Stay oned for more tutorials! Stay tooned for more free drawing lessons by: All free art lessons are EasyDrawingTutorials.com good drawing guides for beginners and experienced artists alike. Online tutorials are easy to follow; They teach you how to draw the basics while showing you how to draw fun cartoon characters step by step. Each cartoon character has a video drawing tutorial option, as well as step-by-step photos and written text to follow. To draw Snowflake step by step, follow along the video tutorial below and pause away from the video every step after that to go at your own pace. It's easier to follow the detailed drawings below. New rows for each step appear in red, and each step appears in the text below the photo, so you'll know exactly what to draw in each step. You may want to open the video in a new tab and use both drawing methods! Take your time and work at your own pace. The written step-by-step video tutorial:Intro: Starts with a pencil sketch. In the first stage, do not press too hard. Use light, smooth outlines for sketching. Step 1: Draw a long, vertical line to the first part of the snowflake. The line doesn't have to be perfectly straight, but if you want a straight line, you can use a ruler. Step 2: Guesstimate, where you are in the middle of the line and make a small mark. Draw a long diagonal line that bypasses the small mark in the middle of the vertical line. Step 3: Draw another diagonal which is down in the other direction. All three rows must be approximately the same The space between them must also be equal. Step 4: Draw some vertical lines around the first line to make the shape thicker. You can make tips pointed and don't connect the shape in the middle. Step 5: Do the same for the left lines. Follow the initial lines and make the shapes thicker. Do not put these new shapes too thick. Follow the initial lines closely, and the tips are pointed. Last updated on May 2, 2020 Snowflakes are so beautiful and nature has its own form of art. Although each snowflake is unique, they all follow the rules of fractal geometry, so we can use these rules to draw a realistic snowflake. Learning that it's not as hard as it looks. Below you will find 10 different tutorial on how to draw snowflakes. You will see that each instructor has its own style, so choose which snowflake you want to draw should be. We hope that you will find these guides useful and inspiring. So take out your paper, write props, and stop by. It's a wonderful activity to spend time with the kids while it's cold outside. good luck! 1. How to draw a snowflake 2. How to draw a cartoon snowflake 4. Learn how to draw and color a beautiful snowflake 5. How to Draw Snowflakes 6. How to Draw a Snowflake in Frozen 2 7. How to draw a cute snowflake 8. How to draw a snowflake 10. How to draw snowflakes (Christmas drawings) Want to decorate your house with a frozen themed party? Try this DIY frozen craft. This is the perfect way to get the snowy feeling closed this summer. You can also help your children create snowflakes. Since it's a fun project, it certainly will never be forgotten. Try this DIY frozen craft for your kid's next party or sleep. What you'll need: • Balloons• Fabric (or printing paper)• Scissors• Pen or pencil• Tape banner • Continue reading Under the instructions: Step 1: Fold paper and draw plan. Fold a square sheet of paper in half (hamburger style), then fold it in half again. Take one side of the space on the other side, so it creates a triangle. Now draw a plan on the paper triangle. Be sure not to put too many designs near your fold. Ad - Continue reading below Step 2: Cut it off. Be careful not to overlock the fold. Cut along the design. Don't overlock the fold. If so, the snowflake won't turn out, and it might fall apart. Step 3: Open it! Do you feel like you have a magical talent like Elsa in the movie? Don't you have a nice snowflake? Step 4: Fill balloons. Take the balloons and fill them up. We used a tank from the store that came with balloons! Step 5: Tie tape to the balloon and tape the tape to the snowflake. Ad - Continue Under Once you are done with your floating DIY Frozen craft snowflakes you can place them wherever you want and they will float in the air like snow. Check out We hope you enjoyed this DIY Frozen craft and that turns your child's birthday party into a magical winter wonderland. Remember all our other frozen art, like olaf,

In her spare time, she enjoys FaceTiming with her fiance (who now lives in Australia), travels and writes novels. If you ever wanted to know how to draw that beautiful snowflake from disney frozen movie, then you're going to enjoy this drawing tutorial. Today I'll show you how to draw that beautiful snowflake that is plastered with movie posters and other items. It's very geometric, so get out of the rulers. Let the good times roll! You might also enjoy other frozen drawing lessons on How to draw Snowflakes disney frozen movie easy to follow step 1a - Draw a point in the middle of the page. Since this snowflake is so geometrically perfect, you will want to have a center. Step 1b - It's a good idea to take out the ruler so that the lines are straighter. - Draw 2 lines through the middle point, forming the letter X shape. You need to draw the lines easily, because some of them will be wiped out. Step 2 - Draw a line vertically (up and down) through the center. – Also draw the dots in an oval formation, one line at a time, as shown above. Step 3 - Use these points in the final step to draw a gem-like shape in the center. - Also lightly draw another letter x through the middle of the form. Step 4 - Now we're going to draw points again to form 2 laps (a smaller circle and a larger circle). In fact, we're not going to draw the circles, I'm just going to show you that because the dot is equally far from the center, the dot would form a circle if you tried. Use the ruler (if you want) to ensure that all points are equally away from the center. Step 5 - Now we will use those dots that we drew in the last step and make this flower as a shape. This form looks insanely difficult to draw.... But it's not. Take a look at it, there are 2 different colors. I did it to show that the flower shape consists of the letter v. (See that there are green v letters and black v letters, all of which are connected). Splitting shapes into smaller parts is a technique that makes drawing much easier. Step 6 - Now draw some simple letter v shapes. Looks like it's got a lot of arrows in our snowflake. Step 7 - Now draw some letter v shapes. - Draw a few small circles. - Draw some straight lines. They are slightly slanted inwards, but only very slightly. Step 8 - What?! With even more letter v shapes, it's starting to feel like school!!!! - Also outlines some forms and deletes the centers (see the picture to realize what I'm talking about). Also draw some straight lines inside the shape as well. Step 9 - More letter v shapes ... maybe one day we'll teach you how to draw another letter, but today it all seems to be about the letter v. ☺ - Draw oblique inward lines to tie the really large v shapes to the flower shape (see picture above). Step 10 - This step will outline the arrow-like lines (the middle lines are all arrows). Step 11 - Now outline the arrow-like shapes. – Draw diamond-like shapes on each arrowhead. Finished black and white line drawing of the famous snowflake in Disney Frozen Movie - I hope that frozen snowflakes turned out good ... I know it's a tough and very detailed one, but I hope that I've made it a little easier for you.
