

2013 ap bio frq

Ap 2020 Preliminary Exam Score Distributions include exams conducted in May and early June, but do not include exception exams conducted at the end of June as they are still being scored. It doesn't seem like there will be any commentary on this year's exam scores, as there have been in recent years. Curious about the finances of the University Council? See a summary of the last 12 years of finance. The data were obtained in the 990s from the University Council (form of the Internal Revenue Service for No Profits). Total Registration has compiled the following Tweet scores that AP* University Council chief Trevor Packer has been doing during June. These are preliminary collapses that may change slightly as late exams are scored. Please follow the @totalreg we tweet every time this page is updated. Please inform others about these AP Exam Score Distribution Tweets In 2020, 422,000 students have signed up online for more than 834,000 AP Exams in 974 schools using the Total Registration service. Request an unobliged estimate to see how profitable this service is. Schools report saving more than 120 hours by simplifying their enrollment using The Total Registration. AP Score Distributions 2020 2019 2018 2017 2016 2013 2012 2011 This table is sorted by clicking on the header - Clicking on an Exam Name will show a comparison of the score distributions for all years compiled Exam s5 4 3 2 1 Date Tweeted Trevor's Comments 2-D Art and Design 13.4% 31.3% 34.4% 17.8% 3.1% Jun 27 AP Studio Art students performed at a high level this year, achieving increases in % earning 3 or more in each type of portfolio. 3-D Art and Design 10.9% 19.4% 37.5% 26.4% 5.8% Jun 27 AP Studio Art students performed at a high level this year, achieving increases in % earning 3 or more in each type of portfolio. Art History 11.9% 21.5% 27.5% 19.1% 20.0% Jun 21 AP Art History are quite similar to last year's, but slightly more 2s & amp; 3s, a little less 1s, 4s, 5s. Good AP Art History results across content in the multiple choice section; as usual, architecture issues had slightly lower scores. AP's Art History exams are visually beautiful. Check out these 36 multiple image-based options from this year's exam: ow.ly/mcPhX The weakness of many AP Art History students is the free response section: more focus on written analytics will improve eligibility for credit. The best scores were in the High Renaissance (Q4), the lowest at the beginning of the Renaissance (Q5). 45% of AP Art History students did not get this Renaissance artist in the 5th quarter, who earned lower grades. Can you do it? ow.ly/mcPSt The 2nd highest score from AP Art was at the Great Mosque of Djenne in Mali (Q6). Very well. ow.ly/mcQ52 Biology 5.4% 21.4% 36.3% 29.5% 7.4% Jun 25 1,200 university students were administered redesigned questions of the AP Biology exam this spring; his work was marked in the no Reading. University professors also took the complete redesigned biology exam of THE PA and evaluated each question to define the pts needed for 2,3,4,5. Most STUDENTS at AP Biology earned enough to get a 2,3,4, but very few scored well enough to get a 2,3,4, but very few scored well enough to get a 2,3,4, but very few scored well enough to get a 2,3,4, but very few scored well enough to get a 2,3,4, but very few scored well enough to get a 2,3,4, but very few scored well enough to get a 2,3,4, but very few scored well enough to get a 2,3,4, but very few scored well enough to get a 2,3,4, but very few scored well enough to get a 2,3,4, but very few scored well enough to get a 2,3,4, but very few scored well enough to get a 2,3,4, but very few scored well enough to get score on these was very low: 36%. Multiple choice: last vear, students earned 63% correct on average; this vear, 61% of FROs require students to explain, describe, justify their knowledge of content, Very low scores in avg. ow.lv/mmH00. Which% of AP Bio students earned 0 pts in these FROs? O5 (polypeptides); 45%. O6 (organelles); 49%. Q8 (hormonal signaling): 54%. AP Bio students performed well in the 3rd trimester (evaluating fossils of a transient species) and in Q7 (effect of alcohol on urine production). I posted a 6-page summary of the results of the AP Biology exam in the AP Community of Biology Teachers. University professors attest that ap's biology course and exam are now the gold standard in university-level biology. Congratulations to the biology teachers of ap. Calculation AB 23.8% 18.0% 17.4% 11.2% 29.6% Jun 20 AP The results of AB were stable this year: slightly higher percentage of 2s & amp; 4s, slightly lower percentage of 1s & amp; 5s. AP Calculation AB & amp; BC students performed slightly better in multiple choice questions on differential calc than integral calc. About a third of AP Calc AB students gained 0/9 points in q2 (particle movement), Q4 (Graphical Analysis of F&F'), Q6 (diff.eq separable.). The students obtained the highest average scores in the Q5 of free response in the area and in the volume: ow.ly/meTBn At least 1 student obtained a perfect score (108 out of 108 pts) in the AP Calculus AB exam. Calculation this year: large decline in % of 5s, and significant increases in % of 1s & amp; 3s in particular. AP Calculus Ab & amp; BC students performed slightly better on multiple choice questions on differential calc than integral calc. Students generally earned lower scores on multiple-choice questions. The AP Calc BC free-response O2 on polar area/parametric particle movement was more challenging for many students ow.ly/meTWG At least 5 achieved perfect calc BC scores. Chemistry 18.2% 21.3% 19.0% 15.1% 26.4% Jun 12 Impressive AP Chemistry scores this year -- the 4s and 5s% is significantly higher, so there's a % lower than 1.2.3s. Multiple choice scores AP Chemistry, particularly on issues on matter structure, slightly lower in matter states. 1 student (out of 126,000) obtained a perfect grade (150 pts possible) in this year's AP Chemistry exam. A future Nobel Prize winner? Free answer: students won all 15 pts: ow.ly/IZ2Fd Questions 1, 1, and especially 6 (IMFS/Lewis Diagrams) proved more challenging for many students: ow.ly/IZ2VM the Chinese language Lang. and culture 27.0% 20.0% 30.5% 10.2% 12.3% Jun 24 AP Chinese results show a lower percentages of 4s, 3s, 2s, 1s. Multiple choice: Students generally presented themselves at a higher level in reading questions than those who listen. This conversation, in which students apply for a job, proved to be the most challenging task in the Chinese AP exam: ow.lv/mlcnh big increase in 4s/5 compared to last year. Multiple choice results: on average students performed best on logic/software eng/recursion issues, on average, students performed less well in questions, slightly lower in Q3: ow.ly/IVKJp 16% more students took AP Computer Science this year, making the expanded ratio of 4s and 5s even more impressive. What teachers! Drawing 15.3% 20.4% 42.8% 18.8% 2.7% Jun 27 AP Studio Art students performed at a high level this year, achieving increases in % earning 3 or more in each type of portfolio. English Language 10.3% 16.1% 28.7% 29.8% 15.1% Jun 18 A significant increase in the results of AP English Language & amp; Composition: much lower % of 4s, higher % of 1s. Students scored equally well in all the various passages in the multiple choice section this year. Students tend to score higher in the 1st guarter synthesis essay, and the lowest in the 2nd guarter analysis essay: ow.ly/m9C8d Literatura Inglesa 7.6% 18.9% 31.6% 31.6% 10.3% Jun 18 Slightly higher % 3s and 4s and slightly lower % of 1s, 2s and 5s. The students performed well in multiple choice questions, especially those focused on poetry analysis. Same usual pattern in ap eng lit essays: scores were higher in q3 of free choice and lowest in the analysis of Poetry Q1. Last year (2012), students most often chose to write about Heart of Darkness on AP Eng Lit Q3. This year, a very different choice. Dr. Eileen Cahill of Salem Academy led the Q3 score in bildungsroman, collecting re data: books most often chosen by students. Any guesses about the book most often chosen by students for Q3? ow.ly/m8W2d Tip: The author filed a copyright lawsuit in May. To Kill A Mockingbird was the text that AP Eng Lit students most often chose. The examiners noticed that some had confusing evidence, having read it years ago. After Lee's novel, the 10 most selected texts AP Eng Lit students for the 3rd guarter were: 2: Huck Finn. 3: Catcher in rye. Two African-American authors (one woman, one man) ranked #4 & amp; 5 in the most frequently selected AP Eng Lit Q3. The #8 and #9 texts most often selected for AP Eng Lit Q3 were not on the list of ideas for students: a Shakespeare, a contemporary. The #8 and #10 novels most frequently selected for AP Eng Lit Q3 are both from the same contemporary author (fortunately not Rowling or Collins) Texts most often selected for AP Eng Lit Q3: #6: Jane Eyre (C. Bronte). #7: Great Expectations (Dickens). Texts most often selected for AP Eng Lit Q3: #6: Jane Eyre (C. Bronte). #7: Great Expectations (Dickens). Q3: #8: The Kite Runner (Hosseini). #9: Hamlet. #10: A Thousand Splendid Suns (Hosseini). Texts most often selected for AP Eng Lit Q3: #4: His eyes were watching God (Hurston). #5: Invisible Man (Ellison). Environmental Science 7.7% 23.3% 16.9% 25.6% Jun 13 The fallacy of which AP Environmental Science is the easy AP science exam continues; has the lowest scores of any AP science exam. Many students do AP Environmental Sciences without making the prerequisites for a standard biology and chemistry course first. Results have fallen this year, falling below 50% of students earning 3,4.5. Where AP Env Science students shone: many high marks on guestions about: Earth Systems & amp; Resources; Living World; Land & amp; Water Use. The most difficult multiple-choice guestions for AP Env Science students were typically about Global Change. Free answer guestions for AP Env Science students were typically about Global Change. scores in q1 (Gulf Coast Ecosystems), and the lowest scores in q3 (Ozone). Environmental Science exam continues; has the lowest scores of any AP science exam. Many students do AP Environmental Sciences without making the prerequisites for a standard biology and chemistry course first. Results have fallen this year, falling below 50% of students earning 3,4.5. Where AP Env Science students earning 3,4.5. Where AP Env Science students earning 3,4.5. questions for AP Env Science students were typically about Global Change. Free answer questions require a great mix of content knowledge, math, and analytical skills: ow.ly/m0fdC. Students tend to get the highest scores in q1 (Gulf Coast Ecosystems), and the lowest scores in q3 (Ozone). European History 10.3% 18.7% 34.9% 11.0% 25.1% Jun 13 Slightly lower performance than last year, slightly lower % 3/4/5s. Students tend to have a good on average, on all topics and historical periods in the multiple choice section. The most frequent score is 5/9 in the doc-based ap Euro History guestion: 12 docs on religious tolerance, 1500-1700: ow.ly/IZSSO. Students chose between writing topics about art/politics (19,000 students); stude welfare essay had lower scores. French language 14.1% 25.1% 35.5% 20.1% 5.2% Jun 24 AP French students have reached a slightly higher percentage of 5s this year. Very well done. Students tended to act at the same solid level throughout the exam - no variation in scores, whether writing or speaking. Multiple choice questions re: science & amp; technology proved less challenging; those in personal/public identities, the most. Among non-equity students (the default group), a French AP student scored 130 of the 130 pts possible. German language 11.7% 25.0% 34.9% 20.5% 7.9% Jun 24 Some falls in german student performance this year: % lower than 4s and 5s (and 1s), higher % of 2s and 3s. German AP: scores were higher in email response (Q1) and lower in oral cultural comparison (Q4): ow.ly/mljLZ Students generally scored very well on multiple choice questions about beauty/aesthetics & amp; contemporary life. Government and Politics, Comp. 18.7% 21.0% 19.8% 23.0% 17.5% Jun 26 U.S. citizens may be interested in testing their knowledge of U.S. government & amp; policy on ap issues this year: ow.ly/mpOAf. I try not to have ap favorite courses, but if I had, AP Comp Govt (China, Britain, Iran, Mexico, students from this year's AP Comparative Government & amp; policy on ap issues this year; ow.ly/mpOAf. I try not to have ap favorite courses, but if I had, AP Comp Govt (China, Britain, Iran, Mexico, students from this year's AP Comparative Government & amp; policy on ap issues this year; ow.ly/mpOAf. I try not to have ap favorite courses, but if I had, AP Comp Govt (China, Britain, Iran, Mexico, students from this year's AP Comparative Government & amp; policy on ap issues this year; ow.ly/mpOAf. I try not to have ap favorite courses, but if I had, AP Comp Govt (China, Britain, Iran, Mexico, students from this year's AP Comparative Government & amp; policy on ap issues this year; ow.ly/mpOAf. I try not to have ap favorite courses, but if I had, AP Comp Govt (China, Britain, Iran, Mexico, students from this year's AP Comparative Government & amp; policy on ap issues this year; ow.ly/mpOAf. I try not to have ap favorite courses, but if I had, AP Comp Govt (China, Britain, Iran, Mexico, students from this year's AP Comparative Government & amp; policy on ap issues this year; ow.ly/mpOAf. I try not to have ap favorite courses, but if I had, AP Comp Govt (China, Britain, Iran, Mexico, students from this year's AP Comp Govt (China, Britain, Iran, Mexico, students from this year) approximately approxi & amp; 5s, % higher than 2s & amp; 3s. Nigeria, Russia) would be among the students scored exceptionally well on multiple choice issues, particularly those on political economic changes. Short answer guestions: students actually struggled with Q1 (british coalition govt) and Q5 (supranational organizations). Students demonstrated great understanding of Russia and China in the 7th guarter; almost 40% gained 0 of 7 pts possible. Can you name 2 supranational organizations? The 5th guarter obtained the lowest score in this year's AP Comp Govt exam: bit.ly/19CRP0i Government and Politics, USA 11.2% 14.3% 26.2% 24.9% 23.4% Jun 26 AP USA Govt & amp; Politics are, with a higher percentage of students earning 3, lower percentages earning 4, lower percentages earning 4, and 5s. Students performed extremely well in multiple choice questions about citizens' beliefs and behaviors. far away, the most challenging multiple-choice questions for U.S. Government students ap were on constitutional grounds. Many students fought in the free response section of the AP US Govt exam; in each of the 4 questions, ~20-25% of students earned 0 pts. Performance was very similar similar similar each of the 4 free answer questions of the U.S. Govt, but slightly lower on the influence of parties in the elections) Human Geography 12.0% 20.3% 20.8% 18.7% 28.2% Jun 13 Scores remain stable this year, with a slight increase in the average score due to a lower percentage of 1s. The notes in the MC guestions, in avg, are very good, the highest of any subject so far this year. The lowest scores in the MC guestions were on Industrialization & amp; Economic Development, but even these avg scores were solid. Industrialization & amp; Economic Development, but even these avg scores were solid. this topic, had very low scores. 20,000 (almost 1 in 5) students earned 0 of 8 points in FRQ #1: Industrialization & amp; Economic Development: . On the other hand, the students of AP Human Geo scored very well in the FRQ #2, the population issue; 33,000 students won 6 to 8 pts (out of 8). Italian language and Culture 10.1% 21.6% 33.9% 27.4% 7.0% Jun 24 Large increase in the percentage of students earning 2 in Italian AP; all other percentages are lower (5s, 4s, 3s, 1s). Almost 30% of students scored perfectly #1 assignment spree, the answer by email: ow.ly/mllnP Two non-equity students in AP Italiano received perfect scores of 130 of the 130 possible points. Bravi? Brave? Time will tell. Japanese Lang. and Culture 18.9% 11.3% 30.1% 11.8% 27.9% Jun 24 An increase in japanese students of poor performance ap this year: % 5s.4s remained stable, but lower % 3s.2s and significantly higher % 1s. AP Japanese students tend to perform at high levels in issues focused on reading Japanese in the multiple choice section of the exam. Free answer: students had the best score in the 2nd guarter, write an article contrasting typography/calligraphy in Japanese: ow.ly/mlnlv Latin 14.2% 21.1% 31.6% 22.8% 10.3% Jun 27 The redesigned Latin exam ap, given this year for the first time, focuses on both poetry (Aeneida de Vergil) and prose (Caesar's Galic War). Multiple choice: students generally earned higher scores in Vergil than Caesar, and higher scores in the prose reading view than poetry. Students found ap's Latin translation tasks difficult. 22% won 0 out of 15 pts in Vergil, but scores slightly better translating Caesar. The analysis essay on Caesar/Dido (O3) & amp; the short responses of Caesar (Q5) separated strong from the weak students: ow.ly/mpWdl. 2 AP Latino students came, saw, conquered, earning perfect grades, every possible point, 100 out of 100, on the exam. We posted on ap Latin Teacher Community online information on how the standards for the Latin scores of 1,2,3,4,5 were established. Macroeconomics 13.7% 22.6% 16.8% 19.6% 27.3% Jun 18 Performance students this year was very, very similar to last year. Students generally scored well in multiple choice on basic concepts, but struggled with determining national income. Students generally had strong knowledge of the production & amp; fiscal poss curve good scores in ow.ly/m9F3I of the 2nd guarter . Phillips' curve and inflation were the focus of ap macroeconomy 16.7% 28.4% 20.6% 15.4% 18.9% Jun 18 Students generally did very well in multiple choice, many referring to the handful of consumer choice guestions. Probably the most challenging questions for many AP Microecon students were in the factor markets, but many good scores even on them. Students typically had the best score in the 1st guarter (monopoly) and less well in the 3rd guarter (market failure - externalities): ow.ly/m9J6z Music Theory 18.9% 16.6% 25.0% 13.9% Jun 25 Students maintained performance levels guite similar to last year -- slightly higher than 3s and 1s. Students obtained the highest average scores in the 5th trimester, which requires part of the writing of the bass: ow.ly/mn530. A significant number of students were unable to write part of Roman numerals (Q6); 9% won 0 pts. Students performed significantly better in harmonic dictations (Q3&4) than in melodic questions (Q1&2). Do aspiring musicians care about testing their vision singing task, and 8% scored perfectly in the 2nd ow.ly/mn7ic Physics B 15.2% 19.7% 26.4% 16.8% 21.9% Jun 14 Scores very similar to last year, but only slightly higher. Multiple choice section: students had the best performance in mechanical issues and less well on issues of electricity & amp; magnetism. Free response section: students tended to do very well in Q1 (fluid mechanics): ow.ly/m2Vgf. The lowest avg scores were in the 6th guarter (elec & amp; magnetism), while ~29% of students earned 0/10 pts in Q4 (classic mech). Physics C E& amp; M 28.6% 25.0% 13.7% 19.9% 12.8% Jun 14 Lowest scores this year -- significant drop in % 5s, increase in % 2s. Slightly lower performance in multiple choice guestions about electrical circuits than the other m-c questions. Free answer questions, g2 (circuits) had lower scores than the other 2 questions: ow.ly/m3ojb 1 student obtained a perfect score (90/90) in AP Physics C Mech. 25.9% 26.0% 21.1% 14.9% 12.1% Jun 14 Significantly lower scores - percentages lower than 5s in particular. Higher percentages of 2s and 3s. Multiple choice: The students performed better, on average, in kinematics Laws) as q3 (Rotation/Energy): ow.ly/m2Xbl 5 students perfect notes (90/90) in AP Physics C: Mechanics. Psychology 21.2% 26.7% 19.6% 13.0% 19.5% Jun 17 Small increases in the % of 3s, 4s and 5s compared to last year. Multiple choice: Students performed very well throughout the section, but in abnormal behavior questions. is really the free response section where students struggle. Multiple choice choice scores excellent, the free response is low. Students generally performed slightly better in the 2nd quarter than in the 1st quarter: ow.ly/m7HRg 2 students earned all possible points (150 out of 150) in the PA Psychology Exam, administered (coincidentally?) on Freud's B day. Spanish language 13.6% 21.2% 21.0% 22.7% Jun 24 Scores remained stable in the Spanish language AP this year: a lower percentage of 3s, but percentages higher than 1s, 2s and especially 4s. Multiple choice: Students had a similar performance in each of the 4 writing and speaking questions: ow.ly/mloQ1 Spanish Literature 10.9% 28.8% 37.8% 17.8% 4.7% Jun 19 University and university professors took the redesigned PA Spanish Literature exam last week to set standards for 2s,3s, 4s.5s. Most students, so the %3.4.5s is 77% – well done! Questions M-C; generally good results, with lower scores in the text comparison & amp; la construccion del genero. Students struggled much more with the analysis of Mi caballo mago (Q3) than any other part of the exam: ow.ly/mbhty Statistics 12.6% 20.2% 25.0% 18.8% 23.4% Jun 21 The results of AP Statistics this year are very consistent with those of last year. Congratulations to teachers for maintaining quality as more students enroll. Multiple choice: students typically had the best score in data exploration, sampling and simulation. Students obtained the highest free response scores in the 1st trimester (statistical inference) and in the 6th trimester (exploring data). 1 AP Student of Statistics (out of 151,000 worldwide) scored a perfect exam score: 100 out of 100 possible points. By far the most difficult question for AP Statistics students was Q5, another question on statistical inference: ow.ly/mdH89. Studio Art (expired portfolios) History of the United States 10.6% 21.5% 21.8% 27.2% 18.9% Jun 12 Slightly lower than last year: a slightly lower percentage of 5s, a slightly higher percentage of 2s. Multiple choice section: students tended to perform better in questions: Colonial-1789 and less well in 1915-present. In the writing section, students tended to perform better in questions: Colonial-1789 and less well in 1915-present. students? Writing #3: ow.ly/IZ0IJ 45% of students earned only 0 or 1 of 9 pts in it. Many more students (136,000) chose to write in Essay 5 on protests from 1945 to 1975: ow.ly/IZ18s. Many more students chose to in Essay 5 (146,000) students) than in Essay 4 (57,000). The redesign of AP US History, which takes effect in the fall of 2014 = less content coverage, much more focus on argumentation to slavery). The most frequent score this year: year: 9 pts possible. World History 5.7% 13.5% 29.4% 30.4% 21.0% Jun 20 Some feared that the AP World History exam would be too long this year, but completion rates were actually better than a few years, so students did not guess at higher rates. Except for guestions based on reading passages, this year's AP World History students scored less in the multiple choice section. Students obtained the best score on multiple choice section. Students are being taken to the course. This year's AP World History trials scored the lowest of all time, 113,000 AP World History in a previous series. But some 10th grads stand out. Excel.
