Marine infantry training and readiness manual

United States Governmen Us Marine Corps (Author) Description This United States Marine Corps USMC T & R Manual, NAVMC 3500.44D Infantry Training and Readiness Manual May 2020, contains collective and individual training requirements to prepare units for their combat mission. This T&R manual is not intended to be an encyclopedia that contains every minute detail of how to train. Instead, it identifies the minimum standards marines must be able to perform in combat. This T&R manual is a key tool for commanders to build and maintain unit combat readiness. Using this tool, leaders can build and execute an effective training plan that supports the unit's METL. This T&R manual is designed for use by unit commanders to determine pre-training requirements in preparation for training and for formal schools and training detachments to create education programs. This manual focuses on the individual and collective tasks carried out by OPFOR units and supervised by staff in carrying out the essential tasks of the Unitary Mission (MET).
