Hello all fellow flash players! I'd like to introduce the second part of Dylan's Unblocked Games series! Recently, my original site was blocked by most schools and parents. But that's why I made this second site. All this will take games from the original site and more, and I'll actually have other of my friends working on it as well. So enjoy, and have fun! By the way, if you are able to, be sure to play on this page with a personal email. Good luck! VIEW COUNTER Counter data-scrollable=true style=display:block;float:left;width:500px;height:500px;> Are online titles recognized? In general, any accredited degree offered by a higher education institution certified as such in a significant country will be recognised as a valid degree. ... Online degrees are relatively new in higher education, and are still evolving. Do online students perform better? Students who take classes fully online perform approximately the same as their face-to-face counterparts, according to 54 percent of people responsible for these online programs Are online courses useless? After all, taking an online course from a large brand business school does not require weeks or months of study for a standardized test. You can do this without leaving your job or making long sacrifices of time from your family. And it costs only a fraction of what you would pay for in a full or part time MBA program, or for that matter, an online MBA or executive MBA program. What are the disadvantages of online schools? 1. Online courses require more time than on-campus courses.
2. Online courses require good time management skills.
3. Online courses require you to be an active student.
4. Online courses give you more freedom, maybe more than you can handle!
5. Online courses require you to be responsible for your own learning. Page 2 Are online titles recognized? In general, any accredited degree offered by a higher education institution certified as such in a significant country will be recognised as a valid degree. ... Online degrees are relatively new in higher education, and are still evolving. Do online students perform better? Students who use them fully online in their classrooms perform about the same their personal counterparts, counterparts, up to 54 percent of the people responsible for these online programs are online courses useless?
