Bloody Bowl 2 is a general discussion of the topic of Honest Details not trolling, but there are CHEATS Before the flamethrowers get and call me newb, which I, I would ask about cheats. I played a full game where the other player never missed a knockdown. I know about aid and how statistics work, but I mean one, double, tripple dice; It doesn't matter, it's always been a hit. I played about 12 games. I only have 3 wins and I don't blame every defeat on the dice, only twice have I met with players who have had this kinda magic dice. My friend ran into someone last night, his first in 10 games or so, who had these kinda rolls. So hack or bug that needs to be fixed. Thank you for your time.
