Should it be a choice between egoism and collectivism, as Ayn Rand shows? Or are there any positions between them? What would they look like? Is Anthem still important today? Why or why not? What is the meaning of nature in Anthem? Why is equality 7-2521 fleeing into the forest when it is expelled from society? Nature represents the original and non-15-man situation in Anthem. Equality 7-2521 runs into the Unknown Forest when he is expelled from society because he is there able to establish his freedom and begin his life again as a new man. In society equality 7-2521 cannot realise its potential because it is being dragged by weaker members of society who fear their power and try to turn it against it. In nature, on the contrary, he lives by the exertion of his hands and mind. The forest gives him what is his, which includes everything nature has to offer, because man is the master and center of the universe. In addition to presenting an opportunity to start again, the forest represents a gateway to the past that society has lost, but equality 7-2521 strives. In the woods, he finds the swelling of the world that broke up under the force of the collective and is now everything, just that it's gone. When he finds his home, he finds the key to this past, which the forest has preserved for him from neglecting his collective society. The library provides him with information about the world he was, and, basically, teaches him the I word, which turns out to be the trigger of his epiphanic Thus, the forest offers equality 7-2521 a way to move forward by starting again alone and backward by connecting with the ideal society that existed before. What is the meaning of the story of the persecutor of the untapped word? What is the role of martyr in Anthem? The persecutor of the untapped word and equality 7-2521 suffer from what they believe in. In the case of the haunted untapped word burns at stake because he professed the word I, the word in his company is not allowed to be said. In the case of equality 7-2521, he was hinged for not wanting to reveal his secret tunnel, and later exiled for searching for soliy and researching scientific studies. Two are connected in two ways. First, the Persecutor of the Unreheaded Word seeks equality 7-2521 while he is burned alive and laughed at while he dies. Equality 7-2521 considers this event to be a bond between the two men. Secondly, although society physically tortures both men, no one suffers emotionally during torture because it is happy to suffer for its ideal. For Rand, the suffering of the body means nothing when it suffered in the name of the ideal. According to Anthem's status as a political manifesto, Rand also refers to those he holds as martyrs in the real fight against evil collectivists. During his final highlight of his new philosophy, Equality 7-2521 addresses all the martyrs of the transition period, those who died for individualism, while the world has just turned into collectivism. These people are for Rand's contemporaries, and the whole novel is intended as a way to reach out to them and tell them that even though they suffer, they do it for an ideal that is worthy of suffering and who will never die. What is the Anthem setting? Why doesn't Rand determine the time or location of the story? Strictly speaking, Anthem's setting is unclear. Rand reveals that many years have passed since the fall of the novel to collective ideals, but we don't know how many years. In addition, it has been enough years for the clothes in the closet in the new Home of Equality 7-2521 in the forest to remain unfurnished. Similarly, the location in which the first part of the action occurs, unnamed, and the location of the Unknown Forest is also undetermined. Rand uses this ambiguity to make Anthem universal. He wants the novel to be a warning to all people everywhere that collectivism is an evil committed by the human race, and that wherever it is carried out, it will bring the destruction of men. The failure to name a city or time leaves open questions about where and when the meltdown that it presides over. In addition to the ambiguity of the setting, which makes Anthem a kind of warning to all places. It also distances Rand from Russia on a meaningful path. Although the details of the story undoubtedly relate to the situation in Russia under Lenin and Stalin, Rand is careful not to explicitly make an anteme about Russia, because he wants to make it clear that evil collectivity is not only about the corruption of special leaders and their goodies. In this way, it responds to the criticisms of those who believe that communism in Russia has failed only because of specific historical situations, such as the cruelty of Stalin. Thus, the vagueness of the setting is the result of a deeper critique of socialism than Rand could have achieved by saying that the story would be a concrete critique of a specific example of communism.
