Buyer creates order and PlayerAuctions PlayerGuardian secure payment Vendor completes delivery in delivery Buyer secure PlayerAuctions is provided when you purchase a game account, all guidance and information are provided to successfully use and take ownership of your new game account. This includes: Login Name / UserNamePasswordLast Name (if available for the game)Security Question (if available for the game)Security Question Answer (if applicable to the game)Parental Password (if applicable to the game and game account)First CD Key (if known to the seller)If you are prompted, you can ask the seller for other information. However, since other information not mentioned above is unnecessary to complete the transfer of ownership of a secure game account, it is optional that only the seller provides it. Is the seller sending the game account information directly to me?No. After purchasing the game account, it updates the seller and To securely provide game account information to PlayerAuctions. We will then quickly and discreetly review and document certain features of the game account before transferring game account information to you. After receiving the game account information, you will be given time to complete the verification of the game account, complete the transfer of game account ownership and confirm the delivery of the game account for PlayerAuctions.For Game Account transactions, the Seller will send the Game Account information to PlayerAuctions for verification purposes. If there are any problems, PlayerAuctions will then deliver account login information to the recipient via email within 24 hours (but usually this happens much faster. What happens if the delivered game account does not match the seller's description in The Offer for Sale? If a game account is not correctly described by the seller, you can choose to keep it and meet with the seller at a lower price through the Dispute Resolution System, or you can return the hasart-free game account from PlayerAuctions for a hassle-free and guaranteed refund. How do I fully protect myself from the merchant who bought back my purchased game account? All game accounts purchased by verified members and above through PlayerAuctions are guaranteed after-sales support. For members who want extra security for their purchased account, PlayerAuctions offers insurance packages that protect against the rare incident in which your purchased game account is without unseating or suspended due to its previous owner. In this case and if you are not able to restore your access to playerAuctions completely without damaged game account, PlayerAuctions Market Credit is equal to the price of the specific insurance package, PlayerAuctions will reward any product offered for sale can be used towards any purchase playerAuctions.Ever since the first out in World War II, the tank has become a mainstay of each country's military arsenal due to star armor, mobility and firepower. The tank is considered cool and popular among military enthusiasts. In fact, admiration has become so great that you have a game centered on driving armed tanks and fighting others: World of Tanks (WOT). If you are a fanatic of tanks, World War II, military sims, or just want a solid PvP action game, then grab a World that accounts for tanks yourself. Download this game from the Microsoft Store for Windows 10, Windows 8.1, Windows 10 Mobile, Windows Phone 8.1, Windows 10 Team (Surface Hub). See screenshots, read the latest customer reviews and compare Metacritic ratings for Windows. Created by Wargaming, known for its World War II-themed military games, World of Tanks places players in the cockpit of a tank and faces World War II tanks. feel and get players back in the 1930s and 1940s. After all, it's today's 21st century. While tank flow tank battles are about what the game is, winning only requires more than blowing up enemies. Each map in the game has its own unique goals for victory. Goals often require knowledge of maps, individual skills and a general awareness of the game. There are more than 129 World War II tank models available to players. Tanks can be purchased using either Credits (in-game currency from battles) or Gold, which you can buy with real money. Five tanks are unique: (1) light, (2) medium, (3) heavy tanks, (4) tank destroyers, and (5) bead-powered cannons. Each group has a role with advantages and disadvantages, general characteristics, specialties. Players need to take into account the differences in each tank model for excel. World of Tanks is one of the games players re-play, focusing on competitive gaming and deep metagame. Wargaming, however, decided to elete their repe tummy by giving players a sense of progress and continuity in their accounts. The game is an EXP reward for players for each battle, as well as a chance to upgrade their ranks in competitive matches. The amount of EXP players can earn in a match depends on performance; the better, the more EXP you get. EXP is used to conduct research so players can upgrade a tank or receive bonuses, including faster gold and many other bonuses. One of the reasons Wargaming decided to add replay items to the game is that it's definitely rewarding to see your game account grow. The problem, however, is to create a sense of growth, while some players may find progress a little slow. Fortunately, there is a way to cut it out: to buy World of Tanks accounts for sale in PlayerAuctions and even from the WoT premium account. Players can make time and focus on exciting tank fights instead of grinding. If you are one of those players who wants to go locked and loaded, then you are in the right place. Keep in mind that it's easy to find third-party sites that sell WoT accounts. But because some of them are scammers, it doesn't mean easy safe. Nevertheless, there are legitimate portals such as PlayerAuctions. We are a player for player trading platform; a site where players can buy and sell game materials online. Our network has currency, products, and accounts, including World of Tanks accounts. If you are looking for a, then stay on this website. We are determined to provide our buyers with a comfortable and safe experience. We have implemented a PlayerGuardian system that protects our user's personal information. As another measure to prevent our receivers from being scammed, we have a five-tier PowerSeller system, and here check our seller's reputation on the spot. We also have a customer support team via email. If you are living in a difficult time searching and not having into victory, then you get yourself a WoT Account here! With PlayerAuctions products and services, you can help dominate the landscape. PlayerAuctions is the safest place to buy and sell MMO gaming assets. Our proprietary security technology, PlayerGuardian, protects you, your payments and trades and keeps you private. The following protections are provided to all PlayerAuctions recipients.
