Treasure Maps Older Scrolls in: Skyrim reveal the location of hidden treasure chests. Although they appear to be simple wooden chests, they contain the booty equivalent of a boss's chest. Maps may not be in the inventory to find treasure, but they must be read. If one is looking for treasure without reading the map, he won't be there. Treasure Map I [edit | edit source] Map Location: After leaving Helgen and splitting the path with Ralof / Hadvar at the beginning of the game, follow the dusty path until it meets the cobblestones path. Turn left. Follow this path until arriving at the sign with instructions on Riverwood, Helgen and Falkreath. Take the first left after this sign (traveling to the southwest), then look left while walking down the road. It's going to be on one of the bandits in a small camp. Location: Bandit Camp: llnalta Foothills Treasure Location: Go straight across the river in Riverwood. One sees a huge trunk of the tree lying. The chest will be there. Treasure Map II [Edit | Edit Source] Treasure Map III [Edit | Edit Source] Map Location: Found in Riverside chest with a balanced lock. A saber cat or cave bear is usually inside, feasting on the bones of a fisherman. Light Armor Skill Book By Rislav Fair is inside a shack under two other books on the left side of the library. Treasure Location: Follow the coast around the northwest side of the solitude lighthouse, northeast of Solitude. The treasure chest is behind a rock on the shore under a huge boulder that comes to a point at the top. It is easiest to find out if swimming into the sea north of the lighthouse and aligning with the image shown on the map. There are many mudcrabs along the coast and two Nimroot near the lighthouse. Treasure Map IV [edit | edit source] Map Location: Found in Retreat Redoran in the chest near the bandit boss. (1.2 Updating the game may be causing treasure not to be present for some players even with treasure maps. Update 1.3.7.0 addresses this.) Treasure Location: This leads to a treasure trove located behind pelagia farm south and slightly west of Whiterun. The chest is actually southwest of the farm, but the map shows that a person will have to start east. (The next section does not follow the map). Start with your forehead to the front of the windmill. From there, go south uphill. Once on the path of dark snow, start moving directly west. One passes around a tall tree with a snow cover of the trunk and branches only in the upper half. Continue to go west; Soon, one comes to his chest on a little snowy bush. Treasure Map V[edit | edit source] Map Location: Found in the end table in an angi's bedroom. Treasure Location: Near the base of the Bard's Summit jump. After falling from a large waterfall, follow the left aqueuct (taking the way down it suggested) all the way down. The chest can be found in the very place where the falls meet the river, behind the waterfall. The chest is underwater by a large rock, but visible. Treasure Map VI[edit | edit source] Map Location: Bloody Trail (unmarked location). An easy way to find a dead female Wood Elf is to head northwest of Volunruud uphill towards the top of the mountain (towards the Shrine of Mehrunes Dagon) until it hits the blood trail. Follow the blood trail to the left of the rock carved to find it. A balanced bow is along the route. Dead male Wood Elf lies at the other end of the pavement, suggesting the altercation occurred over the map. This map can be easily found by heading uphill directly from Volunruud with the west and north visible on the compass. Treasure Location: Korvanjund; chest is located on top of the arch near the tree. Treasure Map VII[edit | edit source] Treasure map VIII [edit | edit source] Treasure map IX [edit | edit source] Map Location: Found on lucky lorenz body under Lucky Lorenz shack, next to an abandoned prison. Treasure Location: Hidden behind the cataracts of a waterfall riften. It is located on the east side of the mountain next to Riften. Down the eastern road from Riften to the bridge and look to the right. The left bank of the creek leads up to the bandit's handle, Broken Helm Hollow. Treasure map X [edit | edit source] Map Location: found in Stony Creek Cave Treasure Location: from Lady Stone south of llnalta Deep, face north-east towards a rocky peninsula on the edge of the lake. Swim northeast toward the rocky peninsula. The chest is at the bottom of the lake, halfway to the peninsula. Fort Neugrad Treasure Map[edit | edit source] Main article: Fort Neugrad Treasure Map Map Location: found in the chest on top of the roof of Fort Neugrad, which is southeast of Helgen. Treasure Location: East of the fortress, half buried on snowy slopes above the lake. Velehk Sain's treasure map [edit | edit source] Main article: Velehk Sain's treasure map Deathbrand Treasure Map DR [edit | edit source] Main article: Deathbrand Treasure Map Location: It can be looted from a pirate captain in the headwaters of Harstrad or from a pirate captain on Hakniir's Shoal. Treasures Places: This map leads to four treasure chests located on the north-east coast, south-east coast, south-west coast and northwest coast of Solstheim Island. Note: Deathbrand Treasure Map is only available with Elder Scrolls V: Dragonborn installed. Trivia [edit | edit source] Some of the treasure chests found over ten treasure maps can fill themselves over time, as well as other chests. Adding treasure maps using console commands on your PC will not treasure chest friction. A note can be found in an unmarked camp near the river, east of Geirmund Hall, leading to treasure. Errors [edit | edit source] This section contains errors related to Treasure Maps (Skyrim). Before adding an error to this list, consider the following: Reload the old save to confirm that the error is still happening. If the error still occurs, please post an error report with the appropriate system template 360/XB1,PS3/PS4,PC/MAC,NX,depending on the platform(s) the error occurred on. PC 360 PS3 On some occasions, after the prezk presides maps chests will not be friction, as a result of patch 1.2. It can be fixed by loading a new save file and reading maps, then traveling to a place, but not always. 360 Treasure Maps may accidentally disappear from dragonborn inventory when entering certain locations.
