Skip navigation! Lady Gaga and Ariana Grande have seen some chatter. So really, who's better to give us a song about overcoming it all? Right now, we can really use it. Grande in particular is getting us through a worldwide lockdown to slow the spread of coronavirus, gifting us with Disney performances and singles with Justin Bieber. Now, after much teasing, she and Lady Gaga have released their new single Rain on Me, which declares a place for two women to be loud and proud that they've been through hell and back and returned stronger — and they've proven it for music videos. It's about the resemblance to the tear of rain, Gaga told Apple Music's Zain Lowe about the single. And you know it's also for a metaphor, the amount of drinking that I was numb to myself. I'd rather be dry. I'd rather be drinking, but I haven't died yet. I'm still alive. Rain on me. Well, I'm going to keep on drinking. There are many layers in this song. It's coming down on me/water like misery / It's coming down on me / I'm ready, rain on me, Gaga sings in the song. Especially for the grand section of the song seems to be in response to her previous concerts. No tears left to cry, she sings about being evacuated from her sadness. However, in the rain on me she realizes how necessary her feelings are to continue to flow. Will my truth live, don't keep bottled in it/ So I don't lose my mind, baby, yes, she sings, before the pair launch into the chorus: I'd rather be dry, but at least I'm alive/ I'm not going to live. In the music video, the pair get creative, swapping hairstyles and aesthetics back and forth as they dance along the track. Who knew Ariana Grande could look like that? She may have said thank you, next to her past relationships, but Ariana Grande fans think her new song posts are shading the song Pete Davidson. Two years after the couple ended their brief engagement, the singer released posts and her president-themed music video on Oct. 23 — and while most of the track may be inspired by Grande's new beau, Dalton Gomez, the line that caught the attention of most fans could be a reference to her famous ex. Heaven sent you to me, Grande sings in the first verse. I'm just hopin' I don't repeat history. Although the song on the surface implies that the singer doesn't want to end their current relationship in mourning, Grande takes a significant pause between again and Pete, leading fans on social media to wonder if that line is actually a dig at Davidson. The similarities between the song in the posts introduction and a line in the Grande Sweetener track Pete Davidson also raised a few eyebrows. The universe should be my back, fell from the sky on my lap, he sang on the 2018 love song he wrote about the comedian. Grande hasn't commented on the motivation behind the posts yet, nor has she That repeat line is a reference to her ex. Still, that hasn't stopped social media users from speculating on Twitter. After their very public whirlwind romance came to an end in October 2018, both Grande and Davidson talked quite a lot about their relationship and their breakup. In addition to mentioning the Saturday Night Live star as one of the exes she's so grateful to thank, next, the singer also described her romance as a distraction from her breakup with the late Mac Miller in a June 2019 interview with Vogue. My friends were like, 'Come [to New York City]! We're going to have a fun summer. And then I met Pete, and it was an amazing distraction, Grande said at the time. It was trivial and fun and crazy and highly unrealistic, and I loved him, and I didn't know him. I'm like an infant when it comes to real life and this old soul, has been blocks around — a million times the artist. I still don't trust myself with life stuff. Davidson, who frequently referenced Grande on SNL during their relationship, told Charlamagne's God in February that she would be no sick towards her ex, but plans to continue joking about Grande in her stand-up routine. She also opened up about the breakup in her 2020 Netflix special, Alive in New York, where she described the singer as a very powerful woman, you know and are very smart. In the special, Davidson also joked about the downside of being named in Thanksgiving, Next, which became one of Grande's biggest singles. That song came out, and my friends were like, 'Bro, I love you.' I love you, right? [But] sh't is fascinating. It's fascinating, you're going for a rough 8 months,' she joked. Even his own grandfather thought the song was a hit: [He] was like, 'It's a slap.' Peter, it's a slap. I'm really sorry, it's a good song and I don't even listen. Ariana Grande has a long history of dating in the public eye. She's dated a number of stars and has never been shy about letting people know who she's with. Since her split from ex-fiancée, Pete Davidson, Grande has been focusing on herself and making music for her fans. But now, she is dating again and this time it's not someone who is addicted to the limelight. Ariana Grande | ANGELA WEISS/AFP Getty Images Ariana Grande's dating history was one of Grande's first public relationships with singer Jay Brooks. The two dated from August 2012 to October 2013 when Brooks accused Grande of cheating on Wanted singer Nathan Sykes. Yes, I was cheated on. Yes it suck, he tweeted at the time. Yes, I was left to another guy. And it happens everyday for so many people of every age, gender, race. I can be one of those guys and I'm in a position where I'm constantly reminded of every day, someone Like those who have been cheated on, it's been hard for me, but I'm finally ready to move on. After that, after that, Date Sykes did, but the relationship didn't last long as they never really saw each other. Then, grand rapper Big Sean moved on. The unlikely pair dated for eight months and she even mentioned him in his song, Thanks U, Next, the singing thought I would end up with Sean/Her. Grande also mentioned in her next ex, Ricky Alvarez, Thanks U Next, wrote a few songs about singing Ricky/Getty Images. The two met together in the summer of 2015 but broke up two months later. Grand Most Famous dated Mac Miller from 2016-2018. Miller died in September 2018, and Grande expressed her love for him in an Instagram post. I liked you greatly from the day I met you when I was nineteen and I always will, he wrote. I can't believe you're not here anymore. I can't really wrap my head around it. We talked about it. So many times. I'm so crazy, I'm so sad I don't know what to do. You were my dearest friend. For so long. Above anything. I am very sorry that I could not heal or take my pain away. I really wanted to. The kind, sweetest soul with demons was never the one he ever deserved. I hope you're ok now. The rest. Before Miller passed away in May of 2018, Grande and comedian Pete Davidson went public with their relationship. A month later, the two got engaged. But by October, the pair had broken up. Who is Ariana Grande's new boyfriend? Grande now has a new boo. She is dating luxury real estate agent Dalton Gomez. According to people, the two have been dating in secret for nearly two months. The two were first added in February when a video of them was obtained by TMZ. Grande is currently self-quarantined between the coronavirus (COVID-19) epidemic and Gomez is with her. One of the people he's with right now is Dalton - they've been hanging out for a few months, a source told People. Ariana doesn't want to have another public relationship so she's trying to keep this one cool, but she seems very happy with Dalton. On Sunday, Grande — who is nominated for five awards — performed a medley of hit songs of her latest album, 7 Rings, and Thanksgiving, Next. Thanks, a short but significant change in the final verse of the next proves Grande has corrected her relationship with her father, Edward Butera. In the original track, Grande sings: One day I would walk down the aisle/ In the version she performed at the Grammys, Grande's final line changes: 'I'll thank my dad/ Grande's complicated relationship with her dad has been well documented over the years.' In 2014, Grande told Seventeen she had fallen out with her father a year earlier. It took me so long to recover with it, the singer said of him Relationship. The thing that got me out there was embracing the fact that I'm made up of half my dad, and a lot of my symptoms come from him. So much of me comes from my father, and for so long, I didn't like that about myself. I had to admit that it's okay not to go with anyone and still love them. It's TBD whether things are as cold between Grande and her ex-fiancée Pete Davidson: At the end of her Grammy performance, the pop star slid a ring off her finger and placed it back in a box. One public reconciliation at a time, everyone! We spent 2019 taking stock of people and things that no longer served us with Ariana Grande's Grammy-nominated album, Next. So what's next? Now, in 2020, we have grown up from our past and cherish things of value in our lives. Enter: Posts. The 27-year-old first single from the artist's upcoming sixth studio album dropped at midnight on Oct. 23, as well as music videos. In true grand form, it's vibey, fierce, and causing fans to ascend perfectly. The scene, directed by Dave Meyers, imagines Grande as president. In a conference room adorned with a painting of her dog Toulouse, she meets with her cabinet (not a single white man present), she works in the Oval Office, signs executive orders in full Jackie Kennedy splendour, walks her dogs on the White House lawn, and more. Heaven sent you to me/ I'm just hoping I don't repeat history, she sings. (There are some theories that Pete in repeat is a reference to ex-boyfriend Pete Davidson). For a heroic string melody, she sings about being able to share all of her prismatic self with the one she loves, and how putting a woman in charge can only benefit the other roles she plays in her life. The rest of the album, whose title is still a thick half-peak-shaped secret, was recorded in the thick of quarantine and will leave on Oct. 30. Grande's life looks much different than last year 's - and not only because of coronavirus. Grande is no longer single, and in a relationship with real estate mogul Dalton Gomez. She also continues to music in a pivotal election year (four days before Nov. 3, actually) and has been very vocal about encouraging people to vote. Like many of us, he's used this time to reflect, and those will shine through reflection in the new album. Detail on the topics in the posts, the rest of the full length is rumoured to focus on the joys and pains of romance, sex, and unravel feelings of disconnection during this time. Until then, fans are clinging on to this gift from Grande, and obviously losing their minds on it — especially the idea of a Grande administration. When Sweetener came out, I only listened to Ariana until May after the tune. So I need this whole album to come out because I'm breaking the repeat button on solo posts – hello-mick! 🎧🎧 October 23rd, 2020 2020
