Second: Do you care about bug reports? Very nice way! I love mount & Blade and here it is with Warband! I'm delighted to see the new updates. I try'ed it, but it needs a lot of good job though 90002.0.html very nice way but terrible balance. I started out as a ranger and was able to take down any enemy(s) with my ranger bow and arrows as a Level 1 character. Sad to say after 1h of invincibility began to get bored.... There's still some work to be done. That's the point, though, if you've read the Rangers Apprentice series you'll quickly find out after about the 2nd book that longbow Rangers is the deadliest weapon in any army. So the mod isn't unblanced its just following what the story tells you about the Rangers and their guns. BTW I read up to book 7 or so and the series is quite interesting. comment last edited by Zilla52 on July 14, 2010, 12:23:30 Ranger (you) is supposed to be the strongest unit. This is why the parties is bigger and the lords/kings stronger. Found some script error also erros map seen. Here is the screens, tested on 1.113 new install. New version out: 3.20 DL'ing now anxious to see what it's all about! This works better than the previous version, finally the lords traveling around, nice! Test... There are still a lot of map errors. Unbeatable city, because there are problems with gravity. comment last edited by LordBarell on July 24, 2010, 10:32:09 Am decided to stop playing because of these bugs... and for the main reason being that there's nothing to work towards... Right off the back I have a load of money and my character is Godly... for me there is no reason to play... but it looks like a cool ass idea, but its just not for me... for u put in this though its impressive. comment last edited by Ping1357 on 24, 2010, 06:03:52 This mode is really bugged, you should fix the meshes first that is the easiest part, then scenes. (ofcourse reupload it to this tread, I must mention this because many people make mistakes and scaterer mod data all around the warehouse) comment edited last time by Zimke Zivolvjni on July 24, 2010, 1:59:22 first off all EL FK! then there's a 16. point mb file is this an update or a complete way isn't it? the game works well and I haven't received any error message yet, but I don't have a problem, whenever I kill some1 or buy something i don't get any notifications that u usually see on the left side, so this way have you and Holt and his friends from the orphanage and there are same enemies here as the book because I read the whole series and it was amazing over all the tasks of things great new very well! I like the rangers second dagger. However the ranger is untruly good with the bow, the damage is fine coz if you hit your chest with an arrow you get pretty much dead, but I think the accuracy should not be as good. You're going to upgrade the 2.00 apprentice rangers for mounting and blade (not warband). It would also be nice if you added Hibernia: 48071]复: 45 [复链接 帖砍后, 于 2010-7-14 00:31 编辑组 The Ranger's Apprentice is a major ported mode from the original M&B.
