

I'm not robot

Continue

was going to happen. Asterin dying really messes me up. All of them die just as cheap feeling, so bad, and I knew when it happened that they were going to be the only real sacrifice SJM made with this conclusion novel. And that eventually came true, so everyone else could be heterosexual with their mates. ➤ Elide - I love Elide, and her loyalty, but she also said some very abusive things to Lorcan, and then just regret it when he went to die. Also, once again everyone is just going to heal all their disabilities and it feels a little questionable. Also, does Elide have a foot fetish, too? I mean, I don't kink shame, but..... What. ➤ Lorcan - I really loved Lorcan in this. He tried so hard, for Elide, for his friends, and for himself, and it made my heart really warm. Also, now he's making and packing his own homemade pads for Elide. Bonus points. How long until the allies you collected start asking why the Fireworker isn't burning. ➤ Lysandra – I'll be honest, Lysandra and Aedion's views were easily my least favorite. And let's be real, Lysandra can do better... ➤ Aedion - ... Because Aedion was an asshole in this book and was so hurtful. And once again things are realized, and things are forgiven, because death has almost come for them. It will never excuse abuse. ➤ Gavriel - I actually hated how he and Aedion reunited for just like one page, only for him to see his dad die. Like, not only did it feel pointless, it felt cheap. ➤ Evangeline - Sweet lil' beans. And I really love her family with Lysandra, and I just wish her the best in ➤ Falkan - I loved his reunion with his niece, Lysandra. ➤ Fenrys - *blinks once * I actually loved this character and felt so many sad feelings for him, but I think the book was honestly better with the addition of him. ➤ Nesryn – I still feel like Nesryn was such a fill-in character, always, but I'm glad she's happy, I guess. ➤ Sartaq - I enjoy him and his birds, and I'm glad he makes Nesryn happy, I guess, but that's whatever. ➤ Erawan - The last remaining Valg king! But how they *tricked* him was like the most Scooby-Doo thing I've read in years. ➤ Maeve - I felt like she was going to get a redemption go like five times as she read this book, and I was so scared. But again, anticlical ending. And I hated how when these two were taken out, so was their army. It just felt too easy, and even the battle scenes weren't good. But let's talk about the real character I want to talk about... Do you know the story of the Queen walking through worlds? ➤ Rhysand - Did Aelin really see Rhys and Feyre in Valerius and did he like to help her get back to Rowan and the gang? Like, Did I feel like he was playing Star Fox 64 and he gave her the boost (or slowly) or something? Like, I'm not making this cameo up, right? As this happened? My thoughts still can't process this information. I mean, we all knew the crossover was going to happen, but I genuinely didn't expect it to be that way. Okay, let's talk a little bit more about things that have happened. First, everyone is a couple. And more importantly, everyone is a straight couple. Next, everyone was a form screener in this book! Like, Lysandra completely loses her unique and cool ability because like everyone and their mother can do it in this book. I hated it. Serious. And Maeve could have done so much more with her powers, but she only chose not to for some reason. Third, there's still a lot of sex in this book, but I feel like the scenes were much shorter and much more blurred to black. So, it's either going to be a good or bad thing for you. I kept forgetting two things as I read. 1.) that Aelin is only twenty years old. It's so wild! I've been reading it for so long, it just feels like she needs to be older. And 2.) This whole series really only plays out over the course of a year! Again I've been reading it for so many years, I just can't wrap my head around this timeline and everything these characters have done. I mean, how many relationships they had, how many deaths they saw, and how many terrible things that happened. It seriously blows my mind that it's only been a year. I wasn't sure if I wanted to bring it up for, but I think I'd briefly, especially if you read the entirety of this monstrosity of a review: I was hurt by the Bowater art, found in the B&A; A special edition, and I just to say that Asian and white will never, ever, be interchangeable. Ever. And you know what SJM didn't do with these 1,000 pages of KoA? Anything to say or show that Manon Was Asian. I'm half white and half Asian, and it's not the representation that even I'll ever think is acceptable, and certainly not the representation that will ever make me see. And writers and artists (who have previously drawn characters as white) should do better. I also want to link Aentee's review because it's amazing, and she's really talking about the lack of diversity in this book. And she brings up a lot of similarities that really blew my mind about The Lord of the Rings. That's a very good review, you guys have to check it all out! Overall, I'm glad that this series is over. I'm not sure if I'll pick up by Sarah J Maas anymore or not, but I'm happy to finish off this series. Again, this will never be a series I love, but I truly love the reading experience of feeling like I'm part of a massive buddy read with 75% of the book community. It's a feeling I can't put into words, but one that means a lot to me and that I cherish with all my heart. Blog | Instagram | Twitter | Tumblr | Youtube | Twitch ... More... More
