Blue HoleBlue HoleView map of New JerseyBlue HoleView map of United StatesLocationGloucester County, New Jersey and Camden County, New JerseyCoordinates39°37′15″N 74°52′42″W﻿ / ﻿39.6207°N 74.8783°W﻿ / 39.6207; -74.8783Coordinates: 39°37′N 74°N﻿ / ﻿39.6207°N 74.8783°W﻿ / 39.6207; -74.8783Basin countriesUnited statesMax. width500 ft (150 m)Max. depth100 ft (30 m) The Blue Hole is located in Pinelands in Monroe Township, Gloucester County, New Jersey and Winslow Township, Camden County, New Jersey. It is a clear blue body of water located in the middle of a dense forest, with many similar such lakes in its immediate vicinity. The water has hot and cold spots, averaging 58 to 60 degrees Fahrenheit. The color is very unusual, because most lakes and ponds in the area are brownish due to large deposits of moss iron and the presence of tannic acid. The blue hole is circular and about 21 m across. In the 1930s, the Blue Hole was a popular party and bathing spot. A wooden footbridge over the Great Egg Harbor River that once made the hole easily obliterated was obliterated by a storm in the 1960s; now it can only be reached on foot. The blue hole has been largely abandoned. One possibility is that farmers and families in the area warned children against going to the Blue Hole because the Jersey Devil lived there and it would hurt or steal them. Locals still go to the area and use it as a party venue. There are many other blue holes in the immediate vicinity, as well as quicksand and other seasonal ponds and lakes formed from sources seeping from high water levels. The blue hole is not to be confused with the many former quarries in the area, which seem much larger and have a vibrant sky blue color. At its deepest point, the Blue Hole is 100 feet (30 m) the bottom seems to consist of sand rather than mud. Swimming and diving in the Blue Hole is both illegal, but not enforced. It is still a popular swimming spot during the summer. In popular culture A number of legends exist about the Blue Hole, so that it is bottomless with heavy currents, that the water is freezing all year round, and that jersey devil is active in the area. Jersey Odysseys: Legend of the Blue Hole is a short horror film directed and written by James Rolfe. It was originally intended to be the pilot episode for a web series based on urban legends and myths in New Jersey, but James became more involved in his Angry Video Game Nerd web series when it became popular, and he didn't have time to shoot any more new episodes. He claims, however, that he still wants to review the series and produce more episodes one day. Lisää bienvenida. Pero no tan rápido: este estanque redondo de agua cristalina gotea de terror. Los nadadores que desafían sus aguas profundas dicen que han sentido manos invisibles arrastrándolos hacia abajo. Las víctimas de ahogamiento se encuentran con heridas misteriosas y grotescas, como espaldas rotas y ojos perdidos. Incluso permanecer en la orilla boscosa del El Agujero Azul puede ser una experiencia aterradora, ya que el estanque a menudo se convierte en torbellinos inexplicables y...
