City Central Train Set with Table, Imaginarium Classic Train.Instructions and PartsImaginarium Metro Line Piece Table (en) Toys R Us Canada The Imaginarium Train Table - this is a wooden table with a set of trains of 100 parts that your child can build on top of one. The table has a two-way game board with graphics on one side and solid green on the other. The set includes toy people, street signs, trees, vehicles, 23 feet of track and 12 trucks. When your child is not playing, he can store all the parts of the train installed in two large desk boxes. Lay out all the individual pieces so you can easily view their identification stickers. Each part has a label with the appropriate letter that identifies it during the assembly process. Put parts I and J, which are two flat, rectangular boards, on the floor with holes up. Find a long rectangular L and place it so that the ends line with holes in I and J. Pull out two smaller rectangles marked M. Align them with holes in the side of part L, one at each end. Parts of M sit perpendicular to the L. board pull the K part, which is slightly longer than the L board. Place K on the other side of the board M. L and K sit parallel to each other with M boards connecting the two parts. Dislocate 12 S screws. Place four screws each in the L and K boards, two screws at each end. Place two screws each in the M board. The M board has three holes in the line; Place the screws in two outer holes and leave the inner hole empty. Tighten all the screws. Find two L-shaped pieces with the inscription H. These are the feet of the table. Place one on the end of the board I and one at the end of the J board. Attach the H board with two V screws; These are the smallest screws in the set. Now you've gathered one side of the table. Repeat Steps 2 to 5 to build the opposite side in the same way. Connect the two O boards with the P. Board. Place the P board between and perpendicular to the O boards to make the assembly look like a big H. Slide four U cylinders in the holes in the side of the board P. Attach each board O to each board P with two R screws. Set the two sides of the table that you have built in steps 2 to 5 vertically. It helps to have a friend help you. Keep the two pieces parallel to each other and place the drawer between the sides of the table. Board P should be parallel to the sides of the rail table. Attach the assembly of the drawer to the sides of the table with eight V screws. Attach the I board to each of the open ends of the table with eight V screws. Set the table aside to collect the boxes. Place the F board on the floor and hold the B board with the handle of the drawer on Right of board B place the board C. Place the E board in front of board B and fill the empty side of the board D. Attach the B board to the boards F, C and D with six T screws. Slide two cylinders into the holes at the end of the E board and attach the E board to the board C with four R screws. Slide the drawers into the table. Place two G boards on top of the table. imaginarium. Mountain Rock Train Table. Table de train Montagne rocheuse. Mesa de Tren Montai±a rophosa.
