Make sure the touch fasteners, brakes and seat belts are all working properly, the carry handle is properly attached and the bassinet or seat is properly attached to the chassis. Check if Bugaboo Cameleon is damaged. You must ensure that any damaged or obsolete parts are repaired immediately (See warnings sectionfor replacement, using only genuine Bugaboo parts, or parts that have been approved by Bugaboo North America Inc. To prevent mold, do not fold Bugaboo Cameleon and accessories when wet or store in a damp place. cleaningTo clean the wheels, remove them from their premises and wipe with a damp cloth, warm water and a light cleaning agent, then dry them well and lubricate with silicone spray. NEVER lubricate wheel bearings. Important Some components of Bugaboo Cameleon may change color if left in the sun.Cleaning the Fabric of Bugaboo Cameleon Fabric is removable and can be washed in a washing machine. Wash thoroughly. Before washing, ALWAYS remove the frame, reinforcements, and plastic foam parts. Note When washing the cloth, remind the following: - a maximum temperature of 30 °C / 85 °F (cold wash) - do not use bleach - do not fall dry - do not iron - do not dry clean Inlay aeration can be washed at 60°C / 140°F (hot wash). At this temperature, the inlay will be completely clean. The aeration inlay is placed on a thicker foam mattress and can be taken off the mattress cover. After washing the cloth, make sure all parts are replaced in their original position. Inlay aeration should be placed on a foam mattress. Do not use the mattress without inlay aeration. Z54010 - UG_C_rv00.indb 37 12/6/07 12:52:46Page 3 c9. traveling and storage you can easily store the Bugaboo Cameleon, or take it with you in the trunk of your car.step 1 collapsed seat or bassinetRemove a chair or bassinet from the chassis. Remove the carry-on handle. Set the handlebars to the lowest position.collapse the seat. Pull the seat cushions out of the .b. Fold the support frame against the frame.c. Press the flat chair between the frames. collapse the bassinet. Remove 2 plastic filets from the pocket in a bassinet cloth. E. Folding frame supports frame.f. Press the bassinet down flat between chassis and wheels. Place the Bugaboo Cameleon chassis in the 4-wheel.b. Place the handlebars on a large wheel. c Pull two white release knobs towards you, and while pulling the handlebars down, place them on the floor. Z54010 - UG_C_rv00.indb 35 12/6/07 12:52:42 Page 4abcstep 2 fits a rain cover over a customized solar canopy framelf you remove the fabric from the sun canopy and adjust the rain cover over the frame, the child will have a full view from the outside of the stroller. Pull the sun canopy apart. Pull the frame out of the canopy clamp and remove the .b Place the clamp on the frame. Put the frame back in the canopy clamp. c Pull the frame apart.d. Put a rain cover with wide black edges on the tips of the legs. E. Pull the rain cover over the first solar canopy frame.f. Make sure the rain cover stitch stitches are aligned with the solar canopy frame.g. Slide the rain cover frame hole over the prominent pin on the side of the frame.h. Finally, pull the wide black edges at the ends of the frame legs. Important Make sure the rain cover seams are aligned with the solar canopy frame. Z54010 - UG_C_rv00.indb 33 12/6/07 12:52:39Page 5 dfg'click'click'step 2 fits the customized sun canopy. Fit the bassinet or sit down to the chassis.b. Fit the sun canopy to the round side of the .c. Pull the sun canopy over the end of the frame head.d Click 2 canopy clamps to the frame at the point where there is no rubber.e Roll the top of the clamp onto the aluminum frame and then secure the bottom of the clamp. f Attach elastic bands to the front of the canopy clamp.g Pull out the sun canopy. It's important you can also use the sun canopy to protect your child from windWARNINGS• Babies have very sensitive skin. Never put a baby in a Bugaboo Cameleon in the sun without seeing □ the canopy of the sun. Z54010 - UG_C_rv00.indb 31 12/6/07 12:52:32 Page 6ad8. weather and wind protection The standard version of Bugaboo Cameleon comes with a sun canopy, rain cover and mosquito nets, so you can protect your child against sun, wind and rain, and insects. The steps needed to make Bugaboo Cameleon ready for use in good or bad weather are the same for bassinets and chairs. Important The sun canopy, rain cover and mosquito net can be used in combination with seats up to 53 cm / 20.9 inches long from the child's upper body (measured from the bottom of the child on the back to the top of his head).The customized sun canopy The sun canopy consists of 2 canopy clamps, 2 removable frames and adjustable fabric.step 1 prepares a customized solar canopy to usea Pull the frame out of the canopy clamps. B. Put the sun canopy down with the logo facing down. c. Push the frame through the slot in the solar canopy fabric.d Reattach the clamps Frame. Note The hooks on the canopy clamps always point to the back of the sun canopy. When putting the canopy clamp back on the frame, make sure the wire in the canopy is on it. Z54010 - UG_C_rv00.indb 30 12/6/07 12:52:29Page 7 bcefrain cover Rain cover pulls over the sun canopy or over the frame of the sun canopy. The black edge of the rain cover is attached to the toe end of the frame. step 1 fits the rain cover over the adjustable sun canopy. Fit the sun canopy into the frame and fold it.b Put a rain cover with a wide black edge at the end of the foot.c Pull the rain cover over the sun canopy first. Make sure the seams of the rain cover are aligned with the sun canopy frame.e Slide the rain cover frame hole over the prominent pin on the side of the frame f Finally, pull the edge wide, black over the toe end of the frame. Important Make sure the rain cover seams are aligned with the solar canopy frame. Z54010 - UG_C_rv00.indb 32 12/6/07 12:52:36 Page 8 busing air vents in the rain coverThere are air vents on the front of the rain cover to provide proper ventilation.a. Press the window touch fasteners together correctly. The space created between the window and the rain cover is the opening of the air. WARNING• To prevent the child from overheating, do not leave him under the rain cover if it does not rain. • Make sure the proper ventilation by pressing the fastener touches the air vent together properly.mosquito net prevents insects.step 1 fits the mosquito net. Fit the sun canopy, with or without its fabric, into a bassinet or chair. b With the instruction of washing at the end of the head, pull the mosquito net over the .c. Make sure there is a tight match between the side of the net and the bassinet or chair. Z54010 - UG_C_rv00.indb 34 12/6/07 12:52:41 Page 9 dd Understanding the center shaft where the frame carrier is located and lifting everything. Chassis with wheels and handlebars must now fall off each other. E. Bugaboo Cameleon can now be put in storage or transported by car. You can also save Bugaboo Cameleon without its wheels, or hang Bugaboo Cameleon on the handlebars. Z54010 - UG_C_rv00.indb 36 12/6/07 12:52:44 Page 10 11.
