MMO Combat Strategy game PVP battles, alliance wars and dynamic battlefields. In this game you have to do a strategy, train the army and equip awesome weapons to defeat the enemy. You can design your army on your way by choosing a large library of weapons systems, soldiers, mechs and commandos. You can make alliances with other players in the game and participate in alliance wars upto 100 players. Dynamic battlefields are difficult scenarios where you have to make objective choices that simulate real world wars hypothetical. Playing the game is easy tutorials when you start the game. To destroy the enemy base you can choose from a variety of attacking options such as Air France strike, tanks, mech droids, tactical nuking and more. To deploy force, you must first select the attack type and then direct it to the enemy base by recording the location. You can develop your base and make it stronger by adding defenses. The battles are simulated in real time, so you can see how to destroy the enemy's location or get your base destroyed. The more damage you deliver, the more points you get. You can add more resources, equip weapons, build and develop a base through store items. For an air strike you can get satellite feed and overwatch so that you can choose a strategy to use your troops. You need to keep updating your headquarters by bringing hitpoints, the capacity that is earned by fighting more. You can use precious gold to upgrade instantly. After building and upgrade your base, you have to train troops and join the alliance. Training you need to build a training arena so make sure you have points saved and alliance you have to set up an Alliance tower to communicate with them, but it opens up after level 3 HQ. All this happens on the world map and you can increase your presence by building more bases and making allies around the world. The unique features of dynamic battlefield simulate real modern war situations. Customizable army design that gives more power in the hands of players in the game. Modern weapons of war such as nukes, experimental technology, drones, mechas, etc. Alliance Wars make the game much more fun when you can play with people all over the world.
