Summary What to do if the Evil queen poisoned the prince? After the death of her beloved mother, the kingdom falls into the hands of Snow White's stepmother, which according to those rules she calls The Evil queen. Snow keeps her head down in the castle, hoping to make the best of her situation. But when new information about her parents comes up and the plot to kill her goes crazy, everything changes for Snow. With the help of a group of careful dwarfs, the good prince she thought she would never see again, and a mysterious stranger from her past, Snow goes on a quest to stop the Evil queen and reclaim her kingdom. But can she stop the enemy who knows her every step and will not stop at anything to keep his power ... including will be after them Snow loves? Twisted Tales presents a book era, presenting various twists on various famous Disney stories, and Mirror, Mirror is the sixth in the series, following novels about Aladdin, Beauty and the Beast, Sleeping Beauty, The Little Mermaid and Mulan. Five of the previous novels were written by Liz Braswell, with a reflection, Mulan story, written by Elizabeth Lim. Both authors have tough acts to follow, bringing fresh new perspectives to their favorite classics. With this being the second book written by another author, I think Disney are taking a great approach rather than just leaving it all down to one writer. The combination of different authors, as well as taking different characters, means a huge difference in books and I think from what I've seen on the internet IRL conversations, different people have different favorites from the series. I see it as a really good thing - people react differently on the same series and I feel it works well for twisted fairy tales. However, I think the Mirror, Mirror may be the weakest book in the series (so far). That's despite the fact Jen Calonita is clearly a talented writer and I would definitely pick up one of her other books. So the writing is good, the characters actually read very well, but the plot itself is a bit weak. One of the things I like most about previous books in the series is the fact the twist actually changes everything for the characters. This shapes the essence of the plot, and prevents the characters from reaching happily ever after the point we know from the movies. In some cases, by the end everything is ok with the world and we know the characters will continue as they will be from the movies, but they are still changed from their animated colleagues. The difference with the Mirror, the Mirror is that the twist - printed right on the cover - doesn't really affect much of the story. Instead, the changes made don't feel like they fit into snow white' world, and it doesn't make sense why these changes occur in the context of an animated film. If it was just a retelling, it would work well, but as it is, it doesn't have the same feeling as previous books. Sections of the book just take us through what happens in the film, but allow us - like books - deeper into the head of Snow White, as well as the Evil queen, named Ingrid in the novel. The chapter is Ingrid, where the book really comes to life as we see her turn into the kind of woman who can order the murder of a child. The plot, in some places, feels hasty, and especially the ending. But despite this, the characters themselves give this feeling of real, living breathing people. Snow White is certainly a far cry from the passive princess in the film, given the stronger, more prominent role as she understands what her people have experienced. We also get a better idea of why it cleans up so much. Prince as well - Henri - is more of a character, not just a guy who rides in and out. We see that the relationship between them blossoms, and we can feel why they fall in love. These aspects of the book work very well. Overall, although I've had a few giggles with the book, and while it may not have been up to the same standard as the previous books in this series, I really enjoyed it. And the additions to the characters worked beautifully, giving more depth to Snow White, Prince, The Wicked queen, and even the dwarves. I would definitely recommend this, and while it may not have been my favorite in the series, it's sure to be someone else.' This product has not yet been reviewed. Have you ever wondered back story behind your favorite Disney heroines? What if things weren't quite as it seemed? This series that turns classic fairy tales on their heads is a must for Disney fans and a delight for all young adult readers. Disney's Twisted Tales take our favorite heroines: Ariel, Belle, Snow White, Sleeping Beauty, Mulan and Princess Jasmine and present for each of them a completely different story. What if Aladdin never found a lamp, Sleeping Beauty never woke up or the Sea Witch never defeated The Little Mermaid? Will Jasmine and Aladdin turn freedom fighters against the repressive Jafar? Can Aurora find a way to control their dreams and defeat Maleficent? And will Ariel be able to return to a world she never thought she would see again, overthrow the villain and return her voice? Written by three popular YA authors - Liz Braswell, Jen Calonita and Elizabeth Lim - who all love fantasy and fairy tales, The Twisted Tale series has the magic of Disney movies, but with dark and spooky twists. Romance maims a place for charm, action and violence as heroines fight for their happy endings, and all is not what it seems. These thought-provoking fantasy tales are not just for those of us who grew up loving Disney, anyone who loves drama, dragons and fantasies will adore the dark and dreamy stories in these books. Don't expect a sweet tale though - there's plenty of violence and grit and graphic descriptions and themes for adults means we recommend these Disney novels for young people from the age of 12. You can read six standalone stories in any order, so choose your favorite character and discover her twisted fairy tale. The whole new world is the first book in the series and the latest book So This Is Love asks what would happen if Cinderella had never tried on a glass slipper? Despite new, dark stories, books still retain the basic elements of love, passion, friendship, magic. And as for happily ever after? Well, you just have to wait and see... All Twisted Tale Books in Order: Book 1: The Whole New World: What If Aladdin Never Found a Lamp? (2016) Book 2: Once Upon a Dream: What If Sleeping Beauty Never Woke Up? (2016) Book 3: How Old Time: What If Belle's Mother Cursed the Beast? (2017) Book 4: MULAN: Reflection (2018)Book 5: Disney Princess - The Little Mermaid: Part of Your World (2018)Book 6: Disney Princess Snow White: The Mirror, Mirror (2019)Book 7: Hide, Don't Feel (2019)Book 8: Straight to the Morning (2019)Book 9: So It's Love (2020) The Voice in the Magic Mirror, come from the farthest space. Through the wind and darkness I summon you. Talk! Let me see your face. Be honest how many of you were horrified by the Disney movie Snow White or found yourself shivering after riding Snow White's Scary Adventures in one of the parks If even a small part of you you Frightening scenes, then Jen Kalonit's latest novel, Mirror Mirror: A Twisted Tale May Be For You. There have been numerous retellings of many classic tales that Disney has become famous for. However, the iteration of Calonita offers a fresh look, posing deliciously dark questions that could completely change the story we're familiar with. in the Mirror the front cover asks, What if the Evil queen poisoned the prince? from this initial question, it's easy to predict that there are significant changes in the narrative, but the Mirror Mirror also tell us new information about the characters. The nameless characters in the film, such as The Prince and the Wicked queen and the parents of Snow White, who are not in the film in particular, receive names and stories. This supplement provides a rich layer in the book that makes even tertiary characters feel more real, and it allows us to empathize with them. Calonita is also aged Snow White for a few years, making her 17 instead of 14, making it more appealing to young adults and allowing for a more believable romance arc. If at 350 pages, Mirror Mirror, which is the 6th book of the twisted fairy tale series, is considerably shorter than the rest. Despite this, he still manages to create an epic and refreshing study of the famous plot, which holds the reader's attention and heartfelt jumps throughout. Make sure you check out WDWNT's reviews of other books in the Twisted Tale series: A Whole New World Where Jafar Gets Control of Agrabah, Once a Dream, where Aurora is finally given a voice as old as the time that sheds new light on Belle's backstory, reflections that details Mulan and Shang's journey through the underworld, and part of your world where Ariel must defeat Ursu. Next, I feel the chill in the air as we head over Arendelle to join Anna and Elsa in their own twisted tale. Make sure to follow up on updates for this review! Have you read any of the twisted fairy tales series yet? What stories of characters would you like to see twisted? Let us know! Yes I know!
