evesive? Or does legendary gear take them a while to level up again? Runes are here to give you a power kick and make some changes to your game! There are five types of Runes available to slot on your Crusaders: Fire, Water, Air, Earth and Soul. What power unlocks each depends on the Crusader to which you assign the rune, otherwise each type of
rune is identical. You can level runes by dragging a rune into the Merge box in the rune inventory or dragging a rune of the same level and shape on a rune slot on the Crusader that already has a rune into the two runes of the same level and shape. The
Rune screen is where all the magic happens. You can choose between viewing the list of Crusaders in Formation, Crusaders who have Runes Slotted, and All Crusaders on a Crusader in any order. The first slot is free, and the rest will cost
Legendary Catalysts, increasing in cost as you unlock more slots. Once a slot is unlocked, you can make a slot in a Rune and start seeing the benefits of the Gold Finders. This is true for the first 3 slots. Slot 4 on each Crusader gives them a mission
system boost. There are 4 possible effects that the slot will unlock: The rise of gold won from gold missions. The increase in EP gained from EP missions. The initial duration. Slot 5 on each Crusader will have a unique buff for them, which you will be
adding in time. Once assigned to a slot on a Crusader, you can't normally remove a Rune, just upgrade it. There is a rare element, Rune Solvent, that will allow you to remove all slotted runes from a particular crusader. You can find rune solvent, that will allow you to remove all slotted runes from a mission system. You'll be able to get Rune by opening Runic chests and certain rune types
of certain levels as rewards from some stages of the season. You can also get Runic chests from the following locations: The Real Money Chest Store, from the Challenge Token store.) Up to 3 chests a week from Dungeon Depot. Up to two chests a week from Ruby Exchange.
from the Mission System. Reward stages of the season. Have fun with the new season and the new Rune System! October 15 COTLI: Season 2 and Rune System. Rewards! Here's a quick look at Season 2 of Dungeons, and the all-new power system, Runes! Season 2 is coming and
she made some changes in the season and Dungeons! First, we changed some formations. Here's a quick look at the new training for Playing it Old School. In addition, we have a lot of new rewards from both passes, including a chance to get some Rune to help you with the new Rune System! Looking to feed your crusaders even more? Runes are here to
help you! Each Crusader has room for the 5 rune slot on the new rune screen. The first slot on a Crusader is unlocked for free, and the extra slots will cost Legendary Catalysts to unlock. The runes of the Crusader also has a rune that will affect the result of
missions, from additional EP to doubling the rewards of the mission in which they are sent and more! But that's not all: every Crusader will have a unique effect that can be unlocked by slotting rune in proper shape in their fifth slot! We will debut with unique powers for a handful of crusaders and update the other Crusaders to pieces from time to time. Each
rune can also be leveled, to get more power, with a maximum level of 15. You have to combine two runes of the same shape and level to reach the next level of the runes, so combining two runes of level 2 would produce a level 3 runes. Higher rune levels will also take Legendary Catalysts to craft in addition to runes. As mentioned above, Runes will be
rewarded from both the free and the paid part of the season 2 rewards. You'll also be able to get them from weekly Rune Chests from the Ruby Store, Token Challenge Store and Dungeon Shop, in addition to real money purchases from the Ruby Store, Token Challenge Store and Dungeon Shop, in addition to real money purchases from the Ruby Store, Token Challenge Store and Dungeon Shop, in addition to real money purchases from the Ruby Store, Token Challenge Store and Dungeon Shop, in addition to real money purchases from the Ruby Store, Token Challenge Store and Dungeon Shop, in addition to real money purchases from Chest Shop. Runes are here to give you a power kick and make some changes to your game! There are five types of Runes available to slot on your Crusaders: Fire, Water, Air, Earth and Soul. What power unlocks each depends
on the Crusader to which you assign the rune, otherwise each type of rune is identical. You can level and shape on a rune slot on the Crusader that already has a rune assigned. Merging runes to reach level 6 and above will cost 1 Legendary Catalyst each
extra time of the two runes of the same level and shape. The Rune screen is where all the magic happens. You can choose between viewing the list you will bring their personal slots and list of bonuses rune them. You can unlock slots on a
Crusader in any order. The first slot is free, and the rest will cost Legendary Catalysts, increasing in cost as you unlock more slots. Once a slot is unlocked, you can make a slot in a Rune and start seeing the benefits of the bonus. The runes of the Crusaders offer different effects depending on their role, such as Gold Find for the Gold Finders. This is true for
the first 3 slots. Slot 4 on each Crusader gives them a mission system boost. There are 4 possible effects that the slot will unlock: The rise of gold won from gold missions. The increase in EP gained from EP missions. The increase in EP gained from EP missions. The chance of the rewards in the mission being doubled. Reduces mission time for more than 2 hours in the initial duration. Slot 5 on each
Crusader will have a unique buff for them, which you will be adding in time. Once assigned to a slot on a Crusader, you can't normally remove a Rune, just upgrade it. There is a rare element, Rune Solvent, that will allow you to remove all slotted runes from a particular crusader. You can find rune solvents from a mission in the mission system. You'll be able

But that's not all: each crusader will have a unique effect that can be unlocked by Rune in proper shape in their fifth slot! We will debut with unique powers for a handful of crusaders
and update the other Crusaders to pieces from time to time. Each rune can also be leveled, to get more power, with a maximum level of the runes, so combining two runes of level 2 would produce a level 3 runes. Higher rune levels will also take Legendary Catalysts to
craft in addition to runes. As mentioned above, Runes will be rewarded from both the free and the paid part of the season 2 rewards. You'll also be able to get them from weekly Rune Chests from the Ruby Store, Token Challenge Store and Dungeon Shop, in addition to real money purchases from Chest Shop. 2015 Heroic levels and gear upgrades posted in Titan Shards. Heroic missions now have sequential levels of difficulty with more Paragon symbol. Heroic missions now drop Epic Power Fragments that can be used to level up Epic Gear in the Blacksmith. Drops of prey will be adjusted for higher levels to reflect the difficulty with more rare gear, jam and possibly Epic gear drops. Missions have limits for drops of power fragments, so you spread your efforts. Using Abandoned Epic Power Fragments from heroic missions, you can pick up your Epic equipment. Each upgrade will boost all statistics on 20% gear. The pulse state is applied to the piece of tools, so that you still reforge as much as you want. The cost for each level upgrade will increase substantially to reflect the value of improved power. Upgrade the equipment level with upgrade kits to Blacksmith. Uncommon and rare kits can be made from scraps on the Crafting tab. Epic upgrade kits will be available in the Study Room. The equipment can be leveled up to the level of your character. Leveling up equipment will increase effectiveness and boost statistics, to increase the longevity of your tools, so you don't have to replace it simply every time you level up. Hall of Trials store now has a Resources tab where you can buy the Epic Upgrade kit. Combined armor and magic strength potions in a single defense buff. Added tokens to purchase a refresh of Paragon Brotherhood tasks. XP Buff and Luck Buff have been added to the store. Included in the packages are: Slotting Rods, a jewel of endurance, Stamina Potions, Multiplayer Potions, a High Speed Potion, a High Class Attack Potion and Reforge Crystals!
