You may also be interested in these related articles: Google Classroom for EDSU 533, EDMU 523, and EDUU 551APORTANT. Sign in to Classroom as a teacher. Otherwise, you won't be able to create a class. To sign in to Classroom, you'll need your Google G-Suite account information (formerly Google Apps for Education) — email and password. A G-Suite account is a unique account created by a school, and the username is similar to myname@myschool.edu. Brandman's google-specific email addresses include myname@mail.brandman.edu. Brandman students automatically have brandman gmail accounts, so you will need to use a Brandman Google account, not a personal account. You can't use Gmail or any other personal email account to sign in to Classroom. If you don't know your account information, ask your IT administrator or Google Apps at school. Brandman's student email gives you access to Google Apps for Education. Note: We won't invite students to this class because it's a university course project. However, you will need to invite the instructor as a teacher for classification purposes. You may also want to invite a few of your classmates as students. First, you'll need to add the teacher and students you're going to invite as contacts in your Brandman Gmail account to appear in the contacts menu in Google Classroom. Only Brandman's Gmail accounts can be shared. Your instructor will need to use a Google Brandman account, not your personal Gmail account. Go to classroom.google.com. Make sure you're in your Brandman G-Suite account, not your personal account. Enter your Brandman G-Suite username and click Next. Your G-Suite username looks like myname@mail.brandman.edu Enter your password and click sign in. Teacher button Create your Class Click on the plus side next to the login name in the upper right corner of the screen. Name a class for a specific topic area or class you can choose to use a more generic name for your site's resource-area topics. An example of a Stock Photos banner sure to add a photo to your Brandman Google account. New Version of Google (2019) Click the People tab in the Click on + menu for Invite Teacher or Invite Student Teachers will be able to edit your work, but students will only be able to view and comment. In general, it is good to simply invite an instructor as a student. Be wed to the instructor's tips or preferences in announcements. You can also email the class code to the teacher or attach it to a whiteboard or text box task. See the statement at the bottom of the screen - Invite students or give them a class code: wem1h4 You can use the class code to invite teachers and students. Keep in mind that you can only invite teachers and students who are in your Brandman Google Apps domain. You invite students to your school account. However, for the purposes of this course, you do not need to invite students. This page is no longer updated.
