If you think you have the life and property you take to meet the challenge of helping us save. Then start your process by completing our online applicationPM19 # AACTYPI127062032Posting ID: 593508351Posted: 2020-12-20 Author of complaint information: Strength in the history of numbers I have sensitive knowledge of the company and went to an office for a year before leaving it at will. I hope it will help and the word will come out so that legal steps are taken and the authorities can finally take the company down. First of all, the ak protection material stands for The Alan Krunibush admonition, this scandal artistes himself. I'm sure he even has a book about his achievements of becoming rich with your child's dollars, even if he does not have his condition. Aq is a corporate umbrella with a number of individual entities affiliated and finished in businesses. It is a small scam network of offices which works well for his mohsin, Alan Krunibush, and his colleague Paul GasS.. How it works can ask you. The first is put on paper in search of candidates for the training status of an ad manager in which it will pay between \$14-\$22/hour (but can change the amount), the goal is to attract people to call that number. They use words to protect themselves. There is no guarantee like this and they don't have to pay you anything. When you call Any manager, one, or secretary or secretary will be answered to read the phone script. They set you up a meeting and ask you to bring you \$100 in cash or money orders just for the purpose of background check. A very short unrealistic company is given outline and 1 interviews proceed. Questions are perihedrad to avoid objections to candidates and non-random answers are given. They try to employ everyone to get \$100 non-refund able and tell you to bring another \$300 with you for the content you will need for the program, which allows you to complete the program. You sign an agreement and reach the class on the due date/time. During class they feed you a lot of scripts inspired by Rehersad self help and try to convince you that this is not a scandal. Somewhere in the middle they get you to sign another contract to take your \$300. Very little time is spent on contracts you don't read it. They guide you in specific parts to avoid doing away with something special and reading. You watch a video, they show you the product, and tell you to sell \$500 of their extra trade on weekends, and the class is over. BUTW, they tell you how you're paying. You survey these hour-long home safety for your family and friends to get them to buy this jank and refer you. You are paid for each survey-\$22/hour or whatever paper is advertised. Survey 1 = 1 hour. Too bad he did not tell you this during the interview. Too bad that you encourage in class to see the word game they use. And after you get home you will see on the back of your contract that it will clearly make you pay anything surveyed in 100 weeks. Not only is it impossible, it will be respected too. I don't have a manager in the company who ever pays his training for his services. Not one. And if I get the answer on that, it's another manager who's saving himself and lying. Too bad that you did not get to read the agreement. But now a little bit about the product. The only fire extinguishing is \$200-\$300 plus 25% of the total order for S/H. This means that \$300 is a s/h charge of \$75 alone. Now you know why their prices are not on the website. Ak claims he is a member of the NFPA, but I won't be surprised if he was lying. Why too much for safety? Save me on quality speech. You think that if safety was the main concern, the prices would be more affordable for the average person. This protective luggage shading is just a front-one transport pot for the con out of your money. The program works at the pin level. You have to create your sales goals (including s/h) to proceed to the next. In order: \$500 (regional director) pin for RD, \$2000 more for redpin, another for whiteness They say that blackness is optional, but it is It's another \$2500 more. They provide you with an optional challenge instead of getting blackness, but it's an impossible achievement and better than just coming out of pocket or taking it again for more money. Because they say as a last-hand effort to get you through your program if you buy you you can sell it back when you become a manager and get your office. As you go through the program they will give you others a sakommango business, although you are still under the impression you are paying per hour and are on the way to bigger rupees. As you progress you become a leader for others who are getting services and are asked to keep them positive and motivated, because if your team does not make its quota, you cannot proceed. You're checking this will be on commission-only basis at the end of the trial. 10% of your sales, not count s/h. At this time you are asked to come up with \$8000 from your own pocket to open your own office. If you can't come up with money, they tell you to go home until you can come with cash. Many people don't make it past at this time or fall anywhere before. I stayed because they already had my money and I don't have to walk away from my hard cash. I think it was safe to say that I was very young, Naawe, Maitukanakshil, and the most sociable-perfect candidate. During this program, there are rocket rallies in which you need to talk insights to give other scam office managers, President Mr. Krunibush and all his other paid money words to increase money in your pocket. After you come back with the return they take some of the money and you're also done programs which go on a trip with Mr. Krunebush and other managers and training. \$8000 for office rentals, ads, and furniture give me a break. A maximum list is provided that you will need to get and run your office and do Mr K. (The Crunibush) keeps every stage of your hand path because you are now your new ATM. You sign another agreement that you are an affiliate of Ak and are now a single directory or independent contractor under the Mabra Ak Umbrella from using the name Ak out of your office, thus they don't take any kill unfortunately for your demand. Your office has been set up in the location you select and starts a weekly tour of job and training classes as you have started to make others want out of your money which is more than you have. What a demoncircle this is a business in demand. As an office manager you get 50% of the money you run through your office, whether it is brought to your office by way of contract deposit or sale (minus s/h). So 50% commission, when you pay for your ads and, office rent, and goods. Where the other 50% goes. Yes, you figured it out, Mr. K. The amount is collected daily Bank account and every month they collect half of your account in the minus one ton of miscellaneous charges you have no idea of where they are going in your pocket. Do you want them to tell you the truth from the beginning. You are no better than the person who employed and lied to you. You go through this scandal just to be a sated one. I took it to write because I've seen several letters recently and someone I know I wanted to buy some protective material from Ak inquestion came to my house. Then I knew that this scandal was never going to stop and it needed to get out of the word cruelty. So I stand up for other manager managers and training and be heard, to bear witness to their voice of opinion and shed some light on this Haanon crime. I believe in karma and I hope it comes back to all those people who are still involved and who have been with Alan Krunibosh through the years and that helped keep him alive. You may be slow and painful. I apologize to all the people I have taken and given this man 100 sakommango 100 to keep this person alive. Save people's lives, BS, you destroyed them and I pray it comes back to you. Here is some information I can provide, although I'm sure the company is on hold of it so they will change the number. New training is being provided at all times and new managers are also providing services to open offices. Because I don't work for them because I can't provide this information. I've also included a list of some of Mr. Subordinates.
