If the chat button says 'Chat OFFLINE', then you can click on it to send us a live email 24 hours a day. Magnetic Plaque: 1-Is it better to keep the plaque rolled up or flat? Answer: Flat. 2-Do I need to poke the front edge of the plaque? Answer: For speeds over 70mph, it is highly recommended. We include a front-edge 'tape resistant' in all of our magnetic, reusable and static cling kits. This will help keep the plaque from lifting the vehicle. Reusable Vinyl: 1-What is this thing? Answer: Very similar to a magnetic plaque (but much thinner!), it is a very flexible vinyl/plastic, has a 'tacky adhesive' (think sticky note) backing that can be removed from the vehicle, and then reused. 2-What's the best way to store Reusable Vinyl? Answer: In packaging/shipping arm. 3-How long can it be reused? Answer: Up to two years, when following installation and removal guidelines. 4-Do I need to cover the front edge of the plaque? Answer: For speeds of more than 70mph, it is highly recommended, and necessary for the use of rain. We include a front-edge 'tape resistant' in all of our magnetic, reusable and static cling kits. This will help keep the plaque from lifting the vehicle. More Questions? Email:info@autocrossnumbers.comPhone: (469) 909-8583 Page 3 AutocrossNumbers.com - Sales Policy &amp; Returns: The following policies apply to all sales: 1.
