Star wars torrent reddit

I watched it yesterday and right after I checked the sites for a torrent. There's nothing, not even a camera! Do you think it's weird, especially for a high-profile movie? Page 2 90 comments It seems that 2.7 has almost completely disappeared into the ether, no one has a copy and on the only charge there are no seeds for TPB Page 2 21 comments All the talk about Star Wars this week has made me want to go back and watch the original trilogy. And having just watched Star Wars: Episode VII if it was directed by a George Lucas video, I really don't want to watch any spoiled version played by Lucas. I'm just curious, is there a blu-ray version with minimal extra vfx? Page 2 52 comments Does anyone have a link to the quality torrent of this movie?? Thank you in advance Today at school on my phone I saw a torrent appear on star wars TFA in 720P, but when I got home it was gone. Was it true? Did anyone manage to download it? It had 4,000 hunters, so I assume some did. You want to share? Page 2 9 comments Is Star Wars still skywalker's rise pirate.if it's links appreciated Page 2 36 comments I'm looking for a torrent magnet for Starwars. Any help in this would be a big thank you. youtube.com/watch?...Page 2 youtube.com/watch?... I can't find these anywhere, just a unnecessary special edition where all the cgi is everywhere.
