PermissionsView Permissions FOLLOW BIZI TAKIP EDIN Android is a trademark of Google LLC., All other points and brands are characteristics of their respective owners. Package: com.grindrapp.android Writer: Grindr LLC Version: 5.17.2 Update on: 2019-09-25 Facebook Browser DOES NOT SUPPORT DOWNLOADING. Click to open Chrome Browser. Warranty safe installation, no additional additions or malware Love our service? Share with your friends storage: Read the contents of your usb storage: • Allow the app to use the contents of USB storage.. Change or delete the contents of your usb storage: • Allow the app to write to the USB Location: Approached location (network-based): • Allow the app to get your approached location. This location is derived by location services using network location sources such as cell towers and Wi-Fi. These location services must be turned on and available for your device for the app to use it. Apps can use it to determine roughly where you are.. Exact location (gps and network-based): • Allow the app to get your exact location using the Global Positioning System (GPS) or network location sources such as cell towers and Wi-Fi. These location services must be turned on and available for your device for the app to use it. Apps can use it to determine where you are, and can consume additional battery power.. Access extra location provider commands: • Allow the app to access extra location provider commands. This can allow the app to interfere with the operation of the GPS or other location sources.. Microphone: Record sound.. • Allow the program to record sound with the microphone. This permission allows the app to record audio at any time without your confirmation. Camera: Take photos and videos: • Allow the app to take photos and videos with the camera. This permission allows the app to use the camera at any time without your confirmation. Accounts: Find accounts on the device: • Allow the app to get the list of accounts known by the device. This can include any accounts created by applications you have installed.. Read Google Service Configuration: • Allow this app to read Google Service Configuration Data. Network: View wi-fi connections: • Allow the app to view information about Wi-Fi networking, such as whether Wi-Fi is enabled and name of connected Wi-Fi devices.. View network connections: • Allow the app to view information about network connections such as which networks exist and are connected.. Change network connectivity: • Allow the program to change the state of network connectivity. Connect and disconnect from wi-fi: • Allow the app to connect to Wi-Fi access points and make changes to device configuration for Wi-Fi networks.. Full network access: • Allow the app to create network sockets and use custom network protocols. The browser and other applications provide means to send data to the Internet, so this permission is not required to send data to the Internet. Receive data from the Internet: • Allow apps to accept cloud to device messages sent by the app's service. Using this service will incur data usage. Malicious apps can cause redundant data usage. App Information: Retrieve Running • Allow the program to retrieve information about currently and recently running tasks. This can allow the app to discover information about which applications are being used on the device. Start at startup: • Allow the program to start itself as soon as the system system booting. This can make it longer to start the device and allow the app to slow down the overall device by always running.. Display: Record other applications: • Allow the app to draw on top of other applications or parts of the user interface. They can interfere with your use of the interface in any application, or change what you think you see in other applications.. Effects on battery life: Prevent device from sleeping: • Allow the app to prevent the device from going to sleep.. Control vibration: • Allow the program to control the vibrator. Hardware controls: Change your audio settings: • Allow the app to change global audio settings such as volume and which speaker is used for output.. System Tools: Includes other applications: • Allow the program to terminate background processes of other programs. This may cause other programs to stop running.. Other: Broadcast data messages to apps: • Can broadcast data messages received from the Internet to apps registered to listen for them.
