Best Reviews The latest Top reviews ซร์สิซิ์ significantly improve your computer's audio with Bose® Companion 20 speakers. Our best two-piece computer speaker system reproduces a complete, natural sound, whether you're using it a few inches from the screen or crossing the room. An elegant and space-saving design completes your TrueSpace computer® technology reproduces a wide and natural sound for music, games and videos Control pod for volume, mute, headphone jack and auxiliary input Proprietary technology and a state-of-the-art port design make your music, games and videos come alive with striking clarity and impressive low notes at any volume. And all that sound flows from only two speakers, no need for a bass module. With a few quick connections, you can enjoy the wealth of content on your computer with a rich Bose sound. Advanced port design and powerful drivers are the key to low-note performance that adds depth to music, games and videos. Anyone who listens for the first time can scan the ground for a subwoofer, but there is no one to find. All the sound comes from only two stylish speakers. A unique control and a single touch of mute functionality, as well as handy dual inputs to connect headphones and/or a second audio source. Proprietary TrueSpace® stereo digital processing circuits creates a large two-channel sound stage designed specifically for listening to your computer. The versatile control pod features rotational volume control, a deaf deaf person, a headphone jack and a connection for a second audio source, such as an MP3 player or tablet. The advanced port design and driver offer powerful low-note performance and a complete, natural sound that fills the room. Exclusive integrated signal processing delivers realistic performance at almost any volume level. Active electronic equalization balances low, medium and high frequencies for a more natural tone and clarity. Left Speaker Right Speaker Right Speaker Audio Cable Power Pack and Cable AC power cord Control pod and cable Rated 5 out of 5 by MikeN of AWWWWSOME !!!! It's perfect! That's the right word for it! What else can I say? Published date: 2020-07-02 Ranked 5 out of 5 by bestbuy2020 of Hands down the best speaker system I've ever used! First of all, the speakers have excellent construction quality, including the low-volume dial. The speakers look excellent on a shelf around monitor and hardly take any counter space, which was the main reason I bought these. On the sound; first of all these have a sound relocation function so that the sound either gives a surround illusion or that with default applications, it seems to come out of the middle, which is ideal for movies and games. The output treble on these are of very high quality, and the midrange are just high enough not to seem excessive. The bass for This form factor without subwoofer is crazy, but with rap or hip hop music may not be what some listeners are looking for as the bass is not excessive.® Encore though, these speakers do their job as a revolutionary product with a very immersive listening experience in them. Yes. The control pod includes an auxiliary input to play other audio sources across the system. 053031000001 (23658) Product Code: 1053031000001 (23658) 10.900 THB 10.9 Out of stock When buying up to 5,000.- get 200.- 0% payment for up to 4 months (payment details in installments) 0 Baht discount (0%) to December 30, 2020 Double Speaker, Compact Size Special Control Pod internal driver provides great sound, all details, warranty, warranty, one-year warranty, free delivery within 1-3 working days, warranty warranty warranty by Thai Center for 1 year, double compact speakers. The special control pod internal driver provides great detailed sound, bose speakers in the Companion version, in addition to the Companion 20 Speaker is a split left-right multimedia speaker with stereo audio control pod for on/off, raise/decrease sound, and AUX-In slots as well as other built-in connectors. The speaker is made of silver plastic with a very well coated coating. Smooth, smooth and smooth skin And in the back of the right speaker, there is a cable input - AUX/3.5 mm input - control connector to increase/decrease the sound and turn on and off - later a power outlet to connect the power outlet. - OUT AUX/3.5 mm to send the signal to the left speakers At the top is an air vent that gives the sound, especially the more powerful low area. The control group is equipped with the power button, which is the touch sensor, a key lights up and the touch is turned off again. 1 x Bose Companion 20 Speakers (C20) - 1 x AUX/3.5 mm. The 3.5mm standard AUX connector, the Bose Companion 20 Speakers (C20) is located in a unique design and design of the Bose, especially TrueSpace® technology, which delivers a wide and natural sound. Its central: In this area, sound is a natural broadcast, giving a clear feeling, focusing on the details, whether it is the high-pitched voice of each word or the pieces of music that are clearly distributed in detail. High Noise: Spontaneously high broadcast Regardless of the height of the sound waves, Companion 20 can give you an idea of the true sound. You don't feel the notes that are distorted or the texture is dry and cut, making it fun to listen. Low: With specially designed air ducts, Companion 20 bass offers soft, natural bass. It is not too small or too big, and it has a load that fits. As a result, the impact is mild on the ears, but you feel the real bass. Sound scene: Gives the stage space the right size. There is plenty of space to organize musical instruments. Unpack the pieces of music. Make it even more fun to listen to in every activity. The stage is a distinctive voice in the middle. Good music: With Bose Companion 20, the overall sound area is in a neutral tone, giving a natural feel. It's a genre called a public genre, or a genre that's just as fun. What is bose companion 20 speakers (C20)? The Companion 20 bose sound is aerosy and evenly distributed, but the built-in drivers and technology are well designed. It is designed to be a computer speaker, so the best broadcasting area is in front of the speaker no more than 1. Summary, Who is Bose Companion 20 Speakers (C20) suitable for? Bose Companion 20 Speakers that don't have much space, but can drive evenly with well-designed internal drivers. Beautiful exterior shape It can be made for use up decoration. It also has a connection that can be used as a speaker. Versatile computer or multimedia speaker and intuitive controls Turn on and off music with one touch. You can tell who is looking for one of the best speakers and a modest budget. This option is not to be missed. This option is not to be missed.
