Some sizes may vary. We will check the measurements to make sure we sell you the correct parts. For all orders and questions, call us at 573-564-2701 or send a Full training line, 4ft, 5ft, 6ft Cross Kit, A-7/8 B-2 1/8 Yoke, Tractor and Implement Parts listed below are for the original size drive line sold with the Farm King finishing mower. Some sizes may vary. We will check the measurements to make sure we sell you the correct parts. For all orders and questions, call us at 573-564-2701 or send a barnesimplement@aol.com. Cross and Bearing Kit, A-15/16 B-2 7/16 Yoke, Tractor and Implement Buhler Farm King Finish Towers A clean, clean cut every time Since its introduction in 1987, Farm King finishing mowers have become popular on farms, golf courses and wherever large lawns are well maintained. Buhler Farm King builds high-guality finish mowers recognized as among the best in the industry. Made with high-quality materials for superior performance. High-speed blades for high-quality cutting Each mower has three high-speed blades with one of the industry's highest-rated top speeds. This creates a powerful suction that lifts each blade of grass for a clean cut. A 2 5/8 blade overlap prevents stripping and ensures that the lawn is mowed evenly. Easy to use and easy to maintain Buhler Farm King Finishing mowers are built to be durable. The deck floats over uneven terrain to avoid scalping regardless of approach angle so you get a manicured look without stripes or divots, even if the terrain has a bit of roll. The 7-gauge heavy bridge is reinforced by a solid steel rod edge. Four free swivel tyres with puncture-proofing and bushes in the hubs of the wheels ensure long-term reliability. Each wheel yoke includes a cut height fit on the wheel yoke shaft. The front roller prevents scalping. A slide setting is located under the gearbox for easy belt tension. belt tension.
