This safe and simple system gently removes any oxidative color without affecting the hair's natural base color in five easy steps. DIRECTIONS:1. Shampoo hair with Sulfate-free Clarifying shampoo. Rinse and towel dry.2. Measure and mix equal parts of the hair extract or part 1 and part 2 of artificial hair color extractor in a plastic or glass mixing bowl. Mix enough product in relation to hair length.3. Apply immediately to the hair using a bowl and brush application.4. Once the hair is properly saturated, place a plastic cap over hair and process for 20 minutes under a hot hood dryer.5. Firstly, the shampoo is advisable to massage the product into a full lather and place a plastic cap over the hair for 2-3 minutes. Rinse thoroughly for at least 3 minutes.
