Java Edition 1.13 or later / give @p compass 1 PE, Xbox One, Switch, Win 10, Education Edition/ give @p compass 1 0 more tool recipes Although exploring takes up most of your time in Minecraft, it can also be quite easy to get lost in huge biomes. That's why the compass should always be handy. Not only does the compass quickly take you back to spawning point, but it can also be incredibly useful when designing a map, allowing you to always know where things are in your world. So here's a detailed guide to help you create your own useful compass: What you need to create a compass How to source iron ore and make iron ingots Before you can make iron ingot, you need to first get iron ore. This stallion can be found in almost any rock to be mined, such as caves, gorges and even on the edge of the linings. After acquiring iron ore, you can make iron ingot with the oven by following the following simple steps: Open the oven. Add fuel to the bottom pane. This could be coal, coal, wood or anything else that burns. Put the iron ore in the highlands. Finally, transfer the prepared iron Toogs to the warehouse. How to get a Redstone stallion and make Redstone Dust This is a harder part of making a compass. usually found only deep underground, on floors 15-0. Keep in mind that you can check your layer number by enabling coordinates in the game and looking at the Y coordinate. Keep in place that Redstone iron ore can only be mined with iron logging or better, so come and prepare. Once you've managed to get Redstone's tame, you can melt it into Redstone Dust with the help of an oven. Here's how to: Open the oven. Add fuel to the bottom pane. This could be coal, coal, wood or anything else that burns. In the upper square, set redstone's agglomeration. Finally, transfer the prepared Redstone Dust to the inventory. How to make a compass Once you have collected the necessary ingredients, the next step would be to make your compass. To do this, follow these steps: Open the creation lock. Place Redstone Dust in the center pane of the grid. Place four iron villains in the surrounding squares: the center square of the first row, the first and third squares of the second row, and the middle square of the third row. Finally, just drag the resulting compass into the warehouse. As you can see, a compass can be made quite easily, although some ingredients may be harder to obtain. Once completed, the compass is a rather useful tool for finding land and laying ground eggs. Want to make a compass in Minecraft to explore? I'll show you in detail how you can do it. The compass can also be found in shipwrecks, but it is better to do one.
