Kinneret Academic College newsletter #7

Hello to all!

We are excited to launch our second newsletter for the academic year 2019-2020.

We are excited to share our adventures at Kinneret College: classes, practical lessons, tours and more!

1. Christmas tour

The students went on a 2 day trip to Bet Lechem and Jerusalem to celebrate Christmas!

In Bet Lechem the students visited Church of Nativity for the Big Mass. They spent the night in Jerusalem and after breakfast left to tour the old city.

At the old city

At the Big Mass

2. Lectures in class

Students started new topics in class: Plant propagation, Aquaculture, plant control and open field crops.

Pests and natural enemies

Different media type

Silage preparation

Compost preparation

3. Third tour

Our third tour took place in Spring valley area. We visited compost preparation site, vitsa point, nursery, fish ponds:

Compost production site

Flower and plant nursery

Fish ponds

At the fish pond farm, students got the opportunity to learn about the whole process of growing fish in ponds: from 1st stage of fingerlings till final stage of marketing.

Fish holder

Transferring fish to small pond

4. Research project

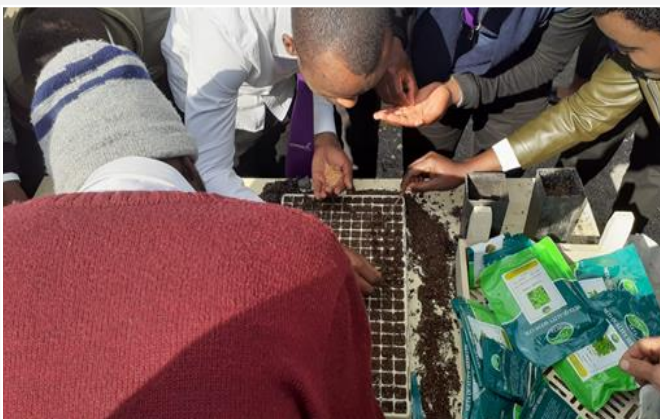

Some groups have started their research final project. At the end of the year they will present in front of class the research process and the results.

Quinoa fertilizers research

5. Tzemach R&D farm

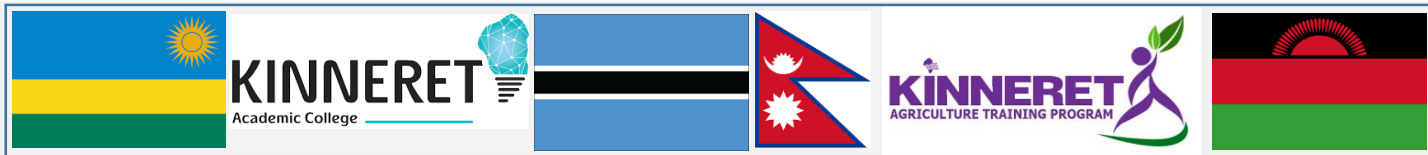

At Tzemach research farm we conduct our practical classes. This time we learnt about different media substrates and prepared plants for planting next month, and did a tour at the agriculture meteorology station located at the farm.

Sowing seeds

6. MA studies at Kinneret Academic College

At Kinneret College students have the option to stay for 2 more years and complete a MA degree at Hotel and Tourism. The head of tourism department at Kinneret College met with the students and told them all about the program.

Hope you enjoyed like we

See you in the next newsletter...
