## Accu chek multiclix finger pricker

The hamburger overlay is almost painless testing blood glucose. Buy in Boots Accu-Chek FastClix - the world's first 1-Click finger thorn with a drum. Simple: Prime and prick in 1-Click Action Gentle: Clixmotion Technology and 11 separate depth parameters Unique: 6 lancets in the drum, no lancets to see or touch description 1 click is all you need. The Accu-Chek FastClix lancsing device is the only one-click lancet device with a drum of 6 pre-loaded lancets. It is also designed for comfort. Watch now to see how it works! Description of the element Just 1-Click on prime and prick Accu-Chek FastClix - the world's first 1-click finger thorn with a drum. Size Weight Device (including Drum): Longevity Device Benefits and Features We have built on our past innovations to create a 1-click finger thorn with a drum. Priming and tingling are being combined in a simple one-click action, allowing the spear to quickly and experience virtually no pain. As with our previous finger, Clixmotion technology has also been integrated into the Accu-Chek FastClix finger prick. Clixmotion technology provides gentle lanzing and helps reduce the risk of skin damage and the nervous end. Additional Characteristics Penetration Depth Settings: Penetration Range: Prime - Device Release: Device Size (length x width): Weight (including drum): Environmental needs: Uncritical Plastic Material Biocomplex-Free AST Opportunity: Yes (with AST cover, available on request) Device durability: Approximately 5,000 finger jabs and weights relate to standalone Accu-Chek Safety Tip: Accu-Chek FastClix finger pricker is designed for the patient self-control only by an individual. It should not be used to collect blood in a multi-space setting because it does not include any function to protect against cross-infection. Accu-Chek Multiclix Lancing Device The Accu-Chek Multiclix lancing device is the first in the world in the field of diabetes treatment. Safety and convenience combine, as you do not need to handle the lancets. Six (6) lancets are pre-loaded into the drum, making it easy to change. The drum can simply be thrown into household waste. This unique lancing device also minimizes tissue rupture and pain, allowing you to test as often as your health team recommends. 11 Accu-Chek Multiclix comfort dial depth settings have 11 penetration depth settings that allow you to tune in to match the skin type. This reduces pain by avoiding contact with deeper nerves. After the set, it stays in place. No random injections without risk Pricking and easy lancet changes. Accu-Chek Multiclix makes regular testing less painful, fast and safe. With Accu-Chek Multiclix Lancing Device, you'll never see or deal with lancet again! Roche Accu-Chek Multiclix lancing device includes 2 sealed drums (12 lancets) lancets) Accu-Chek instructions sheet. The Multiclix lancing device is designed to test blood glucose and should only be used with Multiclix Lancets. Accu-Chek Multiclix Accu Chek 4.6 of 5 stars. See all reviews (52 customer reviews)Price: \$59.80 - Shipping prices and return policy apply. In Stock.Sold by Coz McToyz and performed by Amazon. No treatment of lancets is required. Fast and safe. No lancets to see or touch. Just load and go with the lancets already in the drum. Allows you to test as often as recommended without pain READ ALL CUSTOMER REVIEWS FOR Accu-Chek Multiclix Lancing Device. Reduce the pain and hassle of blood glucose testing.
