The game is very difficult, the background music is cool – APKAward.com the game structure is very simple, all with graphic reality, such as triangles, squares, diamonds etc., and the game world is composed of these graphics, although the structure is simple, but the hierarchy is not simple, the horizontal game version 2D, to highlight the tele features, needs to go through exquisite design, it should be said, clever developers considering every different color color to detect So intuitive screens so that players are more likely to produce trap responses, the most magic game is that the rhythm of the music and the player's jump rhythm are almost synchronous, if you're sensitive to music maybe you can close your eyes, the rhythm of the march can escape all the traps, it's very interesting. Every time you touch the screen, the role jumps, in addition to no additional action, and in the main menu interface, you can choose the role of control and system settings, and that's why options, log in to the game after each level selection can start in the top right corner of the game can be suspended, the interface pause can see their progress and as such, the game screen is very clean It is, without additional buttons to block the player's line of sight, it is worth noting that the HELP suspension can be viewed at any time, not familiar with the action players can see. The game is very simple, to level, the selected players will be the role to the right forward, the way obstacles will always block players, and the only way to avoid these obstacles is to jump, although it looks simple, but the correct action of the player requires a high challenge, and because of the prospect of limitation, the player will never know how the front of the pitch, so this greatly increases the toughness of the opponent is the number of players can stick to the most critical elements, albeit resentable, experience is also necessary, the experience is to rely on many times to play, only combining the two, in order to break their limits, at the custom level, requires the player's imagination. On the way, there are many obstacles that block your adventure. Challenges are rated with relatively high difficulty levels, you don't have to be terrified because the game stops too quickly. Dash geometry tests the speed of the hand and the ability to view a player. Practice mode helps you get used to gameplay that is not new but difficult to understand. When I tried it, I made the same mistakes several times in one place. Needing to be quick to overcome spikes, Jagen's dense makeup is on the way. If you play in a hurry, it's easy to get restrained with this game. Get used to playing over and over again. High scores for players set a new record, each time you have to work harder to clear past milestones. Dash geometry has no rivals but yourself. Similar to Surfer Cube!, Red Ball 4 but you will find that scoring in this game is harder to achieve. That doesn't mean the two games I just introduced are not good. It's also great suggestions for you to have interesting gameplay. Download Geometry Dash Mod – Bring Your High Flying Icon To get used to fast-paced gameplay from scratch. Obstacles are still available in the fore field in a fixed position. But it's not easy to get through it safely, only once mistakenly you return to the starting point. Geometry Dash doesn't allow you to bring to life to continue playing, it seems all in a very serious test. Press or hold on screen for icons to fly high in rhythm, skip dangers and the like. However, fast icon motion speed makes it difficult to control. The protaga is a symbol that comes in many shapes and colors. The whole game is eye-catching with a variety of colors. Select a variety of challenge modesEach games is different game mode, stereo madness, back on track, Polargeist, drying... There are a few options for you. Of course, each mode has its own map, even the previous level you completed very well, but that doesn't mean it's right for the next level. On the kick, the geometry of the dash automatically returns to the original position, press the pause button if you want to rest for a few minutes. Select and customize icons there are many icons in Geometry Dash, but since they have no names, they cannot be specified here. Most of them are dragonflies, squares, animals. Customize icons by selecting a color, with 24 colors to choose from, creating many different versions of the same object. Improving the skills of TheGeometry Dash is a great skill practice for players. You are familiar with quick controls and observations that help the player progress in each level. I want to emphasize that you need to play a few times if you want to have real experience in this game. It needs to persist too. The extent to which each square of color goes depends on the odds. Jumping faster or slower also causes icons to crash. There is always a single position if you understand it fast enough it will take longer. Download Geometry Dash Mod brings icons to jump up in fascinating music gameplay. Run for your life and pick up treasure as you go parkour's most spectacular chasing platformer starring an amazing red ball fangame based on the Nintendo hero doesn't stop running and avoid sonic tigers and is running around the Greenhill Classic, the first, the best.
