You can't open gifts you receive from PokéStop, but you can send them to a friend on your friends list. The gift contains useful items that your friend receives along with a postcard showing where you received the gift. Gifts may also include an egg, from which the Alola form of Pokémon, which was first discovered in the Kanto region, may also be included as a special surprise. If you send a gift to a friend or participate in a raid or arena fight with them, you can raise your level of friendship. Pokémon Go Friends is a new add-on that opens the door for several new highly requested features, including Trading and Sending Gifts. Building a friends list now only allows you to track the progress your friends are doing, but it also provides a box of bonuses when using gyms and raids. On this page: Pokémon Go Friends has a Friends system that introduces many benefits. It allows you to: Follow the progress of friends, From Nivóa trainer to Pokémon uhvacen i distance walked Trade Pokémon Send and receive Gifts, which include 7km Eggs With higher Friendship Level, receive a higher attack bonus during Gym/Raid attacks, spend less Stardust when Trading, undergo Special Trades There's plenty of systems and benefits in play, but let's start with the basics - how to add a friend inKémon Go. First, you need to be the right level of coach to access the function. At the moment, the coach's level is 10. This has dropped rapidly - it has fallen from 40 to 30 within hours of the launch of the feature, and then it has become a level of 10 in the morning after - so if you're not in it yet, just wait a few more days and it can be available at lower levels. Friends and social features are now available for all Trainer levels, now is the time to send your first #PokemonGOfriend request! Trading is now available for Trainers level 10 and up. pic.twitter.com/bTTLPkzLcq- Pokémon GO (@PokemonGoApp) June 22, 2018 This content is hosted on an external platform that will only show you if you accept target cookies. Once you're a high level trainer enough to start adding Friends to Pokémon Go, go to your Trainer screen by hitting the icon in the lower left corner of the main screen, then tap the Friends tab in the upper right corner. Then tap Add a friend. Here you can enter the code of your friend's coach. It'll have to be friends with someone – there's no way to simply use your coach nickname. Think of coach codes like Friends of Codes on Nintendo consoles that require you to actually know the person You can send a request to a friend to prevent players from interacting with strangers. Here's also your coach code that you want to send to others. If you want it to be simple, you can copy the coach code to your phone's clipboard so you can easily send it directly through another app. It should be noted that trainers who require parental approval and registration through the Pokémon Trainer Club to play Pokémon Go will not be able to trade with other coaches in the game, according to developer Niantic.Once you have your friend's Trainer Code, type in the box then send them a request. When they accept, you are now Friends - there is no need for both of you to send coach codes to each other. There are two ways to improve your friend's level: Keep in mind that you can only progress your friendship once a day, so once you've done one of the activities listed above, you'll have to wait until the next day to zoom in. Because you can only progress your friendship once a day to a friend, although it will take several days to unlock the Level. There are a total of four Friendship Levels to unlock:Friendship Plane Days to UnlockBonus Good Friend1Ability to Trade and Send/Receive GiftsGreat Friend73,000 XP, Small (0.2x) Stardust discount on TradingSmall (1.05x) Gym raid and attack bonus+1 Raid covers ballsUltra Friend3050,000 XP, Medium (0.92x) Stardust discount on TradingMedium (1.07x) Gym and Raid attack bonus+2 Raid capture ballsParticipating and Trainer Battles at any distanceBest Friend90100,000 XP, Big (0.96x) Stardust discount on TradingLarge (1.1x) Gym and Raid attack bonus+4 Raid capture ballsChance to become Lucky FriendsThanks to Bbarna and Charales on The Silph Road for specific stats in the above table. There are many worthy perks. In short, the better the level of friendship is, the higher the stardust discount and the better the Raid and Gym perks will be. To see the exact progress, go to your friend in your Friend feed, tap on their avatar, and then Hearts. Then he'll tell you how many days are left until you become Big, Ultra or Best Friend. The season of the festivities has arrived! With it comes an increase in cap level – including the addition of XL Candy, Legacy 40 Challenge quest and increases to some XP resources – Platinum Medals, the arrival of Gen 6 Pokémon such as Espurr and changes in the Go Battle League We recently saw the addition of 'Strange' red eggs and new Arlo, Cliff, Sierra and Giovoven line-ups. There are many quirks on the Friends feature you should know about: There are Friends List 200 in Pokémon Go – which is more than enough to start building a Friendship level with such close friends as several Raid groups. If you copy the coach code message you received from a friend and paste it into the Coach Code box, it will only publish the code. Handy! A red dot will appear on the top screen above the Trainer icon at the bottom left of the screen to let you know about your gift or friend request. You can turn off notifications for friends and gifts in settings if you don't want them to appear. A Friend feed takes a random recent activity and sends it to friends. There is currently no way to push a specific update to your friend's feed. There are no scales available in the Friend feed, so if you want to compare the state - such as level, distance walk and trapped creatures, then you must enter each Friend entry manually. As of the July 2018 Happy Pokémon update, however, aliases can be assigned to friends, and filtered and sorted by Name, Alias, Friendship Level and Gift. There is currently no way to extract the source of the friend being updated or the data you share. Choose your friends carefully if that's a concern! Similarly, unlike The Gym, your Buddy Pokémon nickname will appear for your Friends, as opposed to pokémon's deanim name. In short, it's a custom text box that your friends can see, so choose your friends carefully again, as you might see something that might be uncomfortable. There is a medal associated with being the best friends - the highest tier of friendships. One of my best friends is Bronze, two silver and three is Gold. The removal then re-adding the friend will be reinstated to the level of friendship and bonuses you have accumulated before. It used to be a 1,000 XP reward for being good friends with someone (the lowest level of friendship), but it was talked about to be removed to prevent players from getting masses of XP easily, by adding new Friends and sending and opening gifts. Changing a coach's nickname after adding someone as a friend can affect the bonuses used. Niantic recommends you remove and add a friend again to ease this problem. There's also some interface changes when you increase your friendship level. In the game you will notice that the interface shows the growth of friendship, builds gradually and intentionally, as it unlocks rewards that are even more meaningful, says Niantic.
