I love the brand and spoiled it with induction into previous kitchen utensils. I like the grid plate, however, it seems strange to have bleeding at the bottom. I appreciate a lid for each, even if it's for keeping food warm. If it was a higher smidgen at the height of thick cut ribs / steak the fat shower could decrease. I got mine blank. Please consider making all the induction of kitchen utensils friendly. Your safe around elderly, blind, disabled, table side. 0 out of 0 found this review useful LOVE these pans!, (lun60 OR) I love, love, love this hard line by Curtis Stone! Square = more cooking surface, but takes up less space at the top of the stove, as well as not having a long handle coming out on a counter or hanging over another burner. And you can actually place them in the center of your oven, or both of them side by side, with having to juggle. The heating material even means there are no colder corners - the entire surface is a uniform temperature. Curtis, you nailed it! 1 in 1 found this review useful Curtis Stones Cookware Rocks, (Sanay79 NJ) Large size, great color, All! Curtis kitchen utensils made me finally enjoy the kitchen. The pan is heated evenly, ideal for my grilled cheese, pancakes. Grilled and cooked 4 filets perfectly! 1 out of 1 found this opinion Wad really nice to make pancakes It was really nice to make eggs and have the eggs stay in the pan instead of rolling around 0 of 0 found this helpful love review of this set so much that I ordered only the grill.
