Nerf sledgefire shells cheap

In: Pages using duplicate arguments in template calls, Zombie Strike Edit Share Unleash a triple attack against zombies with this hardcore Sledgefire Blaster! Load 3 darts into each of your rechargeable projectiles, and break the blaster barrel to recharge. Get loaded with the blaster's ammo storage compartment! The undead won't stand a chance when you hit the streets with sledgefire's detonator! © 1996-2014, Amazon.com, Inc. or its affiliates Product InformationTriple tap is the new double tap In order to properly prepare for the zombie apocalypse, several experts at Hasbro's headroom have watched a wide variety of movies dealing with the subject. During his research, it became apparent that there was no way to survive the end of the world without a really kickass shotgun – a shotgun so kickass that neither Barrel Break nor Rough Cut could compete. Sledgefire was born. This smash action detonator made of sheer grandeur is capable of firing up to 3 Elite Zombie Or N-Strike Elite Darts at an impressive distance of 15m or 50ft. And yes, that means three darts at the same time. To operate this zombie destruction machine you simply push the barrel down to engage the blaster and expose the place the shell needs to go. Push the shell in and the barrel up and you're ready to wreak havoc on the undead. Up to 3 extra shells can be stored in the Shoulder Stock of the Sledgefire. If you're short on darts, you can load the shells with less than 3 darts, too – the blaster will work just fine. This offer includes a Zombie Strike Sledge Fire, 3 shells, 9 Zombie Strike Darts (which are identical to Elite N-Strike Darts in all aspects besides color) and a zombie themed stencil series. To (mis)quote one of the films involved in the research mentioned earlier: When you use Sledgefire to deal with a zombie you set the standard not to be stirred. Does anyone have a clue about the best place to get it for cheap, whether as stock or already printed?
