Time to party our tails off

It's only 180 square miles, but it packs a lot of personalities. In fact, Andorra is the only country in the world that is ruled by co-ordatures from different countries. The most impressive event I've ever attended was President Ronald Reagan's inaugural ball in 1984. More precisely, the most important event, because the event was not so impressive - certainly nothing like those in this article. I was eligible to attend the Youth Ball, one of several events that took place after the inauguration ceremony. Decorations and food were minimal, and the president and Mrs. Reagan stopped by just for a dance or two, quickly departing to spend most of their time on more important balls involving the nation's moving and shakers. But hey, at least I can brag that I attended the inaugural presidential ball. Related articles by Basye, Ali. It was the most lavish party of the 20th century. On this day in fashion. (December 26, 2012) In an ideal world, we'd channel our inner Martha before every party, spending a day cooking up a storm and wowing all of our - kitchen skills - More often than not, however, whether we're hosting our own shindig or falling at a friend's party, life gets in the way and suddenly there's a serious time crisis. That's when the homemade dish killer you meant becomes a sad bag of grocery store chips and baths. Ugh. These recipes are here to facilitate the preparation of the event. Make them at night, keep 'em in the fridge, and pull them out just before hitting the road or answer the door. Best of all, they won't get soggy or fall apart before it's time to kick in. Success!1. Prosciutto Wrapped CantaloupeShare on PinterestThas ingredients. Can I get the hell out anyway?! This app looks nice, takes about five minutes to collect, and will be the main crowd-pleaser. You can wrap cantaloupe in advance, but hold on to the balsamic glaze until you're ready to serve2. Greek Yogurt Spicy Corn DipThy healthier dip will be perfect for the next day's game or barbecue. It is spicy and creamy, and made with Greek yogurt, cheddar, fresh corn, green chiles, and a few spices. You can serve it with tortilla chips or fresh vegetable sticks.3. Healthier Double Fudge BrowniesSomeone always brings dessert, so why not healthy option? Don't worry, they're a little tame than most lightened versions (aka no black beans here); the main substitutes are peanut butter and oat flour, so no one will know the difference.4. Plantain chips and GuacamoleGive snack go-to (chips and guac, duh) upgrade through some plantain chips the night before the party. It takes less than half an hour to bake, and give the snack a little more sweets ... win-win.5. No-Bake Samoa CookiesKto doesn't love these coconut Girl Scout cookies? The main ingredient here is actually dates, but with chocolate and coconut added, you never know. Make this healthy copycat recipe at night and you'll be the star of the show. Don't expect it to have any leftovers6. Spinach Goat Cheese PinwheelsIf you need a hearty party snack to bring to the table to make these meatless wraps in the morning or at night. They are made from goat's cheese, spinach, dried tomatoes and pine nuts. Major plus: There is no may or heavy dressing to make them soggy.7. Greek Pasta SaladThis essential side is supposed to be a go-to for potlucks and barbecues, especially since Mediterranean flavors are hard to dislike. I always have to think of picky eaters. Make pasta at night; then mix with cucumber, tomato, paprika, olives and feta. Save the vinaigrette until just before serving to keep it tasting fresh. Want more? There's another reboot of a TV show from the 90s potentially heading its way, but this one comes with a timely twist. Freeform is rebooting Party of Five, a beloved family drama about five siblings left to pick up after their parents died in a drunken driving accident. Unlike some reboots, freeform's take on Party of Five wants to attract the attention of a contemporary audience, giving the premise of a socially conscious update. Five children in the new Party of Five will try to keep the family together after their parents are deported to Mexico. According to Deadline, Freeform ordered the Party of Five with the involvement of a pilot, which means that it is likely that the pilot will be given as a special, even if it is not picked up for the series, so the network does not have to count against the penalty. Reboot is written by the creators seri, Amy Lippman i Chris Chris but they wisely brought in first-generation American writer Michael Zebede as their co-writer. The pilot is directed by Rodrigo Garcia, who is also expected to serve as executive producer in the series. All of this suggests that Keyser and Lippman take immigration law topics seriously in the U.S. and bring in the right voices to make sure they get this all-too-familiar American story. Let's be true, no one needed a series focused on salinger's adult siblings, but the Buendias children who will be at the center of the reboot sound as if they have to face problems that are painfully topical. While the reboot was not announced until Thursday, January 18, Twitter is already turning its attention to the new Potential Five Party. Twitter user @TippittJason went so far as to say: this is the reboot we need, and he's not wrong. While there's nothing wrong with reboots that simply capitalize on nostalgia by uniting the cast or sticking to exactly the same premise, it's always nice to see the network add a new twist to the classic idea. Turning Salingers into Buendias, the Party of Five reboot not only becomes a more inclusive series, it becomes one that can explore the consequences immigration laws have on a typical modern American family. At this early stage, the premise is the only thing anyone knows for sure about the new Party of Five, but the potential to show the DREAMers address is there. If one of the five children wasn't born in the U.S., the potential series could add another layer of poignancy and bring DACA awareness to a wider audience. Add to the drama the parents of their children are still alive and the family is torn apart by political circumstances, and you have a series that can make viewers cry and think about the reality undocumented immigrants face every day. The original Party of Five was a release-oriented show, so there's no reason to doubt that its successor will as well be - especially with the original creators on board. Of course, not everyone on Twitter is excited about the possibility of restarting The Five Party. As is the norm when it comes to these announcements, many people ask why the show needs to be reworked or worry about the show's legacy being tarnished in some way. These concerns plague most reboots, but in the case of Party of Five, creators seem to have a great reason to revisit the premise: because it can have an impact and speak to a new generation. There are several reasons to create a restart that are more valid than the two. While having a politically significant premise doesn't automatically guarantee that a potential show will be good, it gives it a hook that can attract both fans of the original and a younger audience who may never have heard of Salingers. Freeform formally ordered the restart of the Five Party yet, but the show already has people talking about an important topic, which is further proof that this timely reboot could be exactly what the TV landscape needs now.
