It has helped me a lot with nursing school exams. It's so practical that I'm a very busy woman and having this app on my phone has reinforced my study habits. I have no excuse for getting these extra practice questions. Thank you for sharing your experience with the app, we wish you well in your test. Our goal is to make applications easy to use and useful for our customers. This freezes and always downloads, has no comments while you answer questions., just very frustrating. I'm going to ask for a refund. The app is a scam!!!! I can't even report a problem and no way to get money back. DON'T BUY!!! Get the eBook for the same price and you have online access to questions with real support.. 3 stars for email customer service., rapid response. We sincerely apologize for the inconvenience caused. We have sent you an email about the problems you have experienced and our development team is reviewing the issue and we will advise you when they are resolved in the coming days. If you want to continue using this resource after the problem is resolved, reply to our email. Thank you. It is a great application to study on the fly without using the wifi and reception. Since I download the app already on wifi. I have 2T memory in iCloud. So I have a lot of space on the iPad. It wouldn't work if there's limited space in your memory. Thank you for the kind words and sharing your findings regarding the use of this wi-fi app Next Gen NCLEX RN Questions The developer, Skyscape Medpresso Inc, has not provided details about his privacy practices and data handling to Apple. The one thing that's driving me a little crazy is that it keeps registering me, which means I keep pering all my and test results I have completed! Its the little things !!! But overall it has helped me study on the fly! Dear User, Thank you for providing your valuable comments. We are actively working to improve and improve our application. We will add your comments to our list of improvements. If you have further comments or suggestions, please write to us support@gentoolabs.com. We'd love to hear you listen You! The only reason I'm writing a review is because as nursing students, we've spent 2-4 years borrowing money for many things and after graduating here comes the Nclex. However, there would be times when the app will connect and should start again in a test. Email me at the customer service line and I did what I was recommended to do. It didn't work. You should keep logging in and restarting a test. A test was 100 questions, I was halfway done and I had to start completely again. Please fix this. The questions and reasons are great! Dear User, We are very sorry for the problem. We forwarded it to the technical team. We will solve the problem as soon as possible. If you have more questions, please write to us support@gentoolabs.com. We will be happy to answer any questions you may have. I'm studying for nclex. I have the textbook and I love it. The online modules included are very useful, but I feel that if you have access to this, you should also get this application (which is exactly the same) included. Regardless, I paid for the app so I could practice on the go. I love Saunders – it gives you useful feedback and really helps you get better. My only problem in addition to the cost would be some of the questions referring to a chart or diagram, but in the app, there is no click to view this data for these questions. Please fix this. Hello, We can understand your concerns. The contractual obligation with our publisher limits us to allow full access to all content for free with the purchase of books/Evolve. If you have more questions or concerns about the app, send us the details support@gentoolabs.com. Thank your feedback. Thank you!
