An encyclopedia of candlestick charts is a reference that every technical analyst will want to own. - Gregory L. Morris, Senior Portfolio Manager, PMFM, Inc., author of The Candlestick Chart Explanation, Third Edition and Full Guide to Market Expansion Indicators - This text refers to an alternative kindle\_edition edition. Start reviewing an encyclopedia of well-thought-out book candlestick charts with some useful statistics for many candlestyles. The problem is to identify them all and chain many candles at a short distance from each other and try to deduce something. Also, the identification of candles should be a little more mathematically explained, rather than giving a general idea, so it should be better to backtest them. Not bad if you subscribe to wrt wrt effectively market timing art this is a much needed book in the art analysis arena, so I ran across it and that the author took the time to put it together. This is a much needed book in the art analysis arena, and I'm very glad I ran So that the author took the time to put it together. ... More introduction. Confessions. An introduction. Results.
