduce stress and help relieve anxiety in medical patients. Preliminary studies have also shown that oil diffusers can help relieve the symptoms of depression.3. SleepDiffused's improved oil has relaxing properties that can help people of all ages sleep faster and sleep more deeply. Electronic diffusers not only have the option to mix and combine different oil blends (Try a mixture of lavender, Bulgarian rose and Roman chamomile to help with insomnia), they also run on a gentle buzz that helps relax a restless mind. Many also come with an automatic shutdown feature to help conserve oils once you have fallen asleep.4. Appetite Control
Much like gum, oil diffusers can help stimulate the senses in a way that works for appetite. New research has shown that widespread mint oil can help curb appetite by inducing a satiety response within the body. Widespread peppermint oil has also been shown to increase energy.
5. Bacteria and Mold KillingWhen essential oils are diffused in the air, they break free radicals that contribute to the growth of harmful bacteria. Eucalyptus oils, thyme and tea tree tea especially good for this purpose. Diffuse oil is also highly effective when it comes to combating fungal yeast threats because the help of the oil makes the air time less in yeasts like the. Essential oils of red thyme and pine are the best to fight mold.6. Decongestant and Mucosessei Control
Vick's Vapo-Rub? Its decongesting powers come from active ingredients made from eucalyptus. In principle, oil diffusers work in the same way as Vapo-Rub, except that they diffuse their decongesting steam throughout the room, not just on your chest or neck. Oil diffusers are known to cure pneumonia in laboratory rats.7. Mosquito RepellentNobody likes mosquitoes — but when the trade-off means using repellents filled with DEET, a toxic chemical that can be especially harmful to children, mosquito control can often seem like a loss. However, scientists have shown that oil diffusers can be used as a safe and highly effective mosquito repellent. Studies have shown that a mixture of diffuse oil containing clove essential oil and lemongrass essential oil repelled a type of Zika-carrying mosquito, the Aedes aegypti mosquito, at a rate of 100%.
8. Pain relief
While applying oils directly to areas of your body may be the most effective way to relieve pain, diffuse essential oils can also be an effective means of pain relief. When we instill healthy essential oils, they enter our bloodstream and can help internally relieve the persistent pain of headaches, overloaded muscles, and sore joints.9. The New Anti-Viral Research on the Antiviral Effects of Oil Diffusion is now just gaining steam. A recent study showed that stellar anise essential oil has been proven in medical experiments to destroy herpes simplex virus in contained areas at a rate of 99%. Another study showed the popular Terra OnGuard oil blend with highly effective flu-lighting powers.10. Improved cognitive function
The tion of essential oils has also been demonstrated to improve cognitive function. Many essential oils have adaptogenic qualities, which can work twice in calming us down when we are stressed, and giving our bodies a pick-me-up when we are feeling down or slow. By working to level an unbalanced mood, widespread oils also help us focus. There are also several essential oils that have been shown to help balance the body's hormones. With prolonged use, these oils can work to repair the underlying causes responsible for hindering cognitive function.
11. Saving moneyWith ten clear benefits of oil diffusers already outlined, there is one more that should now be Using an oil diffuser will help you save money. As an antiviral solution, insect repellent and stress relief wrapped in a safe product, an oil diffuser used with the proper oils will save money on products you could be buying to help cure these annoying headaches or make your children sleep in on If you're wondering how affordable oil diffusers can be, check the buyer's guide to the best oil diffusers — you'll be sure to find one that fits your budget!

Fans of the Star Wars franchise are not so different from obsessive sports fans. Both love minutiae and statistics —there's very little difference between knowing that Reggie Jackson and Paul Molitor are the only players to score ten runs in a single World Series and knowing that Boba Fett made her first Star Wars Holiday Special appearance. Both like to dress up as their favorite characters, acquire the best related merch available, exaggerate the games/sequences of their youth, and humiliate fans who aren't dedicated enough. Both also have a healthy but rarely appreciated sense of humor. Believe it or not, guys who wear lucky underwear because they think it's going to help the team win can make a joke with their best. The same goes for Star Wars fans, although your mood tends to lean heavily towards the inherent joy of droids and Wookiees. Se you're an originalist who thinks Star Wars starts and ends with the first trilogy, or you live and breathe Baby Yoda, there are many Star Wars jokes just for you. For your amusement, we've put together the most extensive and comprehensive collection of jokes about a galaxy far, far away. If we can hardly paraphrase Yoda, Mirth leads to smile, smile leads to muffled laughter; stuffy laughing leads to full guffawing. The Good Guys
Disney
What did Han Solo tell the waiter who recommended the haddock? Don't ever sell me the cod!
Why did none of Luke Skywalker's marriages last? He always took Obi-Wan's advice: Use the divorce, Luke.
What was Lando's nickname before he became a skilled pilot? Crashdo
