## Dad bot discord servers

Dad Bot is an extremely accurate representation of a father telling the worlds better jokes than Dad! 100% accurate and good at it He is so good at telling jokes to dad that he is a world-renowned scientist in dad's jokes. God of Embarrassment Do you need to embarrass that annoying (believable\_child\_name) from down the street? Dad Bot covered you with d(embarrassment) Actionable automatic answers Do you still want dad Bot's other commands without worrying about the answers Hello {thing}, I'm dad!? Done! Check the d(SETTINGS) for all this! The community built I want my idea in dad bot how do I tell you? Use d(suggest) Soon! Mom and Dad are married of course, but they don't talk to each other, they help support me on the patreon to help get this feature first! The best dad in the world bod Dad Bot has the best dad body in the world according to everyone on the planet! Official Twitch Channel Dad Bot This is totally the official Twitch channel! Original Dad Bot Server This is the original support server for the original parent bot Give him a visit! I want it now! Click here or the button at the top that says Invite the bot to invite it to your server! Dad Bot's latest replacement! (Now with more features than ever before!) Dad Bot is now embarrassed and d(ddd)joke we need some ideas for both commands! Come to the support server and suggest some interesting things in the dad-bot-suggestions channel! This is the replacement of the original dad robot, since the original dad robot no longer works, I decided to create it! This has new answers and a new mode called pasta mode! If you want to enable pasta mode do d(pasta), or if you want to blacklist yourself from its automatic answers you can do d(responses). To enable or disable the entire server, use d(serverresponses (administrator permissions are required to enable and disable server-level responses), if you have any suggestions let me know in my support server in the channel called suggestions, please tell us which bot you're making a suggestion for when you're there. This is my first bot made with reknohT #0139 and I'm going to add it more once I learn Python better.
