Tank Trouble 2 is a royal battle with tanks. You can play in different modes. These are facilities for 1 player, 2 players and 3 players. Unfortunately, the game is not a multiplayer game, but you can still play with your friends on the same computer. When you select a mode, each person's controls are displayed and each player is expected to press the shooting button to start the game. Levels are created randomly, so every time you play, you encounter different levels. You can pick up various updates. Like a laser beam, sonar shot, positioning missile, mine, etc. Pick them and try to eliminate your friends. But be careful when you fire, because bullets bounce off the banks and the ricochet can kill you too. The most difficult condition is the status of 1 player. Do you think Against Laika?
